FOOD & BEVERAGE MANUFACTURING

Technological advancements, consumer behaviour and regulatory challenges are changing the landscape of the food & beverage manufacturing industry.

RS is here to help you navigate these opportunities and challenges, while keeping your production line running smoothly.

Terms & Conditions

Solutions for the food & beverage industry.

The challenges facing the food & beverage industry are varied and complex. Failure to comply with national safety and quality standards can be time-consuming, expensive, and can result in accidents or contamination. Demands for shorter production times put increasing pressure on a need for reliable and continuous operations. Extreme temperatures and corrosive environments mean you need products which can handle extreme conditions. And this is before we even get to the latest technological and consumer trends.

From sensors to personal protective clothing, from food safe cleaners to thermal imagers, read on to discover specialist product solutions and components ideal for food and drink production.

And with the challenges you're facing in the industry we know you have better things to do than worry about your order being safe and compliant. No matter where you are, we ensure your products get delivered as efficiently and carefully as possible.

Leave the how to us.

za.rs-online.com

Our Solutions

Our solutions support you across the product lifecycle through design, build and maintain.

We can also give you advice on flexible delivery options, cost-saving ways to help you manage your inventory and procurement, through to preventative maintenance and eCommerce solutions.

Product Support

- We off er easy access to product support resources online, via email or by phone.

- Our Customer Service Team can help by understanding your needs and offering product support or directing your enquiry to our technical team.

- Speak to a live chat member on our website for help in finding products or other technical information.

- Or take a look at our technical data sheets which are available on our website at product level. This can help save time, allowing you access to technical information 24/7.

Delivery and Invoice Options

With a range of flexible delivery and invoicing options all designed to suit you

- Local stock: 24/48 hours to main cities in SA.

- Global stock: 4-6 working days unless otherwise stipulated.

- Free delivery for orders over R1000 within SA.

Ordering

There are four different ways that you can place an order

- **Online** - This is the easiest way to order. Products can be delivered as quickly as. the next day if items are in local stock.

- **Email** – send you order/query to Africa@rs-components.com.

- **Phone -** By calling us on +27 (0) 691 9300

- **Branch** - You can get access to locally stocked products at our location in Kyalami Business Park, Midrand.

Procurement Solutions

We have different solutions to help you manage your RS orders. From simple web tools to integrated eProcurement solutions.

Our procurement solutions support customers with complex needs to drive vendor consolidation, reduce costs, improve productivity and deliver innovation.

Product Plus

RS Product Plus is an exclusive service for customers looking to consolidate their spend. Our specialist team can support your requirements and help you source products not published on our website.

Using our expertise and relationships with over 2,500 key manufacturers, we provide access to over a million products. We will also let you know if we find an alternative product offering extract functionailty or value for money benefits.

- **Consolidate your vendors:** saving time managing multiple suppliers and reducing purchase-to-pay costs
- **Leverage your spend:** by placing your orders with fewer suppliers
- **Save time and speed up sourcing:** as there's no need for your teams to search and negotiate with multiple suppliers

eCommerce Solutions

For a more efficient process for your industrial and electronics product procurement, we have a service to fit your business requirements. From web-based and mobile ordering through to integrated procurement solutions.

PurchasingManager™

A free web order management solution that helps you manage your spend, whilst providing visibility of orders placed through the RS website.

PunchOut

Integrated into your own eProcurement system, providing fast and easy access to our full product range and purchase information.

eOrdering

Fast and secure ordering direct from your system to ours. Improves accuracy by eliminating order and invoicing errors.

eInvoicing

Fast and secure invoicing direct from our system to yours. Eliminates paper, whilst saving you time and money in administration processes.

za.rs-online.com

PurchasingManager™

Cut costs, manage processes and improve control

Streamline process

Save time

Gain control
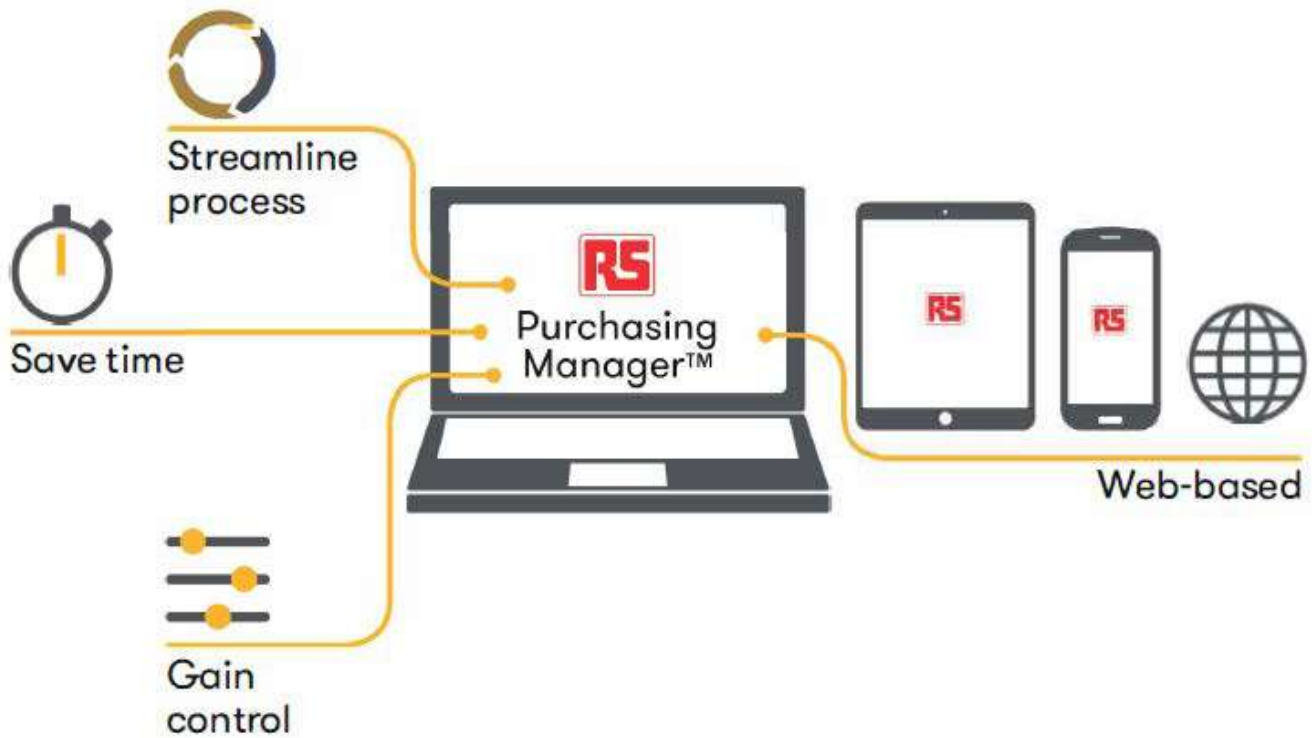

Web-based

RS PurchasingManager™ is a free, web-based order management tool that can dramatically streamline your buying processes, save your business substantial time and money and improve control.

It helps you manage your procurement processes whilst cutting back your procure-to-pay costs, making it an effective way to reduce the costs of high-volume, low-value, ad-hoc purchasing.

This powerful, customisable tool is ideal if you don't have an in-house eProcurement system. And there's no cost or investment involved, as you don't need to upgrade your IT systems or software.

To find out how your business can get Purchasing Manager please speak to your account manager or email us at Sales.za@rs-components.com and we'll contact you.

Cut costs and take control with an RS eCommerce Solution

If multiple people across your organisation are placing large numbers of low-value orders, you have little control over who's ordering what. And you're almost certainly wasting both resources and money. You could also be losing valuable production time if the ordering process only starts when a part or item needs replacing. Delays can occur while the purchasing process lumbers into action – meaning costly downtime. The good news is there's a simple and effective way to cut your company's procurement costs and gain control of your budget spend.

Purchasing action	Average process cost	The difference with an RS eCommerce Solution
Searching for supplier and product	*R 260.00	Direct access to our inventory of over 500k products means less time shopping around. You can search directly for the parts you need with our eCommerce Solutions.
Placing the order	*R 485.00	Check stock availability, prices and technical data instantly. No more inaccurate data, time-wasting repetition or needless manual input.
Chasing supplier and receiving delivery	*R 310.00	Count on us for on-time deliveries and efficient fulfilment.
Processing invoices	*R 500.00	We can support fast and efficient eInvoicing or consolidated monthly summaries, personalised to suit your business.
Paying supplier	*R 260.00	Our eInvoicing capabilities ensure easy invoice reconciliation and quicker payment processing.
	*R 1 815 Total process cost	A simplified procure-to-pay process, saving you money

* Process costs will differ depending on the industry and type of product being purchased. Values are based on research done in the UK and are subject to the exchange rate that was used at the time. Find out more at www.rs-connectedthinking.com.

End inefficient, costly procurement processes

Procurement teams and engineers face a number of challenges when it comes to the maintenance, repair and operation of their organisation's assets and facilities. The supply chain for indirect materials is complex due to the number of stakeholders involved, a fragmented supply base and the sheer number of products split across multiple categories. In addition, there is constant pressure from senior management to reduce costs.

As one of the largest suppliers of industrial supplies, RS is in a unique position to understand the complex needs of its customers and to help these businesses improve their processes and make efficiencies.

The crucial statistic for organisations to understand is that with indirect procurement, process costs can be twice as much as the amount spent on the products themselves. So if your organisation spends £100,000 on purchasing products over the course of a year, you will spend a further £200,000 on processing or 'soft costs'.

2:1

Indirect (MRO) process costs   **Indirect (MRO) product costs**

As such, there is significant value in reducing process costs, rather than focusing purely on the purchase price of individual items.

The challenge

An example of how RS has been able to help a customer take better control of its process costs is our work with a well-known confectionery manufacturer, a market leader within its category with a turnover in excess of £100 million.

RS has worked with this company for a number of years, supplying a wide variety of products. This includes electrical and automation products, PPE equipment, tools and test equipment, which are used by maintenance engineers to help keep operations running.

As a large organisation, the confectionary manufacturer had a long-term plan to streamline their purchasing process, which included reviewing all indirect spend. The procurement department was challenged to reduce admin and bureaucracy around the purchasing process so that it would be quicker and require less input from multiple stakeholders across the business.

Typically, the customer was spending significant time locating suppliers who had the products they needed and then comparing quotes; raising POs with a finance team; and arranging for delivery to be achieved in a time that didn't impact the day-to-day business.

They also felt there was a great deal of duplication and manual entry of information during purchasing. In short, the process was delaying procurement of low-value products, while taking valuable time away from employees' core responsibilties.

The solution

The first step was to process map the company's current procure-to-pay process. This was led by RS's dedicated team of eCommerce specialists and the customer's key stakeholders then, using a process cost calculator (produced in collaboration with Chartered Institute of Procurement & Supply), it was possible to calculate the time taken for each process step in order to produce the total cost to the company for every order they place.

By doing this, it was identified that each PO raised, took 88 minutes from end to end, costing £74 per order. For RS alone, they were placing over 200 orders annually, with a similar number of orders being placed with multiple suppliers.

RS found that the simplest way to remove many of the issues (and additional cost) in the process was to introduce PurchasingManager™ to the customer. PurchasingManager™ is a web-based, order management system used alongside the RS website. Buyers can create account structures across their organisation, assign spend controls, cost centres and approval limits to help manage all RS Online purchasing.

The system allows the end user, usually an engineer, to go onto the RS website, choose the product they need, order it and see when the delivery will be made. Behind the scenes a confirmation request is sent to a senior colleague who can quickly approve the cost and the order is processed.

PurchasingManager™ addressed the authorisation process and became the only authorisation required to approve an order from RS. Once an order is approved, it is sent directly to RS without procurement being involved. The confectionery customer was able to use a single monthly blanket order rather than individual POs, meaning that the only PO processing now takes place at the end of the month.

The existing process was unnecessarily complicated:

- An engineer would choose a basket of goods, raise a paper requisition and send it to their superior for authorisation

- Once this authorisation was granted the requisition was sent to procurement. Procurement would then check the price online before raising a purchase order

- The purchase order would need to be signed off by the head of procurement before the PO was emailed to RS for fulfilment

- Once the goods were delivered, a three-way match was needed between the email request, the PO on their system and the individual invoices

The outcome

The customer now has a simplified workflow with empowered end users, which has significantly reduced processing costs, enabling all functions involved in the indirect purchasing process to focus on value added activities in their respective roles. The customer has moved from an average cost per order of £74 before PurchasingManager™ was introduced, to £46 now. The number of orders also increased to 1,089 annually as they consolidated more orders with RS, reducing their supplier base. Based on the new cost per order, this equated to a £30,492 saving annually compared to their old process.

The entire purchasing process has been greatly speeded up, more employees are ordering from trusted suppliers (rather than using local or online purchases), which improves contract compliance, and parts are being successfully delivered when engineers want them, which means there is far less downtime.

The result is that the customer has gone from an inefficient, costly process with too much duplication of tasks and a lack of clarity to becoming highly efficient with real transparency throughout the purchase-to-pay process.

£30,492 (3.7 weeks)

Savings per year   **Time per year**

FOOD & BEVERAGE INDUSTRY
PRODUCT HIGHLIGHTS

Food Safe Lubricants and Cleaners

A range of Food Processing Safe cleaners & lubricants available from Ambersil, including greases, penetrating oils, multi-purpose cleaners and degreasers all NSF registered and suitable where food contact may occur.

Search 'Ambersil Food' at RS Online

Stainless Steel Photoelectric sensors

M18 photoelectric sensors with a high grade stainless steel housing sealed to IP69K. Ideal for wash-down applications in the Food & Beverage industry, and approved for use with Ecolab and Diversey industrial cleaners.

Search 'E3FC' at RS Online

Radar Guided Level Probes

Guided radar level probes providing accurate and consistent level measurement, suitable for oil or water based fluids. Stainless steel probe, with options for process temperatures up to 100°C and hygienic versions up to 150°C.

Search for 'Sick Radar' at RS Online

Food Environment clothing

We stock an extensive range of food production environment suitable clothing. This includes gloves, aprons, coats, tabards and overshoes and hair protection, from leading brands such as Ansell, 3M and many more.

Search for 'Food Clothing' at RS Online

Metal Content Cable Ties

Metal Content cable ties specifically designed for use in food industries. A special metallic pigment throughout the tie enables even small `cut-off' sections of the tie to be detected by standard metal-detecting equipment. Available in a range of sizes and colours.

INGRESS PROTECTION (IP) RATINGS

The Ingress Protection (IP) rating system is an internationally recognized scale that relates to proven protection against environmental factors such as liquids and solids.

Ingress protection ratings can be identified by the letters IP, followed by two numbers. These numbers define the amount of protection a digital scale has against specified elements and its ability to resist foreign matter that could otherwise get inside the product and cause it to fail.

1st digit = Degree of protection against solid objects

No Protection — 0

Protected against solid objects greater than 50mm. — 1

Protected against solid objects greater than 12.5mm. — 2

Protected against solid objects greater than 2.5mm. — 3

Protected against solid objects greater than 1.0mm. — 4

Protected against dust that could cause sufficient harm. — 5

Protected against all dust. — 6

2nd digit = Degree of protection against water

0 — No Protection

1 — Protected against drops of water.

2 — Protected against drops of water at a 15 degree angle.

3 — Protected against water spray at a 60 degree angle.

4 — Protected against water spray splashing from any angle.

5 — Protected against water jets from any angle.

6 — Protected against powerful jets of water or heavy seas.

7 — Protected against temporary immersion in water (30 minutes at 1M).

8 — Protected against the effects of permanent immersion in water (up to 5M).

9K — Protected against close-range high pressure, high temperature spray downs (80 degC water at 80-100bar for 30sec x 4 angles.

Example:

IP 4 4

Protected against solid objects greater than 1.0mm.

Protected against water spray splashing from any angle.
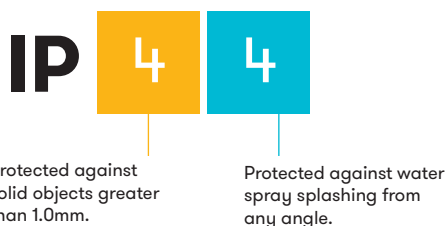

What is IP69K?

The IP69K rating provides protection against ingress of dust and high temperature, high pressure water – making products with this certification ideal for use in conditions where equipment must be carefully sanitized.

In the food processing industry, where hygiene and cleanliness is paramount, equipment must be able to withstand rigorous high pressure, high temperature wash-down procedures.

The IP69K rating is the highest protection available.

What are the advantages of IP69K?

In environments that require heavy washdown, such as in the food processing industry, the combination of water, chemicals, high pressures and temperatures can prove fatal for electronic circuits and instrumentation.

The IP69K rating offers complete assurance that the piece of equipment that has undergone that tests is both durable and resistant and conforms to the highest protection rating on the scale.

TELEMECANIQUE EXTENDED SENSING RANGE IP69K RATED

- TWICE nominal sensing distance
- FLUSH mount
- FAST switching frequency
- 2 & 3 wire controlled devices
- LED status display
- OPERATING temperature range: -25 → +70° C
- REVERSE polarity and short circuit protection (dc types only)

Telemecanique Sensors

444-3287	M18 X 1, PNP-NO 62MM LEN , 12 → 48 V DC SUPPLY VOLTAGE
444-3293	M18 X 1, PNP-NO 74MM LEN , 12 → 48 V DC SUPPLY VOLTAGE

IP69K 304 STAINLESS STEEL WALL BOXES

- Material: Stainless steel
- IP69K rating
- Lockable
- Double lipped edge to ensure higher strength and ease of installation
- Easy to use, including removal of the door

RS PRO

758-6996	300 X 300 X 200MM
758-7006	400 X 300 X 200MM
758-7015	400 X 500 X 150MM

BNS 33S MAGNETIC SAFETY SWITCH, STAINLESS STEEL IP69K RATED

- Control category up to 4 to EN954-1 in combination with a safety monitoring module
- IP69K protection, cable connection suitable for food industry (LiYY)
- Coded switch, actuation only possible with BPS33S actuating magnet
- Dimensions: L7.5 x W27 x H88 mm

SCHMERSAL

617-5150	100 V AC/DC

NDR SERIES EMERGENCY STOP PUSH BUTTONS, IP69K RATED

- This range of Head Emergency Buttons are used in control cabinets, control panels, in elevator construction, on conveyor or transport plants.
- After the manual actuation, the components initiate or switch off work processes and functional processes.
- The range of NDR Series Emergency Stop Push Buttons are available in the form of pushbuttons, joystick switches or key-operated switches.
- They are available in a single, dual and tri state contact blocks.
- There is an option to have N/O (normally open) and N/C (normally closed) contact versions to satisfy every requirement.
- Red 50mm Round Head Emergency Button.
- Key Reset.

SCHMERSAL

742-0763	SEPARATE SPRING ELEMENT, BLACK BELLOWS
742-0760	SEPARATE SPRING ELEMENT, WHITE BELLOWS
742-0757	INTEGRATED SNAP-ACTION MECHANISM, WHITE BELLOWS

INDUSTRIAL IoT

TAKING THE IOT CONCEPT TO THE FACTORY FLOOR

In the consumer space the concept of 'The Internet of Things' is well established. Cloud connected devices and services, such as Google Nest, are allowing us to create a connected home with thermostats, cameras and even doorbells all connected via the Internet to smart apps and cloud services.

So, the concept is proven, the technology exists, and the benefits are clear: convenient, mobile or remote access to devices or data reliably and securely helping you to make decisions faster.

You may have already started an Industrial Internet of Things project, or you may have thought I know I need to do something - but where do I start?

Within the following pages you'll find products which can help unlock productivity data, products which can add intelligence to existing machinery making them IIoT ready and products which enable to you to monitor conditions or make measurements and share these easily with colleagues or for reference.

One thing is clear. Industrial IoT and the concept of Industry 4.0 is here to stay, and you need to be considering how – not if – you will start using it today.

6 STEPS ON THE IIOT JOURNEY

Based on insight from manufacturers and IIoT pioneers we've listed six steps to consider when in pursuit of the connected factory.

1 CAREFULLY CONSIDER WHAT YOU ARE TRYING TO ACHIEVE

Be clear on what the challenge is you wish to use IIoT to solve. If it's just one or two elements or conditions which you want to monitor or track, focus on those. It will reduce complexity and cost allowing you to prove the benefits faster.

2 START SMALL

Don't try and create a complete IIoT infrastructure in one hit, even if you are considering purchasing an off the shelf software solution. Prove it, build on that knowledge, and demonstrate the value.

3 GET THE BUY-IN FROM IT

If this could be a potential barrier don't try and go around the IT team, be clear on your objectives and work with them. If they have concerns, you can start with closed networks or cellular networks (3/4G) which create physical isolation from the business's IT infrastructure for which the IT team are responsible.

### 4 OPERATIONAL EQUIPMENT EFFECTIVENESS (OEE)

If your primary objective is improving this then you may wish to consider a combination of tapping into existing data – trapped in PLCs or other parts of the control system – and connected T&M which can help improve predictive maintenance, reduce unplanned downtime and speed up the diagnostics process. You may also need to add additional sensors which can provide data on conditions – for example motor vibration – which are not know to the control system.

5 EXPOSING PRODUCTIVITY DATA

If your main objective is accessing production data so you can better understand how your process is performing, unlocking existing data should be your first step. Virtually all the key attributes – speed, output, process variables, etc – are available within the process control system. In many cases these can be retrospectively released via protocol monitors completely transparently, without the control system being compromised

6 START ON-PREMISE BEFORE THINKING ABOUT THE CLOUD

This approach has multiple benefits. Firstly, it can allay security concerns that your IT team might have. It can also simplify the solution, while not preventing the data from being 'cloud ready' in the future. Our experts suggest that in many cases the information will only be used or accessed on site so the benefits of a cloud-based solution might be negligible.
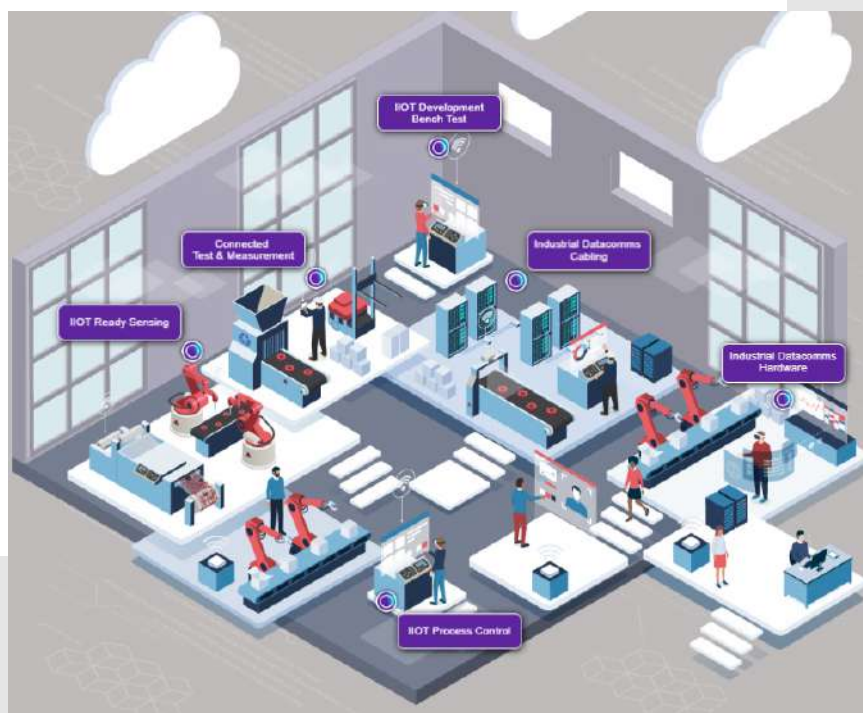

What is IOT, IIOT & Industry 4.0?

In short, IoT is a broad term used to refer to all devices which are connected to the internet beyond the familiar mix of PCs, laptops, phones and tablets.

The Industrial Internet of Things simply put, IIoT takes the concept of networking devices and connecting them to the internet to share data – locally or remotely – in factories, industrial processes and industrial buildings. Sensors collect the information, which is consolidated via a gateway to the local network, then onwards through an edge controller to the internet or the cloud – data servers within large data centres.

Industry 4.0 is when components communicate independently with the production system and, if necessary, arrange for repairs themselves or reorder materials. It's when people, machines and industrial processes network intelligently.

What are the advantages of IOT?

A few examples of how the manufacturing industry is using IIoT:

- **Optimising the manufacturing line:**
  Industrial IoT sensors enable continuous monitoring of the production line from start to finished product. This enables operators to continuously fine-tune the manufacturing process, saving both time and money
- **Inventory and supply chain management:**
  manufacturing stands or falls on the supply of raw materials and components. RFID (radio frequency identification) tags and similar technologies allow components and supplies to be tracked continuously, in real-time, from location to location, providing continuous monitoring of inventory and compensatory adjustments
- **Packaging assessment:**
  Industrial IoT sensors allow manufacturers to monitor the condition of packaging during transit and storage and even assess how customers typically interact with it, enabling improvements to design
- **Real-time manufacturing data:**
  IIoT devices can supply real-time operational data to suppliers, enabling responsive adjustments and also allowing the remote management of factory units

XINABOX IOT STARTER KIT

- Everything needed to build an IoT smart (edge) device, that collects environmental data, and to which an actuator can be attached for automation projects.
- Control an electric gate, garage door, or fan, and connect to IoT dashboards to create alerts and control algorithms.
- View sensor data, IoT messages and diagnostics locally on the mini-OLED display.
- In the box: an xChip sensor for temperature, humidity and pressure, a Wi-Fi and BLE Core xChip (ESP-WROOM-32), mini-OLED display, a solid state relay to switch low voltage appliances, connectors, a programming interface plus a RasPi bridge.
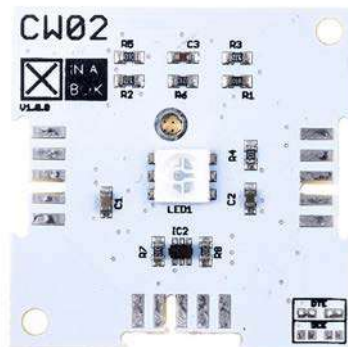

190-6041

WIRELESS HARMONY XB5R SERIES RECIEVERS

- Wireless and batteryless package, containing a push-button, set of caps and receiver.
- Reduction of wiring allows for a quick and easy installation.
- Flexible due to its mobility, giving greater control to operators. Can be used to remotely control machines up to 25 m away.

Schneider Electric
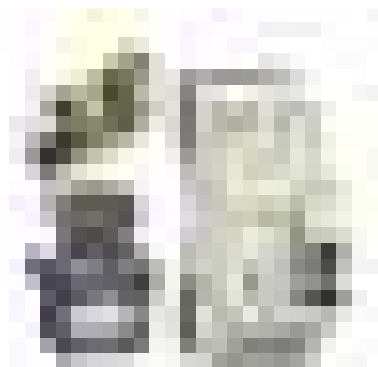

739-8060	10 COLORED CAPS, PLASTIC, 24...240 V AC/DC
739-8064	10 COLORED CAPS, METAL, 24...240 V AC/DC
739-8067	6 COLORED CAPS, METAL, 24 V DC

IO-LINK SMART SENSOR

- Temperature and Humidity Recorder
- Combines three functions in one: sensor, interface and transmitter.
- The most recent standards of microtechnology and microsystems technology (sub areas of sensor technology and measurement technology) used in intelligent sensors of small sizes, are the basis for our CSS 014.

DISPOSABLE COVERALL

- Excellent barrier against dry particles and certain liquid chemical splash
- Soft and light, ultra low-linting laminated microporous material that drapes and hangs well over the body facilitating ease of movement
- 3 panel hood, 2-way zip and storm flap with sealable tape with elasticated back and ankles to reduce the risk of skin exposure
- Knitted cuffs and elasticated waist and ankles for increased comfort and freedom of movement
- Anti-static coating reduces static discharge and minimises the risk of sparks
- Nuclear particulate hold out

185-7224	WHITE AND BLUE, M
185-7222	WHITE AND BLUE, XL
185-7219	WHITE, M

3M PELTOR 4800AF ANTI-MIST SAFETY GOGGLES WITH CLEAR LENSES

- Panoramic vision lens
- Anti-fog coating
- Fits over spectacles
- Lens marking AOS.1.B

465-9331	ANTI-MIST, CLEAR LENS

3M 6000 FULL RESPIRATOR MASK

- Reliable, convenient, compatible respiratory protection
- The 3M™ Full Facepiece Reusable Respirator 6000 Series offers versatility for many environments and applications
- Helps provide respiratory protection against a wide variety of gases and vapors when used with approved catridges and filters

286-7136	SMALL

3M HF-800SD HALF RESPIRATOR MASK

- Greater breathability and comfort provided by the world's first quad flow cartridge system
- Push-button seal check helps bolster confidence that the respirator is properly sealed to the face
- The speaking diaphragm is designed to help provide easier communication while you work

190-1913	MEDIUM

3M PARTLCULATES FILTER FOR USE WITH 3M 6000 Series RESPIRATOR

- 3M™ Particulate Filters 2125 offer P2 R protection against solid and liquid particles
- Suitable for use with 3M™ all 3M™ Reusable
- Half and Full Face Masks featuring the Bayonet Filter Connection System
- Bayonet fitting allows filters to be clicked into place for ease of fitting

766-233	1 BOX OF 20

3M PELTOR OPTIME III EAR DEFENDER WITH HEADBAND

- Ideal hearing protection against noise arising from extremely noisy environments like airports, marine engine rooms, power stations and print works
- Double casings technology helps minimise resonance effect
- Large space inside cup helps reduce moisture and heat build-up
- Soft wide cushions help reduce pressure around the ears and improve comfort and wearability

449-3499	H10 SERIES HEADBAND EARMUFFS
449-6528	35DB NECKBAND
774-4000	26DB NECKBAND

UVEX UUNATTACHED DISPOSABLE EAR PLUGS

- Stored in dispenser
- Detectable metal clip at cord
- Easy and quick insertion
- Easy handling and correct insertion

uvex

168-1687   26DB (PACK OF 250 PAIRS)

UVEX ULTRAVISION ANTI-MIST SAFETY GOGGLES

- Classic, ergonomic wide-vision goggle with unrestricted side visibility
- Lenses can be replaced
- Colour of frame: transparent grey
- Clear CA lens
- Reliable UV 380 protection

uvex

185-3495   CLEAR, ANTI-MIST

UVEX ULTRASONIC, SCRATCH RESISTANT ANTI-MIST SAFETY GOGGLES

- Goggles in sporty design, also suitable as overspecs
- Lenses can be changed
- Frame colours: black, grey
- PC lens, clear
- Protection features
- Reliable UV 400 protection

uvex

195-1558   ULTRASONIC SPEC

UVEX PHEOS GUARD S ANTI-MIST UV SAFETY GLASSES

- Modern, fashionable looks
- Duo-spherical lens with wide field of vision & scratch-resistant

uvex

195-1556	CLEAR POLYCARBONATE LENS
195-1557	GREY POLYCARBONATE LENS
195-1554	LIGHT GRAY/GRAY FRAME, CLEAR LENS

UVEX SKYGUARD NT ANTI-MIST UV SAFETY GLASSES

- Spectacles with all-round protection
- Frame colours: grey, orange
- PC lens in clear
- Reliable UV 400 protection

uvex

185-3506	BLUE FRAME CLEAR LENS
185-3507	CLEAR FRAME CLEAR LENS

UVEX LENS CLEANING STATION

- 4 x 9991-000 Tissues
- Tissues are non-abrasive and absorbent
- 1 x 16 fl oz bottle cleaning fluid
- Cleaning station – 9991-000
- Unit dimensions – 340 mm wide, 480 mm long, 165 mm high

uvex

130-2349   LENS CLEANING STATION

HI-VIS CONTRAST BOMBER JACKET

- High visibility
- Weatherproof
- Studded Storm flap
- Zipped
- Detachable hood, sleeves & fur lining
- Fur lines knitted cuffs
- Reflective tape marking
- Waistband
- Taped seams
- Phone pocket
- Versatile (can be worn 3 different ways)

918-5983	YELLOW/NAVY BOMBER, L
918-5992	YELLOW/NAVY BOMBER, XL
918-6005	ORANGE/NAVY BOMBER JACKET, M
918-6009	ORANGE/NAVY BOMBER JACKET, L
918-6018	ORANGE/NAVY BOMBER JACKET, XL
918-6011	ORANGE/NAVY BOMBER JACKET, XXL

HI-VIS WARSAW EXECUTIVE VEST WAISTCOAT

- Warsaw executive vest waistcoat
- High visibility
- Reflective tape marking – increased visibility
- Contrast panels for dirt protection

141-8177	ORANGE S
141-8178	ORANGE M
141-8179	ORANGE L
141-8183	ORANGE XL
141-8292	ORANGE XXL
141-8168	YELLOW S
141-8169	YELLOW M
141-8170	YELLOW L
141-8174	YELLOW XL
141-8176	YELLOW XXL

AIR TECH BUMP CAP

- Cooling mesh fabric for increased breathability
- Shock absorption provided by the Inner ABS (acrylonitrile, butadiene and styrene) shell and soft pad
- Reflective piping for increased visibility
- CE certified that conforms with health, safety, and environmental protection standards
- Mid-length peak makes this bump cap suitable for all uses

171-6850	ADJUSTABLE, NAVY

LED BEANIE HAT

- Warm and comfortable acrylic beanie hat
- Features a removable LED front light for superior visibility in low light conditions
- Rechargeable LED can be charged in a USB port

171-6854	NAVY
171-6853	ORANGE

HEAVY DUTY KNEE PADS

- Lightweight
- Waterproof coating
- Heavy-duty durable plastic cap allows the wearer to swivel and slide with little resistance
- Two strong nylon, fully adjustable straps
- Straps fasten with velcro
- Straps are partially elasticated for extra hold

154-851	ADJUSTABLE, ONE SIZE FITS ALL

FOOD & BEVERAGE INDUSTRY
TEST & MEASUREMENT

Confidently measure with our extensive range from industry leading brands you trust for accuracy.

Test & Measurement Highlights

DPI 705E AND DPI 705E-IS HANDHELD PRESSURE INDICATORS

- 48 pressure ranges from ±25 mbar to 1,400 bar (±1.69 psi to 20,000 psi)
- Total 1 year uncertainty 0.05% full scale over -10°C to +50°C temp range
- Remote plug + play pressure and Resistance Temperature Detector sensors
- DPI705E Safe Area pressure indicator
- DPI705EIS Hazardous Area pressure indicator

Druck

201-2871	200 BAR, HAZARDOUS AREA
201-2877	70 BAR, HAZARDOUS AREA
201-2885	2 BAR, HAZARDOUS AREA
201-2870	70 BAR, SAFE AREA
201-2878	350 BAR, SAFE AREA
201-2867	10 BAR, SAFE AREA

DATA LOGGERS

- 3 data loggers for monitoring chilled goods, frozen goods and ripening goods
- No setup required. One button press-to-start logging
- Temperature measurement accuracy is ±0.5°C

LASCAR electronics

910-7068	CHILLED GOODS HIGH 8°C LOW 2°C
910-7062	FROZEN GOODS HIGH -16°C LOW -20°C
910-7071	RIPENING GOODS HIGH 14°C LOW 12°C
111-8087	WATERPROOF BAG

NON-CONTACT INFRARED THERMOMETER

- Medical grade infrared temperature detector
- Designed with a double moulded plastic housing with ergonomic grip for ultimate user comfort and to allow continuous use over extended periods of time
- Built-in laser targeting with a 1 cm to 10 cm measurement range, allows for better and more accurate targeting to ensure optimum measurement accuracy and precise non-contact temperature readings using the Body or Surface Temperature functions
- In Body temperature range of +32°C to +42.5°C with an accuracy of ±0.3°C

RS PRO

201-0210	DT-8806

HCB INDUSTRIAL HANGING BALANCES

- Adjusting program (CAL)
- Stainless steel snap link with safety catch and 15 mm aperture
- Up to 200 kg weighing range

KERN

700-7055	200KG CAPACITY

KEYSIGHT U1168A STANDARD MULTIMETER TEST LEAD KIT

- Test leads, Test probe (19-mm tips), Test probe (4-mm tips), Alligator Clips, Fine Tip Test Probes, SMT Grabber and Mini Grabber (black only)

KEYSIGHT TECHNOLOGIES

760-0373	19MM AND 4MM PROBE TIPS

Food and beverage—work that feeds the world

Fluke can help you save time, manage processes and increase productivity

Today's food and beverage manufacturers operate in a pressure cooker. Keeping the lid on production costs and energy expenditures can be a daily challenge. Regulatory requirements, safety issues, and the demands of maintaining uptime add another layer of complexity.

Food and beverage processing plants play a key role in ensuring human health and protecting the environment. They must operate with extreme reliability and precise control of temperature and other operating parameters. At the same time, plant operators face requirements to save on energy costs, operate more efficiently and eliminate accidents.

Fluke has solutions to minimize waste, optimize equipment, prevent downtime and reduce energy consumption. Fluke tools are the industry standard against which other tools are measured.

More information and resources. You can always count on Fluke for the troubleshooting techniques, application information, and training to keep your plant up and running. Visit our web site at **www.fluke.com**.
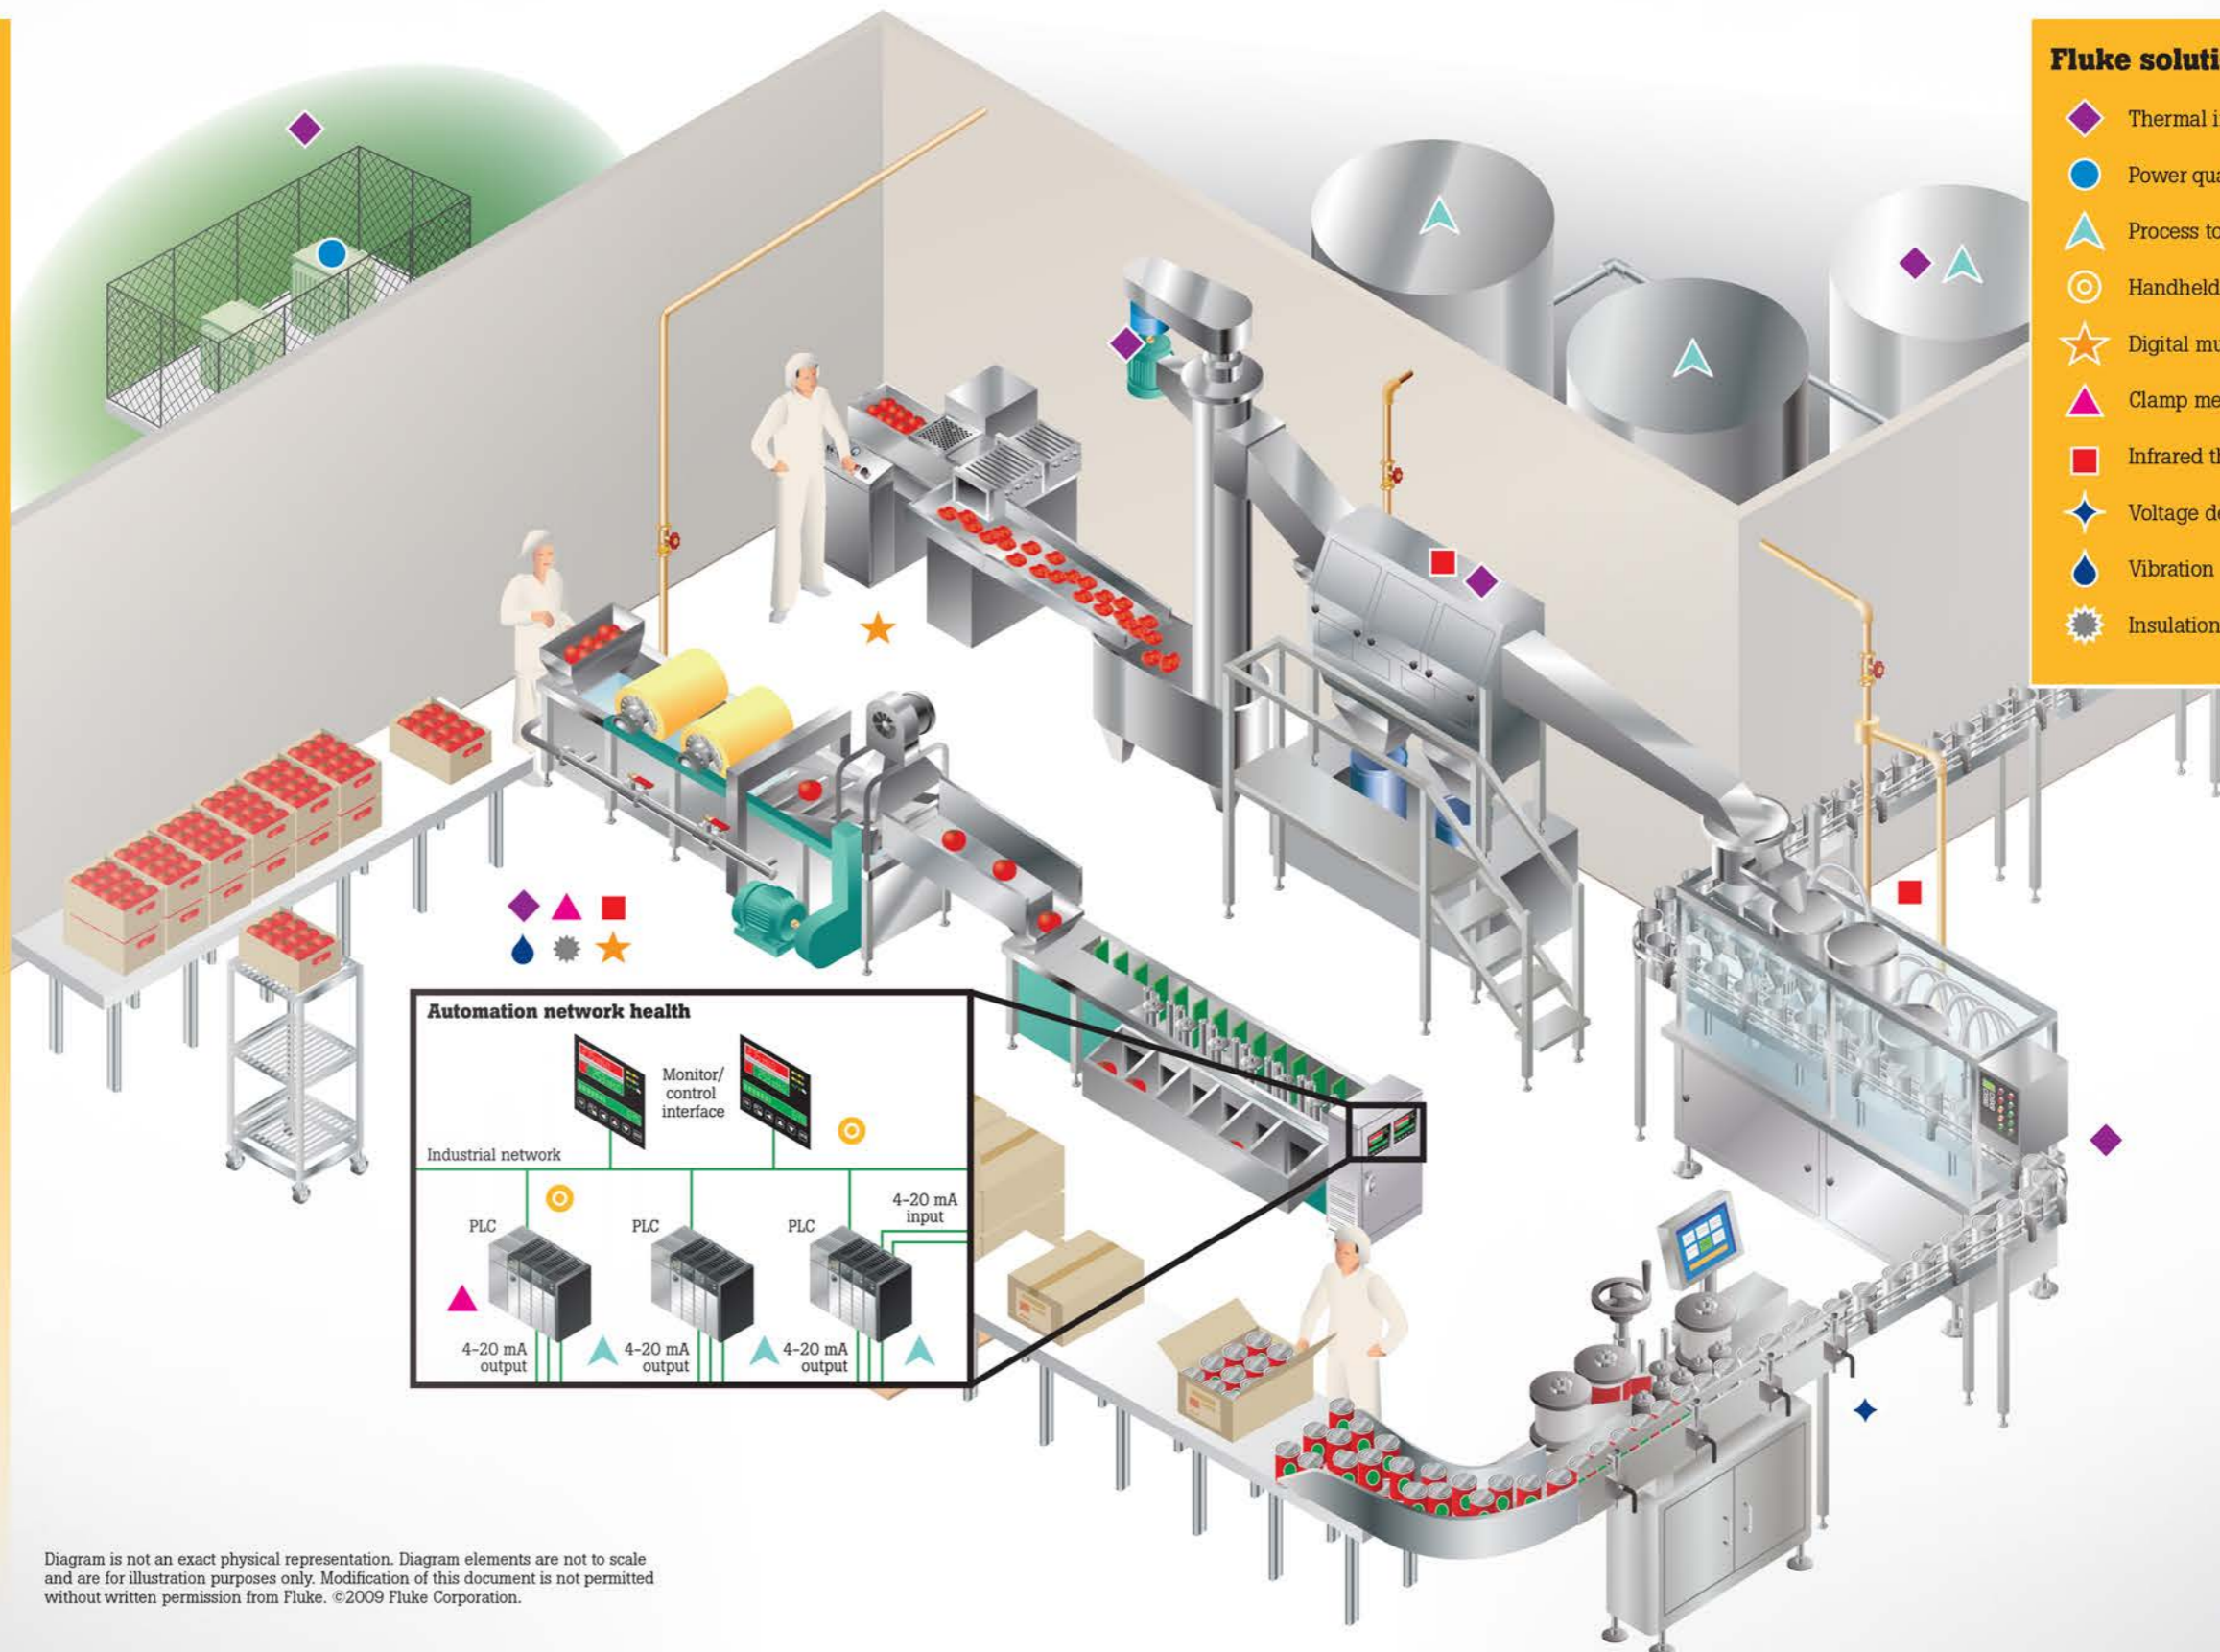

Fluke solutions:

- Thermal imagers
- Power quality
- Process tools
- Handheld oscilloscopes
- Digital multimeters
- Clamp meter
- Infrared thermometers
- Voltage detectors
- Vibration
- Insulation tester

FLUKE.

FLUKE 773 MILLIAMP PROCESS CLAMP METER

- Measure 4 to 20 mA signals without breaking the loop
- Source/simulate 4 to 20 mA signals and 0-10V DC and provide loop power
- Best in class accuracy of 0.2% with 0.01mA resolution and sensitivity

FLUKE.

669-3493

Fluke 62 MAX MINI INFRARED THERMOMETER

- Fluke's MAX series are precise and designed to resist a 3 meter drop
- IP54 rated for dust and water resistance
- Absolute maximum temperature measurement +500°C

FLUKE.

760-0385

FLUKE 754 DOCUMENTING PROCESS CALIBRATOR- HART

- Complete pressure, temperature, and mA loop calibrator
- Troubleshoot and calibrate HART smart digital transmitters
- Create calibration procedures and automatically document results
- Connect to calibration management software

FLUKE.

744-2527

FLUKE 1736 – POWER ENERGY MONITOR & LOGGER, 4 INPUT CHANNELS

- Colour LCD display: 4.3in active matrix TFT, 480px x 272px, resistive touch panel
- Voltage range: up to 1000V
- Current range: 4A to 6000A
- Frequency: 42.5 to 69Hz
- Comprehensive logging
- Highest safety rating in the industry: 600 V CAT IV/1000 V CAT III rated for use at the service entrance and downstream
- Interfaces: USB-A, Wi-Fi, Bluetooth, USB-mini

FLUKE.

900-9983

Fluke 377FC / 378 FC Clamp Meters

- The Fluke non-contact voltage true rms AC/DC clamp meter with iFlex use field sense technology to make testing faster and safer, all without touching a live conductor
- Use the iFlex flexible current probe to measure ac current as high as 2500 A. The iFlex probe provides access to large conductors in tight spaces
- The Fluke 378 FC includes a power quality test that provides quick indication of whether an incoming power problem or an equipment problem exists

Be sure. **testo**

Avoid food scandals by using the right measuring instruments from Testo:

- thermometers
- humidity meters
- WiFi data loggers
- cooking oil testers
- pH meters
- USB data loggers

FOLDAWAY THERMOMETER – TESTO104

- Waterproof folding thermometer - ideal for spot check measurements in the food sector
- Ideal for use with food: HACCP compliant, EN 13485 certified
- Can be cleaned under running water – IP65 rated
- Practical folding mechanism with rugged metal joint; easy and ready to use
- Automatic final value recognition (auto-hold); min/max memory for all hold/auto-hold readings

720-3770

FOOD THERMOMETER WITH TOPSAFE – TESTO 106

- The Testo 106 food thermometer is now available as a practical kit with useful accessories including a waterproof case and clip
- Ideal for measuring the core temperature of food: HACCP compliant and EN 13485 certified when used with the TopSafe protective case
- Further benefits which the TopSafe protective case has to offer: waterproof and dirt resistant, IP67 rated, dishwasherproof
- Visual and audible alarm that warn when thresholds are exceeded
- Further benefits which the kit has to offer: you have all the accessories you need, i.e. clip and sensor protective cap for safe storage

620-9758

ROBUST PENETRATION THERMOMETER – TESTO 105

- Designed for daily use: rugged, can be cleaned under running water (IP65 protected)
- Changeable measuring tip: standard tip for semi-solid media, i.e. meat / long 200 mm measuring tip for semi-solid media (optional) / measuring tip for frozen food (optional)
- Two adjustable thresholds, audible / visual alarm that are triggered when thresholds are crossed
- EN 13485 and HACCP compliant
- Probe thermometers are used in the food industry to measure the core temperature of semi-solid media like meat and cheese, for example. That's why they have to be especially rugged and reliable. The testo 105 food thermometer is just that. And more

479-1889

MINI DATA LOGGER SET – TESTO 174T

- The Testo 174T mini data logger for temperature is your practical support for continuous temperature measurement (e.g. the storage temperature of drugs or food). When buying these sets, you also get a USB interface for data transfer to the PC
- Measurement data memory for 16 000 temperature readings, approx. 500 days of battery life
- Advantage of the set: comes with USB interface for data transfer to the PC
- Waterproof according to IP 65, HACCP-compliant and certified according to EN 12830
- Data analysis: three different software versions available, basic software free to download

712-5468

TRANSPORT DATA LOGGER: TESTO 184-T3

- With the testo 184 T3 temperature data logger, you can now monitor the transport of sensitive products, such as pharmaceuticals, food or electronic items, both safely and conveniently. A start and stop button means the temperature data logger guarantees really easy operation for data recording. At the destination, a glance at the display or the LEDs tells you whether the configured limit values have been adhered to during transport
- Unlimited operating time
- All in one temperature data logger: PDF measurement data, configuration file, acceptance test certificate 3.1 according to DIN ISO 10204 and instruction manual
- Immediate creation of a PDF report directly after connection to a computer
- Monitoring transport in compliance with GxP, 21 CFR Part 11, HACCP and EN 12830

851-3469

DATA LOGGER – TESTO 175-T1

- The Testo 175 T1 set already includes three temperature loggers along with practical accessories for you. This means you have the best possible equipment for recording the temperature in several areas – e.g. in cold, storage and sales areas, such as in butcher's shop
- Perfect for long-term measurements: memory records up to 1 million readings, battery life of up to 3 years can be achieved
- With this kit, you'll be ready to start straight away: it includes three temperature loggers, ComSoft Basic software for free download, USB interface, SD memory card, lock and wall brackets
- Practical: you can read the current measuring values, min./max. values, limit values and violations of limit
- values on the logger's display
- HACCP-compliant, EN 12830 certified and protection class IP 65

732-0562

WIFI DATA LOGGER WITH INTEGRATED NTC PROBE: TESTO SAVERIS 2-T1

- The WiFi data logger testo Saveris 2-T1 allows you to monitor the temperatures in refrigerated, work- or storerooms. The temperature values measured with the integrated probe are reliably recorded over long periods, and transmitted directly to the Testo Cloud (online data store) via your wireless LAN
- You can access these readings at any time, anywhere, using your internet-enabled smartphone, tablet or PC
- Automated temperature monitoring with integrated probe
- WiFI data logger system with easy installation and operation
- Call up temperature data at any time via Smartphone, tablet or PC
- Limit value violation alarms by e-mail or (optionally) SMS

145-0234

INFRARED & PENETRATION THERMOMETER – TESTO 104-IR

- Incoming food, food on display, food in storage: the testo 104-IR infrared probe thermometer allows you to carry out quick and reliable temperature and food safety checks in the course of your busy working day. Ideal for use in the food sector, restaurants and the retail industry
- For carrying out surface and core temperature measurements
- With integrated probe and infrared laser
- Durable and practical: rugged folding joint, waterproof housing (IP65), fits snugly in any pocket
- HACCP / EN 13485 compliant

777-0453

2-LASER INFRARED THERMOMETER – TESTO 831

- The Testo 831 infrared thermometer allows you to carry out quick and precise temperature measurements of whole pallets of food and smaller products from a distance. Ideal for checking the temperature of incoming goods and for use in food production
- Non-contact, non-invasive temperature measurements due to IR technology
- Precise temperature measurements also of smaller products and from a distance
- Ultra-fast: two measurements per second – allows you to scan whole pallets in the blink of an eye
- Includes 2-point laser measuring spot marking, 30:1 optics, belt clip, batteries

764-4411

COOKING OIL TESTER – TESTO 270

- Accuracy is ±2 %TPM (+40 to +190 °C) ±1.5 °C
- Resolution is 0.5%TPM (104 to 374°F) (+40 to +190 °C), 0.1°F / °C
- Capacitive oil sensor
- Clear, visual alarm indication via LCD, 2-line highly-visible alarm backlight in traffic light colours
- Ergonomic design

891-9167

pH METER FOR LIQUIDS – TESTO 206-pH1

- Perfectly equipped for pH measurement in liquids: the universal testo 206-pH1 pH/temperature measuring instrument features innovative probe technology. Particularly suitable for use in the food sector
- Ideal for measuring the pH value of liquids
- The integrated temperature probe enables automatic temperature compensation
- Maintenance-free gel electrolyte
- Robust, waterproof and dishwasher-safe protective case (TopSafe, protection class IP68)

479-8492

DET4TC2 EARTH TESTER

- Automatic P spike and C spike check
- Choice of 2, 3 or 4 terminal measurements
- Clamp input for no-disconnect testing (requires ICLAMP)
- Clamp inputs for stakeless testing (requires ICLAMP and VCLAMP)
- Earth current range (requires ICLAMP)

489-664   200KΩ CAT IV 100 V

AVO830 HANDHELD DIGITAL MULTIMETER

- IP54 environmental protection
- Phase rotation
- High / Low sensitivity live circuit detection
- 10 MΩ / 10 kΩ input impedance
- MIN / MAX / AVG / Smoothing

136-7898

AVO DCM 300E

- Fully IEC1010-1 and IEC101-2-032 compliant for circuits up to 500V phase to phase or 300V phase to earth CAT III or 600V CAT II
- 30mA and 300mA ranges for leakage current measurement
- 0.01mA resolution on 30mA range

247-0142

RCDT310-EN-BS RCD TESTER, RCD TEST TYPE AC SELECTIVE, DC SELECTIVE, RCD TEST CURRENT

- Tests 30mA, 100mA, 300mA and 500mA rated RCDs
- 1/2x I, I, 5x I tests standard, DC and selective RCDs
- 0° or 180° polarity tests on all RCDs
- Selective breakers have a time delay in tripping. When selected, trip test times are extended and a 30s delay is allowed between the measurement of the fault voltage and the application of the test current
- Selectable touch voltage inhibit and touch voltage display on the analogue bargraph

712-5737   500MA CAT III 300V

TDR1000/3 TIME DOMAIN REFLECTOMETERS

- Dual cursors providing an instant indication of the distance between two points
- Auto set up for instant use
- Auto selected output impedance (between 25ohm, 50ohm, 75ohm and 100ohm)
- Ultra-fast pulse for near end fault identification
- Trace HOLD feature to allow comparison between cables
- Designed for use on all metallic cable pairs

764-2825   5000M

MIT515, INSULATION TESTER

- 10 TΩ (5 kV) / 20 TΩ (10 kV) max. insulation resistance
- Timed IR plus PI and DAR diagnostic tests
- Operate with dead battery when on line power/mains
- Rapid charge Li-ion battery – up to 6 hrs continuous testing (5 kV)
- Dedicated voltmeter function (30 V to 660 V)
- CATIV 600 V safety rating
- Large LCD display with automatic backlight
- Noise filter – rejects up to 3 mA noise

765-9586   5000V, 10TΩ, CAT IV

PAT150-AU PAT TESTER

- The PAT150 model has test groups available for Class I, Class II and Extension/Power leads
- Simple Tick/Cross, pass/fail indication plus measurement
- Includes 250 V Insulation and Leakage testing for safe IT testing and surge protected devices
- Testing portable and fixed electrical equipment
- 10 mA and 30 mA Portable RCD lead testing
- Adjustable PASS test limits
- Substitute and Mains powered leakage testing
- Tough, rubber armoured with built-in front cover, hardened, scratch proof display window

823-0420   CLASS I, CLASS II TEST TYPE

MFT1825 MULTIFUNCTION TESTER, EARTH RESISTANCE MEASUREMENT WITH EUROPE MAINS

- Simple colour-coded test selection and large clear backlit display for ease of use
- Two and three wire non-trip loop testing for RCD protected circuits
- Internal memory and Bluetooth® communications
- Type-B RCD and 3-phase RCD testing for industrial applications with no Earth

901-1330   1000V

MEGGER MIT485, INSULATION TESTER

- Insulation testing up to 500 V and 100 GΩ range in a hand held instrument
- Three wire connection for tip, ring and earth connection
- Gated access to 500 V to prevent accidental damage
- Adjustable insulation test voltage from 10 V to 500 V

122-6797   1000V, 200GΩ

Take the trouble out of troubleshooting.

MPQ1000

Power Quality Analyzer

The Megger MPQ1000 Power Quality Analyzer is Class A compliant and rated CAT IV at 600V. It can be used for a wide variety of applications including substation monitoring, equipment and breaker tripping, load studies and balancing as well as for switchgear and component failure.

Some of its features include:

- ■ Automatic CT recognition
- ■ Automatic connection verification
- ■ On-board data analysis
- ■ SD card and USB stick support

- ■ 1000 V ac and dc range
- ■ Scope and DMM modes
- ■ CATIV @ 600 V
- ■ IEC61000-4-30 Class A compliant

Megger ®

P o w e r   o n

FLIR ONE® PRO-SERIES THERMAL IMAGING CAMERA

- The FLIR ONE Pro and FLIR ONE Pro LT give you the power to find invisible problems faster than ever.
- With robust features such as multiple temperature meters and level/span controls, FLIR ONE Pro cameras work as hard as you do.
- The revolutionary VividIR™ image processing helps you see more details, FLIR MSX® adds sharpness and perspective, and the FLIR OneFit™ adjustable connector extends up to 4 mm to fit many popular protective cases.
- Whether you're inspecting electrical panels, looking for HVAC problems, or finding water damage, the FLIR ONE Pro and FLIR ONE Pro LT are tools no serious professional should be without.
- FLIR ONE Pro has a thermal resolution of 19,200 pixels (160 × 120), Thermal sensitivity 70 mK and Object temperature range -20°C to 400°C.
- FLIR ONE Pro LT has a thermal resolution of 4,800 pixels (80 × 60), Thermal sensitivity 100 mK and Object temperature range -20°C to 120°C.

136-8285	FLIR ONE PRO ANDROID USB-C CONNECTOR
136-8286	FLIR ONE PRO ANDROID MICRO-USB CONNECTOR
175-7362	FLIR ONE PRO LT IOS LIGHTNING CONNECTOR
175-7363	FLIR ONE PRO LT ANDROID USB-C CONNECTOR

FLIR EX-SERIES INFRARED CAMERA WITH MSX & WIFI

- Easy to use: The FLIR Ex series cameras are fully automatic and focus-free with an intuitive interface for simple measurements in thermal, visual, or MSX mode.
- Compact and rugged: The FLIR Ex series cameras' low weight of 0.575 kg and the accessory belt pouch make them easy to bring along at all times. Their rugged design can withstand a 2 m drop test, and ensures reliability, even in harsh environments.
- Ground breaking affordability: The FLIR Ex series cameras are the most affordable infrared cameras on the market
- Convenient to share images and findings: Download images, create reports, and share what you've found instantly

184-6121	INFRARED CAMERA TEMP RANGE -20°C TO 400°C, IR RESOLUTION 160 x 120 (19,200 PIXELS)
184-6123	INFRARED CAMERA TEMP RANGE -20°C TO 550°C, IR RESOLUTION 240 x 180 (43,200 PIXELS)
184-6124	INFRARED CAMERA TEMP RANGE -20°C TO 550°C, IR RESOLUTION 320 x 240 (76,800 PIXELS)
135-3291	REPLACEMENT BATTERY FOR EX SERIES
848-1384	REPLACEMENT BATTERY CHARGER POWER SUPPLY FOR EX SERIES

FLIR TG54 SPOT IR (INFRARED) THERMOMETER

- Precise, non-contact measurements of temperature
- 1.45"" TFT LCD screen
- Rugged, industrial casing will withstand a drop of up to 3m
- High/low visual alarms
- Built-in laser targeting system makes it easy to identify the measurement point
- 128 x 128 pixels
- -30°C to 650°C (-22°F to 1202°F) temperature range
- 24:1 distance-to-spot ratio
- IP56 rating

922-8759	SPOT INFRARED THERMOMETER

FLIR CM74 600A AC/DC CLAMP METER

- With built-in, high-power dual-LED worklights the FLIR CM74 AC/DC clamp meter provides extra illumination for environments with little or no light.
- Readings are clearly visible on the large digit backlit LCD display, ideal for dark spaces.
- Compact and lightweight the FLIR CM74 easily fits in your pocket, overalls or toolbox

922-6232	CM74 600A AC/DC CLAMP METER
123-6702	ACCESSORY - FLEXIBLE CLAMP ADAPTOR (10", 25CM)
123-6703	ACCESSORY - SOFT-SIDED CARRYING CASE

FLIR VT8 VOLTAGE, CURRENT & CONTINUITY TESTER

- The FLIR VT8's optimized and open-jaw design allows it to fit into tight spaces and reliably measure large-diameter cables.
- Extensive measurement features make the FLIR VT8 a versatile tool – just one meter can get the job done.
- Carry the compact tester in your pocket to be ready at any moment for easy troubleshooting.

181-2427	200 A, 1000 V
181-2426	100 A, 600 V
123-6703	SOFT CASE

Discover the RS PRO range of **Test & Measurement equipment.**

Your smart choice for any measurement need - from environmental to lab equipment, from electrical products to a collection of maintenance solutions.

RS 135 MULTI FUNCTION CALIBRATOR

- Source 4~20 mA, 0~24 mA with 1 μA resolution (1 KΩ load, 24 V loop supply), basic accuracy 0.025%
- Source 0~24.000 V with 1 mV resolution
- Source frequency 1~20000 Hz square wave with programmable duty cycle (1~99%)
- Auto step and auto ramp for sourcing mA, V
- Easy fixed 25% up and down, or programmable percentage (1~99%) increase and decrease (mAV)
- Measure DC mA with loop power (24 V output)
- Measure DC V
- Measure Temperature (°C, °F) of 11 types of thermocouples (K, J, E, T, R, S, N, L, U, B and C)
- Calibrator grade precision temperature measurement with 0.1°C & 0.1°F resolution
- Detection of thermocouples disconnection
- Warning for overload, output open (mA) or short (V)
- Short circuit protection for output
- Battery power indication (%) when turn on the calibrator
- Battery or electrical power supply

174-9557   4-20MA LOOP CALIBRATOR + THERMOMETER

BLUETOOTH POWER CLAMP METER

- 10,000 count digital display
- 50 segment analogue bar graph
- Large LED backlit display
- Bluetooth connecting
- Auto store up to 1000 memories
- Data logging up to 9,999 records
- True RMS reading on AC and AC+DC mode
- Torch lightening on trigger push
- Auto Ohms/Continuity/Diode selection
- AC 600 Amps capability
- Auto AC/DC 1000 Volts capability and selection
- AC current via flexible current probe
- Power and power factor measurement
- Total harmonics distortion and harmonics 1 to 25
- Phase rotation indication
- 100K Ohms resistance capability
- Frequency counter
- Capacitance capability
- Smart data hold, peak hold, min max hold functions
- Inrush current

162-4455   RS PRO 155 BLUETOOTH CLAMP MULTIMETER

MAGNETIC FIELD INDICATOR / SOLENOID TESTER

- Easy to use
- Powerful red light indicator
- Lightweight

375-5422   MAGNETIC STICK FIELD INDICATOR

ATEX/IECEX MAGNET STICK INDICATOR

- Easy to use
- Powerful red light indicator
- Lightweight
- Ambient Temperature: -20°C to +40°C
- Weight: 40 gms

141-1996   ATEX/IECEX MAGNET STICK INDICATOR

INFRARED THERMOMETER WITH DUAL LASER POINT

- Ergonomic grip for ultimate user comfort and to allow continuous use over extended periods of time
- Built-in dual-laser targeting for better and more accurate targeting to ensure optimum measurement accuracy and precise non-contact temperature readings
- Temperature range of -50°C to +550°C with an accuracy of ±1 % of the reading at 20°C to 300°C (includes a user-selectable option for reading in Celsius or Fahrenheit)
- Relative humidity range for this device is 0-90%RH and also features a digitally adjustable emissivity feature from 0.10 to 1.0
- LCD display with a backlight

193-8691 RS-8861

RS PRO IT-1 INFRARED THERMOMETER

- Single Type K bead thermocouple supplied
- K or J-Type - thermocouple input
- Real-time stamp
- Data logging up to 16000 records
- °C, °F or °K display - so you switch between Celsius, Fahrenheit and Kelvin
- Auto Power Off with selectable time setting

123-3217 RS53II SERIES

DRY-WELL TEMPERATURE CALIBRATOR

- Suitable for checking the accuracy of RTDs (Resistance Temperature Detectors), thermocouples, and small bimetal thermometers in the field
- Fast, accurate and easy calibrations of temperature sensors for reliable measurement results
- Multiple sized sensor holes that accepts a wide range of temperature sensor diameters, for increased versatility across a wide variety of applications
- Built-in fan cooling feature allows rapid temperature changes and the temperature can be adjusted in 0.1°C increments if necessary

193-8701 BX-150 +33°C TO +300°C

RS PRO SURFACE TEMPERATURE PROBE

- Maximum temperature of +1100°C
- Probe length of 210mm
- Probe diameter of 12 mm
- The disc is contained within a ceramic outer sheath

342-8978 TEMPERATURE PROBE, TYPE K, MAX. +1100 °C

LUX/FC LIGHT METER ILM-201L

- Measuring range: 200, 2000, 20 000, 200 000 lux; 20, 200, 2000, 20 000 foot-candles
- Accuracy ±3% (calibrated to standard incandescent lamp 2856 oK) and corrected LED day white-light spectrum (±8% other visible light source)
- 3 digits LCD with maximum reading 1999
- Max Hold
- Manual zero adjustment
- Manual ranging
- Meter size 130 x 55 x 38 mm
- Sensor size 80 x 55 x 25 mm

124-0938 LUX/FC LED LIGHT METER

CONTACT AND NON-CONTACT TACHOMETER

- Durable and robust housing for use in challenging environments while offering an intuitive and easy to use interface for optimum ease of use
- A wide measuring range and high resolution for accurate and reliable results as a contact or non-contact form of measurement
- A solution for non-invasive ways of measuring RPM and surface speed, especially in areas where it may be dangerous or difficult for the user to reach

193-8688 AT-8

DESKTOP INDOOR AIR QUALITY CO2 MONITOR

- High-quality CO2 monitor with a large LCD display for easy visual identification
- Real-time readings for accurate monitoring and detection
- Also measures immediate air temperature and humidity
- Compact and ergonomic design, suitable for use in workspaces where there is limited space
- This portable CO2 monitor can be used to observe and control CO2 levels indoors
- Automatic shutdown if the device has a low battery or if it is left idle for more than 10 minutes

174-6574 RS-967

TACHOMETER REFLECTIVE TAPE

- Self-adhesive reflective tape
- Suitable for use with optical tachometers and stroboscopes
- RoHS (Restriction of Hazardous Materials) compliant with EU Directives 2011/65/EU and 2015/863
- Complies with the ANSI/ESD S20.20:2014 and BS EN 61340-5-1:2007 Electrostatic Control Standards

845-9731 PACK OF 10

IPS SERIES MULTIPLE OUTPUT PROGRAMMABLE LINEAR DC POWER SUPPLIES

- 2,3, and 4 Independent isolated output
- User-friendly operation, coarse/fine volume control
- USB standard interface
- Low noise achieved by a smart cooling fan achieving
- Digital panel control (rotary encoder switch, rubber key with indicator)
- Tracking series and parallel mode - The tracking series mode guarantees higher output voltage, while the tracking parallel mode guarantees higher output current.

123-3558   2CH,180W PROGRAMMABLE LINEAR DC P/S

DIGITAL CALIPER

- Clear LCD display
- Stainless Steel construction
- Origin setting
- Switchable On/Off
- Thumbwheel for fine adjustment
- Knurled locking screw
- Supplied with battery

841-2518	150MM/6"
841-2511	200MM/8"
841-2515	300MM/12"

EXTERNAL DIGITAL MICROMETER

- External, digital micrometer
- Metric and imperial units
- Minimum measurement of 0 mm
- Maximum measurement of 25 mm
- Resolution of 0.001 mm
- Accuracy of ±0.002 mm
- Electronic LCD screen
- Battery operated

705-1229   0-25MM/0-1IN

METRIC EXTERNAL MICROMETER SET

- External metric micrometer set
- Minimum measurement of 0 mm
- Maximum measurement of 150 mm
- Resolution of 0.01 mm
- Accuracy of ±0.004 mm
- Set contains six micrometers, setting rods and adjustment tools

705-1213   0 MM →150 MM

TUBULAR ROD INSIDE MICROMETER

- Accuracies of 0.01mm.
- Ranges of 50 to 600mm.
- Non-glare satin chrome barrel and sleeve.
- Each set consists of a micrometer head with locking screw.

785-7847   50-250MM

CYLINDERS WITH PRINTED GRADUATIONS (CLASS B)

- ISO 6706 compliant cylinders in ultra-clear PP
- Enhanced pin-sharp blue-printed graduations
- Polypropylene bottles with good chemical resistance
- Stable hexagonal base with an anti-suction design that prevents the base from sticking to a wet surface

461-0831	10ML (PACK OF 10)
461-0847	25ML (PACK OF 10)
461-0853	50ML (PACK OF 10)
461-0869	100ML (PACK OF 5)
461-0875	250ML
461-0881	500ML
461-0904	1000ML
461-0910	2000ML

PRESSOL MEASURE JUG WITH LID AND FLEX SPOUT

- Flexible spout and lid
- Oil, acid and fuel resistant
- Ergonomic design
- Durable and stable
- German, English and American scale divisions

703-1102	1L
703-1105	2L
703-1109	3L
703-1118	5L

FOOD & BEVERAGE INDUSTRY
SITE SAFETY

All the components you need to keep your employees safe on site.

Site Safety Highlights

SPILL CONTROL PALLET

- Prestige, Double IBC polyethylene spill pallet
- Fully sealed, moulded bund
- Extra grip plastic grating, holds the IBC's clear of spillages.
- Plastic grating will hold 2 fully loaded IBC's Extra tough poly construction will resist knocks and direct impacts
- Will hold a combination of 205ltr drums and IBC's
- Suitable for storing 2 # IBC, 8 # 205 litre drums or a combination of both
- Safe working load capacity - 4000Kg

Lubetech

|	
177-2741	SPILL PALLET

RAMPMAT SLIP RESISTANT RUBBER FLOOR MAT

- Loose lay floor mat
- Open raised circular surface
- Moulded bevelled Edge
- Anti-fatigue
- Slip resistant tested;
- Made from NBR rubber
- Suitable for dry and wet environments
- Pile height 10mm;Temperature range -20°C to +130°C
- Easy to clean
- Economical

872-5643	0.8M X 1.2M

BUBBLEMAT

- Interlocking tile version of bubble surface mat
- Three modules can be linked together to cover any shaped area.
- Raised bubbled surface to stimulate blood circulation.
- Soft but sturdy rubber material offers comfort from cold hard concrete floors.
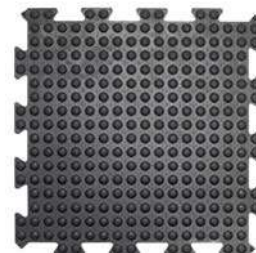

159-6164	50CM X 50CM MIDDLE

TELESCOPIC EXTENSION ACCESS POLE

- Access poles provide access to detectors which are out of normal reach.
- Lightweight and quick to extend and are made of non-conducting fibre glass construction.
- Non-whip even at height
- Certified non-conductive - protecting both the engineer and overhead live equipment from inadvertent shorts
- Designed for use with the Solo aerosol dispenser and detector removal tool.

201-3092	4.5M L
201-3115	1.13M L
201-3137	AEROSOL SMOKE DISPENSER

DOOR RELEASE

- Green MCP, double pole, surface mounted with glass Break glass operation
- Surface mounting
- Unique plug and play concept saves installation time
- Anti-tamper facility to reduce false alarms

KAC

513-6968	REPLACEMENT GLASS (PACK OF 5)
513-6974	TEST KEY (PACK OF 10)

PE DRIP TRAY

- Ideal choice for containing spills in the work area, storing,handling smaller drums and cans.
- Compact, lightweight and fit into small area.
- Made from 100% polythylene, they're also stronge and there compatible with most liquids.
- Practical, simple and safe solutions for handling small liquids and spillages.

ecospill

192-7769	57CM X 39CM X 5CM 10L
192-7768	79CM X 40CM X 5CM 9L

FIRST STEP CARPET, HARD FLOOR, FLOOR PROTECTION x 450(w) 1.2m (l) 1.5mm THICK

- An economical solution to contamination control
- Manufactured from an anti-microbial agent
- Protects against the growth of organisms such as bacteria, mould and mildew
- Adhesive coated surface captures dirt and dust particles
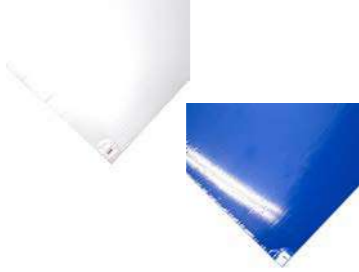

| 446-364 | Blue |
| 446-370 | White |

ANTI-SLIP, DOOR MAT, CARPET, INDOOR USU

- All round high performance doormat
- Heavy-duty polypropylene loop pile surface
- Raised reinforced 'waffle' pattern scrapes dirt
- Exceptional moisture wiping properties – lipped edges retain up to 5.4 litres water/m2
- Rubber backing holds the mat in place
- Pile material: Polypropylene
- Backing: anti-slip rubber

159-6181	Black - 900mm x 600mm x 7mm
159-6177	Blue - 900mm x 600mm x 7mm
159-6179	Grey - 900mm x 600mm x 7mm
159-6178	Blue - 1.5m x 600 x 7mm

HYGIMAT HYG01 INDIVIDUAL ANTI-FATIGUE MAT

- The mat is made of rubberised gel foam material
- Operating temperature ranges from -5°C to +80°C
- The mat is generally resistant to chemicals
- It is suitable for dry and wet environments, indoors or outdoors
- Loose lay installation method

197-4317	0.6M X 0.9M
197-4318	0.9M X 1.5M
197-4319	0.9M X 1.8M

RAMPMAT INDIVIDUAL RUBBER ANTI-FATIGUE MAT

- Loose lay floor mat
- Open raised circular surface
- Moulded bevelled Edge
- Anti-fatigue
- Slip resistant tested
- Suitable for dry and wet environments
- Pile height 10mm
- Temperature range -20°C to +130°C
- Easy to clean
- Economical

| 762-1522 | Rubber - 900mm x 1.5m x 10mm |
| 872-5681 | Nitrile Rubber - 850mm x 1.5m x 9mm |

VYNAPLUS ANTI-SLIP, DOOR MAT, CARPET, INDOOR USE, BLACK/GREY

- Economical
- Excellent all round performance
- Slip resistant (door mat stays in place)
- Stain resistant
- Scraping surface
- PVC Backing
- Cutpile surface finish
- Scrapes away and traps dirt, debris, dust
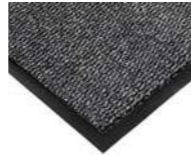

464-990	600m, 900m, 7mm
465-000	900m, 1.2m, 7mm
464-996	900m, 1.5m, 7mm
464-980	1.2m, 1.8m, 7mm

HYGIMET HYS01 INDIVIDUAL ANTI-FATIGUE MAT

- The Coba Plastics Hygimat is a revolutionary hygienic anti-fatigue mat.
- The mat is made of rubberised gel foam material
- Operating temperature ranges from -5°C to +80°C
- The mat is generally resistant to chemicals
- It is suitable for dry and wet environments, indoors or outdoors
- Loose lay installation method

197-4314	0.6M X 0.9M
197-4315	0.9M X 1.5M
197-4316	0.9M X 1.8M

OCP01 ROLL ANTI-FATIGUE MAT

- NThe Coba Plastics Orthomat Thicker foam anti-fatigue mat for dry workplaces
- It can be used in different sectors such as Production lines, Assembly areas, Packing stations, Workbenches
- Operating temperature ranges from 0°C to +60°C
- It is suitable for dry indoor environments
- Pebble surface finish
- Enclose against cold concrete floors

| 197-4320 | 0.6M X 0.9M |
| 197-4321 | 0.9M X 1.5M |

NEW

COBA africa

Prevent the spread of walked in bacteria, viruses and infectious microorganisms.

Entra-Clean HygienePlus
### The washable doormat that actively kills germs

- Removes visible dirt and kills invisible microbes. • HygienePlus means the mat is treated with the EU-registered biocide, BI-OME registered with OEKO-TEX® an antimicrobial and virus reducing technology. BI-OME works by effectively killing bacteria when contact is made with the mat. • Although the treatment is a highly effective antimicrobial agent, it does not cause any skin irritations. • A new concept in entrance matting. • Improve floor level hygiene around your business – important whilst fighting Covid-19 and beyond. • More sustainable – less frequent washing required, and on lower temperatures. • Free of metals.
- Fully machine washable – with no reduction in active cleaning power for the life of the mat. • Suitable for all facilities, in particular offices, hotels and leisure, retirement homes and healthcare settings. • Reduces annoying odours caused by bacteria and funghi.

Cleanliness on a microbial level
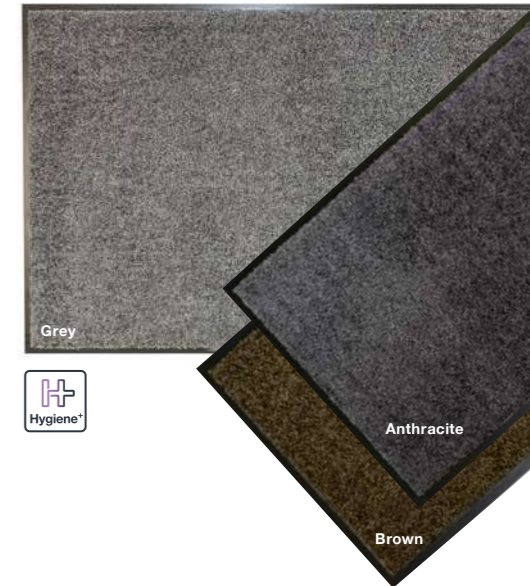

EMERGI-LITE LED EMERGENCY LIGHTING, SURFACEMOUNT

• 5 year warranty
• LED technology 100,000 hours plus lamp life
• Low power consumption and LED light source for reduced operation and maintenance costs

193-8291   EMERGENCY LIGHTING

RS PRO LED EMERGENCY LIGHTING, 4 W, MAINTAINED

• 4 W SMD LED's
• Both wall and ceiling mounted
• Maintained and non-maintained
• Protection Rating: IP20
• Lifetime hours: 30 000

125-8557   4W

RS PRO LED EMERGENCY LIGHTING, BATTEN

• LED lighting
• Single or twin tubes
• Weatherproof
• Maintained emergency lighting
• Energy savings of up to 50%, compared to fluorescent fittings

210-5493   EM 4500 LUMENS
210-5498   EM 4500 LUMENS WITH MOTION DETECT SENSOR

RS PRO ROUND LED BULKHEAD LIGHT

• Beam angle is 120°
• Ceiling and wall mountable
• Charging time is 24 hours
• Light colour is warm/cool/daylight
• Luminous efficiency is 75Lm/W

188-3519   18 W, 220 → 240 V ac
188-3518   18 W, 220 → 240 V ac

RS PRO ROUND LED BULKHEAD LIGHT

• 15.5W Power consumption LED gear tray 5000K die-cast aluminium base and cover
• Opal polycarbonate diffuser Steel gear tray

795-9805   15.5 W

RS PRO FLOODLIGHT, 1 LED

• PIR Sensor 10m range
• Good heat dissipation performance.
• IP65 rating
• Service life over 50000 hours

787-1313   FLOODLIGHT, 1 LED, 10 W, 800 → 900 LM R 928.12

MOFLASH INTRINSICALLY SAFE LED SOUNDER/ BEACON – IS-SB SERIES

- Suitable for fire, security, process control and general signalling applications
- The sounder/beacons incorporate a two stage alarm option
- Zones 0, 1, 2, 20, 21 and 22 ATEX and IECEx approved
- IP66 rated
- Surface Mount
- Polycarbonate housing material

MOFLASH

144-5953	IS-SB SOUNDER BEACON, AMBER LED 24 V DC
144-5954	IS-SB SOUNDER BEACON RED LED, 24 V DC

32 TONE SOUNDER - IS-S SERIES

- The sounders incorporate a two stage alarm with a total of 32 selectable tones
- Zones 0, 1, 2, 20, 21 and 22 ATEX and IECEx approved
- IP66 rated
- Surface Mount
- Polycarbonate housing material

MOFLASH

144-5950	IS-S BASE SOUNDER, 105DB, 24 V DC

MOFLASH INTRINSICALLY SAFE BEACON – IS-B SERIES

- The beacons incorporate a dip switch that allows you to change from 1 Hz flash rate to a static signal
- Zones 0, 1, 2, 20, 21 and 22 ATEX and IECEx approved
- IP66 rated
- Surface Mount
- Polycarbonate housing material

MOFLASH

144-5951	IS-B BEACON, AMBER LED, 24 V DC

MOFLASH DUAL FUNCTION LED BEACON - LED80 SERIES

- 12 extra-bright LED's
- Continuously-rated
- UV-stable polycarbonate lens and body
- Wide operating voltage
- 180° visibility
- Easy, snap-fit installation (with base plate for surface mounbt option)
- May be used in genaral signalling applications

MOFLASH

721-6423	LED, MULTIPLE EFFECT BEACON LED 80 SERIES, AMBER, SURFACE MOUNT, - 10 → 100 V DC
721-6432	LED, MULTIPLE EFFECT BEACON LED 80 SERIES, RED, SURFACE MOUNT, 10 → 100 V DC
721-6435	LED, MULTIPLE EFFECT BEACON LED 80 SERIES, BLUE, SURFACE MOUNT, 10 → 100 V DC
721-6439	LED, MULTIPLE EFFECT BEACON LED 80 SERIES, GREEN, SURFACE MOUNT, 10 → 100 V DC
721-6448	LED, MULTIPLE EFFECT BEACON LED 80 SERIES, AMBER, SURFACE MOUNT, 115 V AC, 230 V AC
721-6441	LED, MULTIPLE EFFECT BEACON LED 80 SERIES, RED, SURFACE MOUNT, 115 V AC, 230 V AC
721-6445	LED, MULTIPLE EFFECT BEACON LED 80 SERIES, BLUE, SURFACE MOUNT, 115 V AC, 230 V AC
721-6454	LED, MULTIPLE EFFECT BEACON LED 80 SERIES, GREEN, SURFACE MOUNT, 115 V AC, 230 V AC

MOFLASH INDUSTRIAL ECO LED BEACONS WITH PIEZO BUZZER - LEDA100 SERIES

- Dual function, flashing or continuous (static) mode
- 80 dB piezo buzzer which only activates with the flashing mode
- Continuously rated
- LED long life
- Low current consumption
- Suitable for surface, conduit box or wall mounting
- 3 point fixing
- 360° light output around the vertical axis
- Dustproof and weatherproof
- UV stable polycarbonate lens
- UV stable ABS plastic base
- 160 flashes per minute (FPM)
- IP65 protection
- RoHS compliant
- CE Marked

MOFLASH

865-1625	LEDA100 BUZZER BEACON, AMBER LED, 8 → 20 V, AC/DC
865-1634	LEDA100 BUZZER BEACON, RED LED, 8 → 20 V AC/DC
865-1637	LEDA100 BUZZER BEACON, GREEN LED, 8 → 20 V, AC/DC
865-1631	LEDA100 BUZZER BEACON, AMBER LED, 20 → 30 V ,AC/DC
865-1647	LEDA100 BUZZER BEACON, AMBER LED, 40 → 380 V ,DC, 85 → 285 V AC
865-1659	LEDA100 BUZZER BEACON, GREEN LED, 40 → 380 V, DC, 85 → 285 V AC
721-6479	LEDA125 SOUNDER BEACON, 90DB, CLEAR LED, 24, V DC

MOFLASH TLM MODULAR SIGNAL TOWER

- Beacon units are dual function, flashing or continuous (static) mode
- Sounder unit output: 80 - 120 dB
- Continuously rated
- LED long life
- Low current consumption
- Suitable for surface mounting
- 360° light output around the vertical axis
- Dustproof and weatherproof
- UV stable polycarbonate lens
- UV stable ABS plastic base
- 60 flashes per minute (FPM)
- IP54/65 protection
- RoHS compliant
- CE Marked

MOFLASH

865-1722	LED-TLM BEACON UNIT, AMBER LED, STEADY LIGHT ,EFFECT, 24 V DC

Visual Signalling Devices

Free Software

Efficiently solving design problems with

DesignSpark Mechanical v5.0

DesignSpark Mechanical software has just been upgraded to DSM v5.0

with a host of features that improve usability and design efficiency:

- **User customisable shortcuts**
- **Custom rendering**
- **Flythrough display**
- **Improved sketching with equations and a 2D constraint-based mode**
- **Mass properties that better supports calculations for 3D printing**

Engineers looking for extended features such as import & export of IGES format files, support for STEP files, GD&T annotations, customised drawing sheets, perspective modification on 2D drawings from 3D objects are supported too. Drawing and Exchange add-on packages add just the features you need and can be purchased individually, or as a bundle.

Download DSM v5 for free

Explore the extended features of DSM add-ons

DESIGNSPARK

SAFE DISTANCING BUNDLE

• Introducing the RS PRO Social Distancing Kit that includes everything needed to set up and manage social distancing within a variety of environments

• It includes an infrared thermometer, a 2 m safety barrier and footprint-shaped floor labels as clear markers to indicate the correct distance

201-3047   SAFE DISTANCING BUNDLE

LOCKOUT STARTER KIT

• An essential addition to any workplace, this starter kit is from our high-quality own brand RS PRO, offering machine, electrics and worker protection

• Basic lockout for valves and electrical panels

862-5247   24 PRODUCTS

AREA SIGNAGE BUNDLE

• This RS PRO area signage kit is essential to ensure clear and consistent floor markings to highlight walkways, safe spacing and working areas in a variety of environments

201-3589   AREA SIGNAGE KIT

SHADOW BOARDS KITS

• The RS PRO cleaning shadow board kit contains all the essential tools to maintain exceptional hygiene standards in a range of different environments

• Using a shadow board also helps quickly identify missing equipment, whilst providing a neat and tidy storage place when not in use

201-3132	STYLE A (BLUE)
201-3133	STYLE A (RED)
201-3134	STYLE B (BLUE)
201-3135	STYLE B (RED)

ZONE WORKING BUNDLE

• The RS PRO zone working kit is an ideal solution to use for establishing clearly marked work zones for individual workers and removing the potential health and safety risk of employees being in close proximity of each other while working in busy manufacturing or industrial environments

201-3136   ZONE WORKING KIT

FULL DOME MIRROR 360 DEGREE VIEWING

- 4 way intersection
- Panoramic viewing
- Edge is rubber material
- Excellent visibility

773-9714   DIA 60 CM

ANGLES PROTECTION WITH TAPE

- Angles protection for protecting people, vehicles or equipment
- Ideal for warehouses, factories, parking
- Double Adhesive backed tape
- Nitrile Butadiene Rubber doubleface tape for fixing oil and grease resistant
- High visibility
- Black/Yellow
- Available in square, rounded or flat

724-9782	ANGLE PROTECTION 30X30X8MM
724-9766	ANGLE PROTECTION Ø40MM 750MM
724-9779	ANGLE PROTECTION Ø40MM 750MM
724-9808	PLATE PROTECTION 60X10MM 5M
724-9798	PLATE PROTECTION 60X10MM 750MM

DEFIBRILLATOR (AED) LOCKABLE WALL CABINET

- The cabinet door is clear which allows visual inspection without needing to pent the cabinet
- Built-in shelf provides space for storage of extra supplies
- Lockable to keep your defibrillator secure
- Mounting holes have been pre-drilled into the cabinet for an easy installation

901-1359

HEAVY DUTY RUBBER WHEEL CHOCK

- Stops wheels from moving during critical maintenance work.
- Made from a thick rubber to ensure a long life.
- Integrated handle for easy removal and carrying.
- Ideal for all types of automotive work. Trucks, vans and cars are all supported.

125-2183   HEAVY DUTY WHEEL CHOCK
FOR TRUCKS

WARNING CONES

- Class 1 reflective cone
- Made of polypropylene - very durable
- Two reflective stripes - highly visible even in the dark
- Colour: orange and white
- General use cone - optional chain or hook can be attached
- Easy to use – just place them where you want them, no need to connect them
- Can be stacked when not in use – convenient storage

503-681   30 CM

WALL MOUNT BARRIER

- Centrifugal braking – prevents belt retracting at excessive speed
- Flexible retractable barrier – doesn't take up valuable floor space
- 48 mm webbing
- Closes off service or entry points

829-9075   CAUTION-DO NOT ENTER WEBBING

FORKLIFT TRUCK AREA FLOOR SIGN

- Permanent adhesive fixing
- Graphics printed on the underside of clear PVC film to withstand everyday warehouse traffic
- Material PVC

873-5921   430MM DIA

FOOD & BEVERAGE INDUSTRY
FACILITIES CLEANING & MAINTENANCE

Essentials to keep your work space and equiptment to the highest of hygine standards.

Facilities Cleaning & Maintenance Highlights

FOODLUBE

- Specialist food grade lubricants
- Technically advanced lubricants developed by chemists and engineers to meet customer needs.
- Reduce production downtime
- Avoid costly product recalls
- Support audit compliance

ROCOL

691-353	SPRAY LUBRICANT, 300ML AEROSOL
146-2963	ANTI-SEIZE AND THREAD COMPOUND FOR FOOD PROCESSING MACHINERY 500G
375-8285	UNIVERSAL 2 LUBRICANT, 380GM
375-8279	UNIVERSAL 2 LUBRICANT, 4KG TIN
448-0719	SUGAR DISSOLVING FLUID,500ML
512-6062	EXTREME MULTI-PURPOSE EP GREASE, 380G
512-7784	FOOD GRADE WATER DISPLACING AND LUBRICANT SPRAY, 300ML
733-5029	ULTRA NLGI NO. 2, 380G

AEROSOL ELECTRICAL CONTACT CLEANER

- Leaves no residue
- No ozone-depleting action
- Non-corrosive
- Contains corrosion inhibitor
- Provides long-lasting lubrication
- Safe on all metal surfaces does not stain
- Safe on most rubbers, plastics, and coatings.
- Convenient 360° (including inverted position) spray valve for aerosols
- High purity CO_2 propellant, giving an active product content of 95%

CRC

823-2533	500ML

FOOD SAFE LUBRICANT

- Non-toxic white grease
- Excellent resistance to water and high temperatures
- Excellent compatibility with rubbers and plastics
- Good operating temperature range -20°C to +180°C

ELECTROLUBE THE SOLUTIONS PEOPLE

344-0344	400 ML

CLEANING SOLVENT

- Excellent degreasing properties
- Ideal for efficient cleaning
- Removes flux residues and acrylic conformal coatings
- Versatile in use
- Fast evaporation rate
- Efficient cleaning processes
- CO_2 propelled aerosol version available
- 20% more active cleaner

ELECTROLUBE THE SOLUTIONS PEOPLE

379-4994	400 ML

KARCHER VACUUM BAKERY KIT

- Accessory kit for vacuuming and cleaning bakeries, equipment, shelves, etc.
- Ideal for bakeries, cake shops, etc.
- The kit includes: 4 m electrically conductive suction hose (6.906-546.0), electricaaly conductive plastic bend (5.032-427.0), 2x 0.5 m metal suction tube (6.900-275.0), crevice tool (6.903-033.0), floor tool (6.906-554.0), car vacuuming tool (6.906-108.0), all-purpose brush (2.863-147.0), suction brush with natural bristles (6.903-862.0), reducer (5.407-109.0).

707-3645	FOR NT 55/1 ECO BS

CRC LUBRICANT 500 ml PERMA-LOCK BELT GRIP

- Attached secure spray straw gives more control on application and gives access to hard to reach parts
- Locked on actuator cannot detach
- Reduces squeaking noise from slipping belts
- Creates a water resistant film

123-4856

CRC LUBRICANT 500 ml PERMA-LOCK DRY LUBE

- Attached secure spray straw gives more control on application and gives access to hard to reach parts
- Locked on actuator cannot detach
- High temperature resistance
- Insoluble in water
- Non-oily

123-4857

CRC LUBRICANT 500 ml PERMA-LOCK MULTI OIL

- Non-slip grip
- Precision spray with straw up
- Broad spray with straw down
- Catch curb
- No loose straw as locks into place
- Provides a water repellent film
- Does not contain silicone
- Works over a wide range of temperatures from -20ºC to 150ºC
- Safe to use on paints, woods or plastics

123-4860

CRC FOOD SAFE ANTI-SEIZE NON-SILICONE 500 ml PERMA-LOCK PEN OIL

- Non-slip grip
- Precision spray with straw up
- Broad spray with straw down
- Catch curb
- No loose straw as locks into place
- Disperses rust, scale and other oxides
- Reduces scrap rate of seized parts

123-4861

CRC LUBRICANT HIGH PERFORMANCE 500 ml PERMA-LOCK CHAIN LUBE

NSF registration for use in the food industry:
- High temperature resistance
- Provides long lasting lubrication
- High flash point for application safety
- Non corrosive
- Contains PTFE for extra lubricity
- Applications
- Handling equipment
- Open drive mechanisms

182-6350

CRC 500 ml AEROSOL CONTACT CLEANER

- No ozone-depleting action (ODP = 0,00)
- Reduces contact resistance, arcing and wear
- Extends the life of sensitive equipment
- Safe on commonly used plastics, rubbers and coatings
- Convenient 360° (upside-down) spray valve for aero sols
- High purity CO2 propellant, giving an active product content of 97%

823-2628

Be Smart - GO "GREEN"

CRC

SmartWasher®
Environmentally friendly parts washer

The SmartWasher® Bioremediating Parts Washing System is both self-cleaning and non-hazardous

- **Non-toxic**
- **Non-polluting**
- **Non-corrosive**

SmartWasher®
the sustainable solution
green without compromise

SW-23
Parts/Brake Washer

Be Smart GO "GREEN"

CRC 60L PARTS WASHER, 180KG MAX LOAD

- Compact footprint for maximum versatility
- Dolly with foot step for easy relocation
- Exra long hose with angled brush to reach hard to get at spaces
- UV Stabilised sink and body

217-2478

CRC 95L PARTS WASHER, 225kg MAX LOAD, 1080L/h FLOW RATE

- Flexible faucet
- Flow through brush
- UV Stabilised sink and body

217-2479

CRC 95L PARTS WASHER, 225KG MAX LOAD, 1080L/h FLOW RATE

- Dual flow through brushes for side by side cleaning
- UV Stabilised sink and body
- Larger fluid capacity for higher bio-remediation capacity

217-2480

CRC 95L PARTS WASHER, 450KG MAX LOAD, 1080L/h FLOW RATE

- Dolly for easy relocation
- UV Stabilised sink and body
- High capacity fluid reservoir for bio-remediation on the highest cleaning throughput

217-2481

CRC PART WASHER FILTER MAT

- Reduces excess clogging during its 30 day or 1 month use
- The OzzyMat FL-4 has 4 white layers and 1 blue layer
- Recommended for normal to heavy parts cleaning applications

217-2477

CRC 20L PART WASHER CLEANER

- Optimised for automotive workshops
- Suitable for use in abattoirs with cleaning of animal fat
- Safe for users and environment
- Non-caustic, non-toxic and non-flammable

217-2475
217-2476

HAND BRUSHES FOR THE FOOD INDUSTRY

- Hand brush with soft bristles is ideal for sweeping fine particles such as flour from conveyor belts, food preparation surfaces, tables and equipment

775-6303	BLUE
775-6319	YELLOW SOFT HAND BRUSH
775-6315	WHITE
176-7547	HAND BRUSH LARGE, 200MM, STIFF, BLUE

BOTTLE BRUSHES

- Tube Brush suitable for cleaning bottles, tubes and gaps between lines on conveyor belts
- Material: Polypropylene, Polyester, Stainless Steel
- Dimensions (Ø x L): 20 x 500 mm

188-8940	PINK
884-7557	GREEN
884-7551	BLUE
884-7563	WHITE
884-7567	YELLOW

TUBE BRUSH

- Clean pipes, tap outlets and narrow spaces between machine parts.
- The filaments are attached to a twisted stainless steel rod which makes chemical resistant and strong.

176-7660	10MM, 480MM, STIFF, YELLOW
176-7662	10MM, 480MM, STIFF, RED
176-7664	10MM, 480MM, STIFF, GREEN
176-7609	40MM, 510MM, MEDIUM, RED
176-7643	60MM, 510MM, MEDIUM, WHITE
176-7674	60MM, 510MM, MEDIUM, BLACK

HYGINE BUCKET

- Hand brush with soft bristles is ideal for sweeping fine particles such as flour from conveyor belts, food preparation surfaces, tables and equipment
- 12 Litre

884-7642	GREEN
188-9754	GREY
188-9752	LIME
884-7652	YELLOW

MEDIUM FLOOR BROOM

- 50 x 400mm, 56mm bristle length
- Polyester stock and bristle
- Application: sweeping medium sized particals/dust

390-4927	GREEN
390-4961	YELLOW
390-4933	BLUE

ULTRA HYGIENIC PP HANDLE,1300MM

- Ultra Hygienic Handle of polypropylene
- Manufactured according to the European and American regulations for food contact materials
- Rounded grip
- Chemical resistant, withstands the most aggressive cleaning chemicals

823-4734	BLUE
823-4737	RED
823-4740	YELLOW
823-4725	GREEN

SQUEEGEES FOR FOOD INDUSTRY

- Polypropylene stock, rubber blade
- Application: containment of liquids in cleaning

390-4416	BLUE
390-4450	YELLOW
390-4422	RED

TABLE AND FLOOR SCRAPER

- Table and floor scraper with stainless steel blade.
- This scraper is suitable for removing stubborn food debris from floors and other surfaces.
- Can be used with any handle from the Vikan colour coded range.

177-4060	260MM, WHITE
177-4059	260MM, YELLOW
177-4064	260MM, GREEN

ERGONOMIC SHOVEL

- Use this durable shovel to move large amounts of food waste or food ingredients.
- Ergonomically designed with the user's working position in mind, this product is ideal for working at floor level as well as shovelling from container to container.

188-8945	380 X 340 X 90 MM, 1310 MM HANDLE

Scott®

SCOTT® Solutions for high traffic facilities where efficiency is a must

Make smart simple with SCOTT®, Think smart, Think SCOTT®

Maximise productivity:

▶ SCOTT® toilet tissue dispenses over 1km of toilet tissue

▶ SCOTT® Hard Roll towel dispenses 2X more hand dries when compared to SCOTT® Optimum Towel[3]

Efficient Washroom Solutions

nearly 600 hand dries

SCOTT® Hard Roll Towel System

Nearly 600 hand dries per dispenser[2]

up to 2,500 hand washes

SCOTT® Luxury Foam with Moisturisers

Up to 2,500 hand washes from a single SCOTT® cartridge

JUMBO over 1km

Outrun runouts with SCOTT® Toilet Tissue Compact Jumbo roll

So simple you can load over 1km of tissue in about a minute!

less waste

SCOTT® Hand Towels

Use fewer towels and create less waste with SCOTT® Brand paper towels

1. Compared to SCOTT® toilet tissue 4760 and 3 roll dispenser 4975
2. 1 roll of SCOTT® hard roll towel dispensers 1197 sheets. Based on average usage of 2 towels per hand dry.
3. Based on average usage of 2 towels per hand dry. SCOTT® Optimum Towel dispenses 276 hand dries vs SCOTT® 1005 dispenses 598 hand dries

WYPALL® REACH™
CENTREFEED SYSTEM

Helping drive hygiene standards throughout your workplace environment

WypAll® Reach™ Centrefeed System

- *Fully enclosed system – designed to help prevent transmission of foodborne bacteria caused by handling of exposed blue rolls*
- *Always at hand - convenient and portable*
- *Ideal for wiping up spills and drying hands*
- *Good for space restricted environments with a convenient wall mounted bracket for storage*
- *Reduces paper consumption by 18%[1]*
- *Cuts paper waste by 18%[1]*

SILICONE GREASE

- Silicone grease is a water repellent, non-melting silicone grease lubricant;
- Commonly used to lubricate plastic and polythene water pipes, rubber washers and other fluid pipework during assembly;
- Working temperature range is between -50°C to 200°C;
- This item is non-toxic;
- Acting as waterproof or air tight seal

494-124   100G TUBE

COTTON BUDS

- 150mm long – great for cleaning hard to reach areas
- Tightly wrapped cotton wool head – absorbs and lifts detritus with minimal lint separation
- Rigid wooden stick – provides control and precision
- Can be used wet or dry – solvent can be applied to tip for more effective cleaning

558-802   SINGLE ENDED, 200/BOX

FIBRE OPTIC CLEANING PRODUCTS

- Optronics 1.25mm Microfibre Clean Stick

121-4194   100 PCS

ISO-PROPYL ALCOHOL (IPA)

- An alternative to CFC-based solvents which are said to destroy the earth's ozone layer
- Leaves no residue meaning you are left with a smooth surface
- Non-aggressive so does not destroy your parts
- Removes flux residues from PCBs
- Safe on most plastics

227-4427   1L BOTTLE

PLATEN CLEANER

- Dissolves toughest ink marks, as well as oil or grease
- Restores grip after cleaning and leaves no residue
- Does not damage rubber - extends the lifetime of rubber rollers therefore preventing costly replacement
- Easy to apply
- Supplied in a 100ml pump spray

217-3891   100ML PUMP SPRAY

AIR DUSTER

- Inert, pure compressed gas for dust removal
- Ideal for removing particulates from inaccessible areas on delicate equipment

168-1644   400ML
168-1642   300ML

50 LITRE PLASTIC FLIP TOP BIN

- Durable plastic design that's easy to clean and maintain
- Flip lid for easy access
- Lightweight and portable
- Can be used for a range of waste needs
- Waterproof

178-7702   YELLOW
178-7699   RED

350CC BRUSH OILER

- Nylon Pump System
- 135 mm Spout
- 120 g in weight
- 140 mm high

801-0746   300CC BRUSH OILER

RS PRO VALUE   RS PRO APPROVED   RS PRO CHOICE

UNIDIRECTIONAL GOOSENECK MICROPHONE

• Unidirectional;
• Frequency: 10 Hz to 16,000 Hz;
• Lightweight and flexible;
• 3-pin XLR connector;
• All metal case with non-glare black finish

699-7304   500OHM

METAL HORN SPEAKER

• High-quality sound in public spaces or industrial settings such as factories or workshops.
• Made from hard-wearing, weather-resistant metal and is suitable for both indoor and outdoor use.
• IP66 rating – dust-tight, withstands powerful water jets

535-0316   30W
535-0300   15W

WHITE WALL CLOCK

• Excellent for indoor usage
• Incredibly good value for money and is suitable for commercial, health, educational, industrial applications and countless public spaces
• AA batteries are included
• 300 mm diameter x 40 mm depth, weight 740 g
• The viewing distance during a day is up to 25 metres
• Water-resistant clock, which means it is suitable for damp and humid conditions.

706-4773   WHITE, 300MM DIA

WRITE-ON SELF-ADHESIVE

• Self-adhesive vinyl cloth labels.
• Pre-printed labels come with a space to write your own text on using a ballpoint pen or any other spirit-based ink.
• The labels can be used in different industries for all labelling requirements such as organising and performing quality control processes.

450-6164   LABEL 'TESTED FOR ELECTRICAL SAFETY' (PACK OF 140)

LCD STOPWATCH 309

• Stylish black water resistant plastic case, making it ideal for use in a range of applications
• Clear LCD screen to display results with ease
• Large 12mm and 10mm digit heights
• Normal time, calendar, alarm and lap facility
• Accuracy within 2 second over 24 hours
• 5 year battery life under normal use, providing a long lasting and reliable device
• 1/100 second resolution
• Counts up to 40 minutes in 1/100 second and then to 24 hours in 1 second intervals

811-1814   DIGITAL STOPWATCH BLACK

SILENT SECOND HAND WALL CLOCK

• Quartz movement and continuously moving second hand for silent operation.
• The timeless design makes it a reliable wall clock, which can be used in any commercial and non-commercial spaces.
• This plastic-cased wall clock has been architected with a shatterproof front lens to protect the Clock in case of the unexpected fallout.

440-9568   WHITE, 300MM DIA

VISIBLE AND PARTIALLY LAMINATED

• Partially laminated write – on label
• Text can be written or typed on label
• Leaves checkboard pattern when removed
• High-quality printing on the labels which is ideal for conformance labelling to Safety and Quality standards

496-401   BLK WRITE-ON LABEL 'CALIBRATED', 40X15MM (PACK OF 120)

SILVER WALL CLOCK

• LCD digit heights 52 and 24 mm
• Wall Clock dimensions 220x250x23 mm
• Digital monitor displays hours, minutes, calendar and the temperature in both C/F

811-1820   RS LCD CALENDAR CLOCK

Metal detectable plastic cable accessories

Detectable plastic parts can reduce the risk of costly contamination for food and beverage

Undetected contamination of a production batch with a foreign object is a costly concern for any food or beverage manufacturer. To help control the risk from stray bits of plastic around the processing of foodstuffs, HellermannTyton manufactures cable accessories from special high-grade metal detectable plastic resin.

Magnetic plastic?

Plastic resin with metal content can be detected by the metal detection and x-ray equipment commonly installed in hazard control points. The even dispersion of metal particles throughout these plastic products means that even tiny fragments of cable ties, fixing mounts, ID tags or cable covers, which might be cut or dropped during maintenance, can be reliably detected.

The metal particles are embedded in the special high grade plastic resin. Consequently, there is no surface corrosion in humid production environments. The blue colour added to the compound also makes this plastic visually distinctive when compared with the majority of foodstuffs and liquids. Alternative colours are available on request.

In response to scenarios frequently encountered by production plant engineers, HellermannTyton's cable management accessories include two types of cable ties, one of which is releasable and reusable and two types of screwable cable tie mounts in various sizes. Printable TipTag markers and two types of spiral wrap cable covers in different dimensions complete this portfolio of detectable plastic products.

Better safe than sorry

The special materials HellermannTyton uses to manufacture its products for food and beverage processing are of the highest quality. HellermannTyton's detectable plastic products with metal content are free of Bis(2-ethylhexyl) phthalate (DEHP), considered to be dangerous to health.

MCTPP SERIES METAL DETECTABLE CABLE TIES

- Magnetic and X-Ray detectable
- Will float to the surface of most liquids, allowing them to be easily removed
- High chemical resistance
- Remain flexible and elastic in high temperatures
- Metallic compound dispersed throughout the entire body of the tie
- Coloured to assist in detection
- Used as part of HACCP process
- Self-extinguishing (UL94 HB rating)

891-9523	200MM X 4.6 MM, MCT SERIES (PACK OF 100)
891-9536	387MM X 7.6 MM, MCT SERIES (PACK OF 100)

M8/M12 CONNECTORS

TE's M8/M12 connectors continues to fill the ongoing needs for sensor connection in Industrial Machinery and Factory Automation. A connection standard for many years, these products also find applications outside of their traditional industries where a compact reliable connection system with environmental protection is required. TE's M8/M12 connector portfolio includes A, B, D, S, T, and X-coded (up to 10 Gb/s) versions to serve various customer needs.
The connectors are also available in shielded and unshielded versions, to support Gigabit Ethernet applications.

M8/M12 – THE CODINGS

A-coding: Actuator-sensor plug connections for DeviceNet, IO link and Profibus

B-coding: Fieldbus connections for Profibus and Interbus

D-coding: Industrial Ethernet, Profinet, Ethernet/IP and EtherCat

S-coding: Motor, Frequency-convertors, motor operated switches, PSUs for Power, 620 V, 12 A

T-coding: Fieldbus comp, passive distribution boxes, motors, PSUs for Power, 63 V, 12 A

X-coding: Cat6A, high-speed 10Gbit rugged industrial Ethernet applications IEC 61076-2-109

Ambient temperature for M8: -40 °C to 85 °C
Ambient temperature for M12: -40 °C to 85 °C
Current rating:
4 and 5 pins: 4 A per pin
8 and 12 pins: 2 A per pin
IP rating: IP67/IP68

As specifications vary for different parts, please refer to your TE contact for detailed information.

Application Specifications for M8 M12 Connectors and Cable Assemblies:
114-32127, 114-137008, 114-137144

Product Specifications:
Connectors: 108-3641, 108-19483,
            108-106140
X-coded: 108-137008
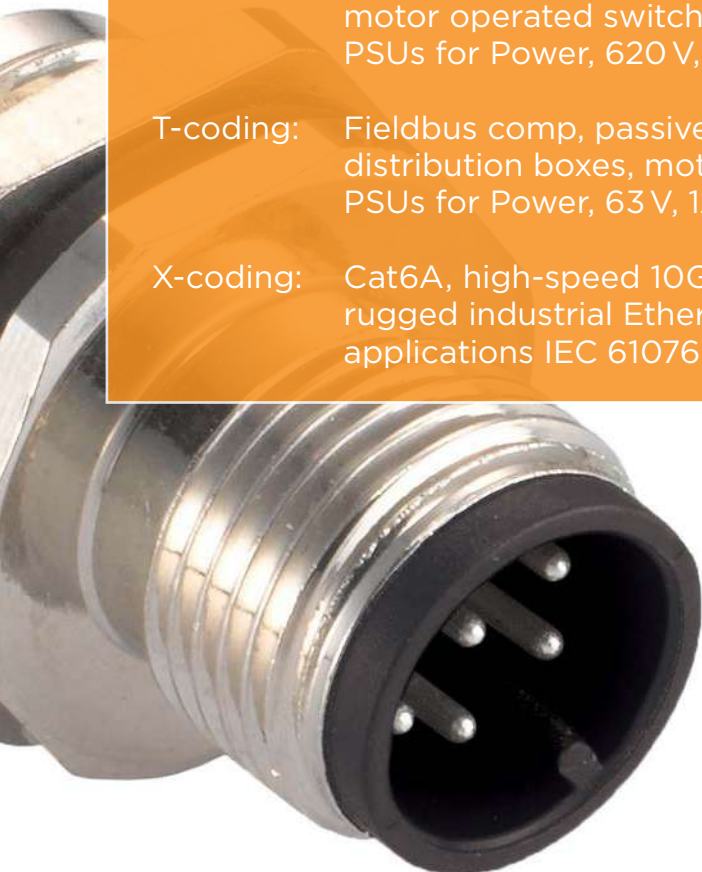

Size	Pins	Rated	Maximum Current per pin	Polution grade

AUTHORIZED DISTRIBUTOR

253-2098   1.00SQ.MM

SOLDER SLEEVES AND KIT

- Solder Sleeves provide insulated, environmentally sealed; strain-relieved soldered connections
- Temperature range -55°C to +125°C
- Terminate bare or tin plated conductors
- Supplied in a storage case with locking lid
- Refills available - see Solder Sleeves, as well as other High-Spec Solder Sleeves and Wire to wire Splices.

TE connectivity
AUTHORIZED DISTRIBUTOR

542-5583   SOLDERSLEEVE KIT

HE THROUGH PANEL HOUSINGS

- Bases made from aluminium alloy casting and in top entry only.,
- Supplied with panel sealing gaskets.

TE connectivity
AUTHORIZED DISTRIBUTOR

300-3967   10 WAY THROUGH PANEL BASE,SIZE 4

STRAIGHT M12 TO STRAIGHT ARISO CONTACTLESS CONNECTOR

- Reverse polarity protection for power and data transmission
- Protection against over heating
- Will automatically switch off in the event of a metal foreign object between transmitter and receiver
- Interchangeable Dynamic Pairing between ARISO couplers
- M30 x 80mm sized receiver
- IP67 Ingress protection

CGAT ADHESIVE LINED HEATSHRINK TUBING 3:1

- High strength bonding
- Flame retardant jacket
- Polyolefin material – commonly used insulating material, flexible and durable
- Standard black in colour
- Operating temperature range of -30 to +80 °C
- Minimum shrink temperature: +80 °C
- Supplied in lengths of 1.2m

157-3818	12MM
157-3824	18MM
157-3903	24MM
157-3789	3MM
157-3830	40MM
157-3795	6MM
157-3802	9MM

SRFR HEATSHRINK TUBING (SHRINK RATIO 1.7:1)

- A highly flexible, flame retarded, grey silicone rubber tubing with an excellent balance of physical and electrical properties
- Displays outstanding physical strength, resists extreme heat shocks and exhibits good thermal insulation
- Temperature rating -75 to +200°C"

288-5112	10.0MM
288-5128	15.0MM
288-5083	2.9MM
288-5099	4.9MM
288-5106	7.8MM

FLAME RETARDANT HEATSHRINK TUBE, HEATSHRINK TUBING 2:1 (REEL)

- Heat shrink ratio of 2:1
- Shrinks at low temperature
- Ideal for delicate or temperature sensitive equipment
- Excellent physical and electrical properties
- Free from PBBs as well as PBBOs and PBBEs
- Operating temperature -55°C to +135°C
- Heat Shrink temperature: 70°C"

252-7721	13.7MM
252-7737	19.0MM
252-7670	2.4MM
252-7743	25.4MM
252-7686	3.4MM
252-7692	4.8MM
252-7709	6.4MM
252-7715	9.5MM
316-1108	63.5MM

RNF100 CLEAR HEATSHRINK TUBING 2:1 (1.2M LENGTHS)

- Excellent all round performance
- Shrink ratio 2:1
- Available in a wide range of sizes and colours
- Flame retardant
- Flexible
- 1.2m lengths

170-6563	1.2MM BORE
170-6642	12.7MM BORE
170-6658	19MM BORE
170-6664	25.4MM BORE
170-6591	3.2MM BORE
113-2568	38MM BORE

SRFR HEATSHRINK TUBING (SHRINK RATIO 1.7:1)

- Easy to store
- Easy to dispense
- Well suited for repairs
- Adhesive lined tubings
- Wide variety of sizes
- RoHS compliant
- 3:1 shrink ration
- Operating temperature range: -30 °C to +80 °C

364-1480	CGAT ADHESIVE LINED REFILL,18/6MM

CLEAR TFER HEAT SHRINK TUBING

- Semi-rigid tubing made from PTFE
- Ideal for use in high temperatures
- Thin wall
- Clear tubing
- Highly flame retardant
- Excellent resistance to chemicals and solvents
- High mechanical strength
- Low coefficient of friction
- Heat shrink ratio of 3.2:1 meaning when heated this tubing shrinks to just over a third of its original diameter
- Operating temperature -67°C to 250°C
- Heat shrink temperature: 330°C
- Supplied in lengths of 1.2m

170-6311	12.7MM I/D
170-6333	25.4X7.1MM
170-6282	3.2MM I/D

HT-200 HEAT-SHRINK TUBING

- Tough, flexible, thin wall insulation
- Provides excellent electrical insulation
- 2:1 shrink ratio for all standard sizes
- High temperature performance that meets or exceeds military and industrial standards
- Resistance to most industrial solvents, fuels and chemicals
- High flame resistance

848-9142	1/2 1M
848-9136	3/16 11 LENGTH

ATUM - MOISTURE PROOF SLEEVING 3:1 OR 4:1

- Provides excellent environmental sealing for electrical components, wire splices, cable jackets & harness breakouts
- High strength bonding
- Medium walled for increased mechanical protection
- Flame retardant jacket
- Operating temperature range -55°C to +110°C

316-1580	12-4MM I/D
316-1596	19-6MM I/D
316-1568	6-2MM I/D
316-1631	8-2MM I/D

HTAT - MOISTURE PROOF SLEEVING 4:1

- Semi flexible polyolefin tubing
- Flame retardant jacket
- Heat shrink ratio of 4:1 meaning when heated this tubing shrinks to a quarter of its original diameter, making it perfect for awkward shaped connectors
- High shrink ratio ensures the tube will be able to fit over larger connectors and still ensure environmental sealing
- High strength bonding due to inner adhesive lining
- Operating temperature -55°C to +110°C
- Heat shrink temperature: 80
- Supplied in lengths of 1.2m"

344-0625	12-3MM I/D
344-0603	4-1MM I/D
344-0619	8-2MM I/D

6000 SERIES CIRCULAR POWER CONNECTORS

- 2 - 22 Contacts
- Plastic or Metal Housing
- IP66, IP67, IP68 & IP69K protection
- Secure, quick mating / release
  cULus, UL, VDE Approvals

765-9652	FLEX CONNECTOR,2 WAY PIN CONTACTS
765-9757	CHASSIS CONNECTOR,2W,SOCKET CONTACTS
765-9775	CHASSIS CONNECTOR,16W,PIN CONTACTS

BUCANEER SERIES IN-LINE CONNECCTORS

- Screw termination
- Straight body orientation
- Cable acceptance ranges
  between 6mm and 8mm
- Easy assembly, no special tools required
- IP68

483-966	6WAY INLINE CABLE COUPLER SOCKET,3A

4000 SERIES CABLE CONNECTORS

- Mates with flex cable and
  panel mount versions
- In-Line cable connection
- Contacts supplied separately

912-4868	3 POLE MALE
912-4950	3 POLE FEMALE
912-4931	12 POLE FEMALE
912-5072	12 POLE FEMALE, REAR

900 SERIES CIRCULAR POWER CONNECTORS

- 32A, 600V ac/dc max rating
- 2, 3, 4, 5, 7 & 10 contacts
- IP66, IP67, IP68 & IP69K protection
- Single or 3 phase applications
- CCC, UL, CSA & VDE approvals

344-3999	3 WAY
841-8932	10 WAY
344-4021	5 WAY

BUCCANEER 900 SERIES FEMALE PANEL MOUNT CONNECTORS

- Water and dustproof
- Leading earth pin
- Scoop proof contacts

344-4223	4 CONTACTS
344-4245	5 CONTACTS

PANEL MOUNTING SOCKET / COUPLER

- Supplied cable glands accommodate
  cable diameters 3.5 to 8mm
- Shielded connectors maintain
  required screening
- Overall diameter 38.1mm,
- Overall length 77.5mm

468-6232	PANEL MOUNTED COUPLER
468-6226	CABLE CONNECTOR

BUCCANEER STANDARD SEALED POWER CONNECTORS

- IP68
- UL94HB Housing
- Insulation Resistance of >104 MΩ @
  500 V dc

275-5342	SCREW TERMINAL PLUG
275-5364	SCREW TERMINAL SOCKET
275-5392	INLINE COUPLER PLUG
275-5409	INLINE COUPLER SOCKET

BUCCANEER SERIES 2-POLES CIRCULAR FLEX CABLE CONNECTORS

- Screw termination
- Straight body orientation
- Easy assembly, no special tools
  required

The real recipe for success for Data, Signal and Power: **the Han® F+B Inserts.**

The Han® F+B is the first connector for the food industry that can be configured with 25 different inserts. It can be used to transfer bus systems, signals or power with contacts up to 40 A.

HARTING HAN F+B FOOD AND BEVERAGE CONNECTOR SYSTEM

- Consisting of housings, hoods, inserts and covers has been designed specifically for use within the demanding food and beverage industry

HARTING
Pushing Performance

201-8862	INSERT MALE, 4 CONTACT, 20A
201-8864	INSERT FEMALE, 4 CONTACT, 20A
885-6097	INSERT FEMALE, 4+4 CONTACT, 16A
885-6088	INSERT MALE, 4+4 CONTACT, 16A
885-6066	BULKHEAD HOUSING
885-6075	BULKHEAD HOUSING
885-6078	PROTECTIVE COVER FOR USE WITH HOUSING BULKHEAD MOUNTING
885-6072	PROTECTIVE COVER FOR USE WITH HOOD
201-8865	CONNECTOR HOOD

HOOD CABLE PLUG + MALE INSERT

- Two-part packs that provide towards the assembly of Harting Han E® metal-bodied cable plugs, cable coupling hoods, bulkhead/panel mounting housings, and surface mounting housing sockets.,Screw terminal connection.,
- Each pack contains a hood or housing, and male or female insert.,
- All the individual components are available separately from within the relevant Ranges of inserts, hoods, and housings.,All are rated at 450 – 500V, and 16A,
- Suitable cable glands are available separately

HARTING
Pushing Performance

492-5458	6 WAY, 16.0A, 500.0 V

HAN E HEAVY DUTY POWER CONNECTOR INSERT

- Han Thermocouple insert connectors for temperature measurement conductors, ideal for use within injection moulding machines.
- These inserts allow mixed loading of thermocouple crimp contacts and standard contacts within one insert.

HARTING
Pushing Performance

842-7756	10 CONTACTS, 16A, FEMALE
512-5261	46 CONTACTS, 16A, MALE

HAN A SIZE 3 A STANDARD METAL HOODS AND HOUSINGS

- Slim, space saving design;
- Robust diecast zinc construction;
- Locking levers for a secure connection;
- Range of mounting options and cable entry angles;
- IP67 protection using seal screw

HARTING
Pushing Performance

473-1714	M20 METRIC TOP ENTRY HOOD
181-0729	STRAIGHT PANEL MOUNT HOUSING

HAN A ® INSERTS

- Slim construction
- Poles: 3-16 (screw connection)

HARTING
Pushing Performance

181-0870	3P+E SOCKET INSERT,10A 230/400V

HAN E® INSERTS

- Poles: 6-48 (screw connection – wire csa 2.5mm²
- The 32 and 48 pole versions require two contact inserts per connector half; a standard insert numbered '1 to 16' or '1 to 24' pole insert (m) or (f) together with one numbered '17 to 32' or numbered '25 to 48' insert (m) or (f)

HARTING
Pushing Performance

114-8175	6P+E PLG INSERT,16A 400-500VAC

SKINTOP®

ECOLAB® approved
glands for food
& beverage

Tired of worrying about long term water ingress?

Put your trust in SKINTOP, tested for every possible application.

LAPP test their SKINTOP glands for many different application. IP66 for water spray, IP67/68 for immersion, and IP69K for high pressure water blasting. LAPP have you covered from basic IP rated glands, to high performance FDA & Ecolab approved glands for food and beverage areas.

- Corrosion-resistant
- Sea water-resistant
- Smooth surfaces
- Compact design
- Variable clamping ranges

LAPP

ÖLFLEX® ROBUST 210

- ECOLAB® certified harsh environment control cable.
- Outstanding UV, ozone, organic oil & chemical resistance.
- 300-500V rated with number coded cores

⚙ *LAPP*

800-3271	3 CORE+EARTH 1MM

CABLES, CONNECTORS & CRIMPING TOOLS

NETWORK TEST & MEASUREMENT

WIRE STRIPPERS

BLUE METAL-DETECTABLE NYLON 66 CABLE TIES

- Industry-standard blue colour for easy visual identification
- Metal powder particles offer full magnetic and x-ray detection, even if parts have been trimmed to fit

RS PRO

172-1766	150X3.6MM BLUE
172-1769	RELEASE 250X4.5MM BLUE
172-1767	400X4.6MM BLUE
172-1765	200X4.6MM BLUE
172-1768	380X7.6MM BLUE

ZERO HALOGEN HEATSHRINK TUBING KIT

- Highly flame retardant with a flame temperature index of over 350°C
- Totally halogen free
- Very low smoke, meets LUL requirements

RS PRO

397-4263 2:1 SHRINK RATIO

OPEN SLOT PVC

- Cable protection
- Slotted construction
- Significantly lower fire risk, due to self-extinguishing nature

RS PRO
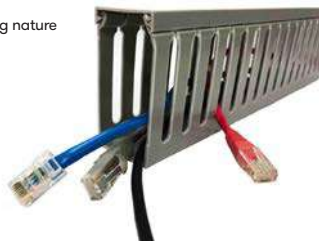

758-9276	STANDARD 8MM 25WX60H 2M
758-9210	NARROW 4MM 25WX80H X2M
758-9285	STANDARD 8MM 25WX80H 2M
758-9282	STANDARD 8MM 40WX60H 2M
758-9294	STANDARD 8MM 60WX40H 2M
758-9216	NARROW 4MM 25WX60H X2M
879-3741	NARROW 4MM 40WX60H X1M
758-9279	STANDARD 8MM 25WX30H 2M
879-3738	STANDARD 8MM 40WX80H 1M
879-3744	STANDARD 8MM 60WX80H 1M

NYLON NON-RELEASABLE CABLE TIES

- High quality
- Suitable for a multitude of uses
- Easy to thread

RS PRO

233-499	100 X 2.5, PACK 1000
233-493	380X7.6MM, PACK 100
233-487	300X4.8MM, PACK 100
233-471	203X4.6MM, PACK 100

PORTABLE HEAT SHRINK KIT

- Portable heat shrink kit consisting of a range of high-quality heat shrink tubing
- Includes range of colours, (including harmonised colours) and diameters to suit a range of different applications

RS PRO

487-3852 2:1, 3:1 SHRINK RATIO

CABLE TIE MOUNT NYLON 66

- Fast installation
- Strong adhesive base
- Simple cable mounting - provides secure fastening
- Available in black and natural and comes in a range of sizes
- Self-extinguis

RS PRO

811-1726 CABLE TIE MOUNT 19.5X19.5 BLACK NYLON 66

HEAVY DUTY CABLE PROTECTORS

- Weather and skid proof
- Black base and yellow cover provide good visibility
- High-strength cable groves, can withstand up to 20 tons per axle

RS PRO

136-5423 H/D CABLE PROTECTOR DUAL 2 CHNL 32/38MM

EMPTY CABLE REEL

- Features a removable side flange that you can cut to accept panel-mount connectors
- Mounted on a rugged tubular steel frame that has a friction brake with an integral winding handle

RS PRO

379-3727 YELLOW PLASTIC AUDIO CABLE DRUM,240MM

METAL BACKSHELL PANEL MOUNT CONNECTORS

- Multipole audio/video connectors manufactured for professional use.
- The 'AXR'/'XLR' compatible connectors are precision made with zinc die-cast bodies and silver-plated, solid brass turned contacts
- A benefit of these connectors is the 'squeeze' release clip, which enables plugs and sockets to be unplugged quickly by means of a simple push-down device.

548-9105 3 WAY

MALE FIELD RJ45 CONNECTOR

- Shielded male RJ45 connector
- IP68 waterproof rating
- Suitable for a temperature range of -40°C to +80°C

111-6743 RJ45 FULL METAL C3 FIELD INSTALLABLE

INSULATED FRENCH COLOUR CODED BOOTLACE FERRULES

- Nylon insulated collar for reduced leakage, creepage and gas intrusion
- Tin plated copper tube for excellent conductivity
- Crimped terminal can be repeatedly inserted and removed without degrading end of the wire

458-724	GREY,8MM PIN
458-695	BLUE,8MM PIN
458-702	RED,8MMPIN 1MMSQ.
458-718	BLK,1.5MMSQ. WIRE

BRASS CABLE GLAND WITH LOCKNUT

- Completely sealed against dust
- Excellent water resistance
- Locknut and seal supplied

831-9062 PG36, IP68, 22-32MM

IP68 METRIC DOME TOP GLAND

- Metric threaded
- Completely sealed against dust
- Excellent water resistance
- Black and white versions available
- Made with high quality Nylon 66"

669-4670	M32
669-4689	M40
669-4676	M25
669-4667	M16

IP68 METRIC DOME TOP GLANDS

- Metric threaded
- Completely sealed against dust
- Excellent water resistance

669-4654	M12, 3-6.5MM
669-4660	M20, 4-9MM
669-4664	M20, 6-12MM
669-4673	M20, 10-14MM
669-4686	M63, 34-44MM

COUPLER CABLE CONDUIT FITTINGS

- Coupler cable conduit fitting
- Nominal conduit diameter of 25 mm
- Corrosion-resistant 316 stainless steel material
- Satin finish
- IP67 rating for protection in 1 m of water for up to 30 minutes

471-1350	25MM
471-1344	20MM

CAT.5E INLINE COUPLERS RJ45 ADAPTORS

- Cat5e RJ45 coupler
- 8P8C socket to 8P8C socket
- 50µ gold plated contacts
- Wired straight contact 1 to contact 1, etc.
- For shielded twisted pair (STP) cables and patch leads
- Meets C5e EIA/TIA 568B Standard
- Dimensions: 25 x 25 x 45 mm

340-9630 CAT.5E RJ45 STP SOCKET-SOCKET COUPLER

THROUGH HOLE JACK SOCKET

- Stereo jack socket
- Robust nylon body
- Switched contacts

449-348 3 WAY STEREO PCB MOUNT JACK SOCKET,1/4IN

FOOD & BEVERAGE INDUSTRY
SENSORS

Wide selection of sensors from general purpose RFID to IO-Link models.

Sensor Highlights

W2S-2 SERIES PHOTOELECTRIC SENSORS

- WTB2S-2 miniature photoelectric with PinPoint LED for rugged and reliable detection of all object types
- Choice of diffused background suppression, retro-reflective or through-beam - with sensing ranges up to 2m
- All sensors have PNP output and 10-30Vdc supply, retro-reflective sensors can use a range of reflectors - see 265-2754

SICK

842-8572	
842-8560	
842-8585	
842-8579	

GUIDED RADAR LEVEL PROBES

- Guided radar level probes using TDR radar technology and a cuttable level probe to achieve precise level detection which is immune to deposit formation
- Analog outputs include 4 mA-20 mA / 0-10V, & more, plus digital outputs
- Suitable for process temperatures up to 100°C with IP67 / IP69K protection

SICK

794-3389	500MM PROBE
794-3383	1000MM PROBE

REFLECTORS FOR RETROREFLECTIVE PHOTOELECTRIC SENSORS

- A range of relectors from Turck Banner suitable for use with retroreflective photoelectric sensors.
- Various shapes and size available.

BANNER

764-3878   FOR USE WITH Q45BB6LL SERIES, 51 X 51 MM SQUARE

THREADED BARREL BLOCK BODY SENSOR

- Extended sensing ranges
- Sense all metals at the same distance - with no reduction factor
- IP67 rating (Barrel is IP68)
- High switching frequency
- No load current 15mA max.
- Operating Temperature Range -25 → +85°C
- Short circuit protection Overload protection
- Reverse polarity protection
- Inherent weld field immunity

TURCK Industrial Automation

794-8671   M18 X 1 INDUCTIVE SENSOR, 12 MM DETECTION, IP68, PG9 GLAND TERMINAL

IP69K OSISENSE XUK PHOTO-ELECTRIC SENSORS

- OsiSense XU offers a full range of diffuse, Background Suppression (BGS), polarized reflex, laser reflex & thru-beam in the 4 most popular form-factors worldwide
- Applicative sensors for material handling, packaging, labeling (fork sensors technology) , assembly, food & beverage
- Compact 50x50mm

Telemecanique Sensors

179-9952   DIFFUSE

Browse thousands more products online **za.rs-online.com**

BARREL INDUCTIVE PROXIMITY SENSOR

- Twice nominal sensing distance
- Flush mount
- Fast switching frequency

Telemecanique Sensors

444-3271	M12, SR 4MM, PNP, IP69K
444-3293	M18, SR 8MM, PNP, IP69K
444-3287	M18, SR 8MM, PNP, 2M
444-3366	M30, SR 15MM, IP69K

TELEMECANIQUE SENSORS REFLECTOR

- A range of square reflectors for use with the OsiSense XU series of Photoelectric sensors

Telemecanique Sensors

281-1739	DIM: 24 X 21MM
281-1751	DIM: 50 X 50MM
324-1585	DIM: 100 X 100MM

INDUCTIVE PROXIMITY SENSORS OSISENSE XS SERIES GLAND TERMINAL

- Flat form (block) 40 x 40 x 117.
- Best in class quality and immunity
- IP65, IP67, IP69K to harsh industrial environments.

Telemecanique Sensors

179-9936	15MM DETECTION 24 240V
179-9939	20MM DETECTION 24 240V
179-9940	20 MM DETECTION 12 48V D

INDUCTIVE PROXIMITY SENSORS OSISENSE XS SERIES CABLE TERMINAL

- Forms part of the OsiSense XS range of products
- Cylindrical M18 sensor design
- 62mm size
- 8mm nominal sensing distance
- Frontal detection face
- Sensor type - inductive proximity sensor

Telemecanique Sensors

444-3344	AC/DC SENSOR,M18

M8, M12 AND M18 INDUCTIVE SENSORS

- LED status display
- Plastic body
- Operating temperature range -25° → +70°C
- Reverse polarity and short circuit protection (dc types only)
- Flush or non flush mount versions

Telemecanique Sensors

324-1226	M8, SR 2.5MM, PNP, 2M
324-1248	M12, SR 4MMM, PNP, 2M
324-1254	M12, SR 4MM, PNP, M12
324-1311	M18, SR 8MM, PNP, 2M
609-7331	M18, SR 15MM, PNP, 2M
609-7230	M18, SR 5MM, PNP, M12
609-7280	M18, SR 8MM, PNP, 2M
772-9874	M18, SR 20MM, M12, SS

CYLINDRICAL ULTRASONIC SENSOR

- IP67 rated
- M18 cylindrical body
- PNP switched output
- Precise object detection of any material

Telemecanique Sensors

612-2229	M18 PNP NO, 0.5M
612-2128	M30 PNP NO 8M

MULTIMODE PHOTOELECTRIC SENSOR WITH COMPACT SENSOR

- Four modes of detection in one unit
- Easy set-up at the touch of a button
- Self teach precise set-up 'multi-mode detection'
- Sensing distance dependent on mode of operation
- Through Beam Functionality using additional light source (thru-beam accessory)
- Programmable NO/NC switching
- Connection: pre-cabled or plug-in connector (M12 4 pin male)
- IP67 Protection rating
- Operating temperature range -15 → +55 °C

Telemecanique Sensors

455-4983	COMPACT 50 X 50 PLASTIC BODY

XS INDUCTIVE PROXIMITY SENSORS - NICKEL PLATED BRASS

- General purpose.
- Cylindrical (barrel) M18.
- Size 51 mm.
- Fixed body, Flush mountable.
- Nickel plated brass, PPS Front.
- Discrete signal, 4-wire.
- Output 1 NO + 1 NC, DC circuit, PNP.
- Male connector M12, 4 pins.

Telemecanique Sensors

133-6320	M18 SR 5MM
144-9711	M30 SR 30MM

Choosing the right detection components can improve machine availability and reduce the risk of contamination

OMRON

With the day to day pressures to remain competitive and keep your production process running, sometimes the simple things can be forgotten. Taking steps to avoid potential process contamination can help to drastically reduce the risk of lost production, substandard product reaching your end customer and the possible negative impact to your business reputation.

Dan Rossek, Regional Marketing Manager - Omron Electronics, offers his opinion on selecting fit for purpose detection components, taking into consideration the requirements of the environment and the application needs. All of which can often be overlooked leading to undesirable consequences.

Fit for purpose sensors is the smart choice.

Often detection components are located at the front end of the manufacturing process, close to the raw product and it is in these situations that selecting a fit for purpose detection component is most critical. Often, due to hygiene requirements, these areas will be subjected to regular cleaning processes, involving high pressure / temperature wash down and often involving aggressive chemical agents.

Detection components which are not designed to operate under these tough environmental conditions will often fail prematurely, which in turn will result in machine down time to rectify the problem. A single instance of machine unavailability is costly and will have an adverse effect on manufacturing efficiency, but far too often this issue is repetitive as the product selection is not changed, resulting in reoccurring issues, further costs and increasing inefficiencies.

A more pertinent issue, especially in applications around primary food processing, where maintaining hygiene and eliminating contamination is a priority.

The cleaning process can lead to many challenges for detection components, as the aggressive chemicals used to maintain hygiene, will easily corrode common materials used in standard detection devices.

This situation can lead to contamination of the product, through the transfer of the corroded material on to the raw food product. The result of this can be considerable financial costs to manufacturers through product recalls and potential loss of brand reputation.

Omron recognise the need to develop products which are fit for purpose for applications in processing industries and offer a wide range of solutions which have been designed to work in these tough environments. Components manufactured in food grade stainless steel (SUS316L) and other materials which are inert to the effects of cleaning agents, has been a priority for several years.

As well as chemical resistance, Omron offer products tested to the highest water ingress protection of IP69k, to ensure operational longevity, even under high pressure and temperature cleaning regimes. A wide range of Omron products are also tested and certified for chemical resistance by independent agencies and manufacturers, including Ecolab and Diversey to ensure suitability and offer piece of mind to manufacturers.

ECOLAB Diversey

E3S-DB TRANSPARENT OBJECT SENSOR

• E3S-DB sensor provides most reliable detection of all kinds of transparent objects such as PET bottles, glass bottles or transparent trays
• Choice of Smart Teach enablin up or trimmer sensitivity adjust
• Narrow beam types detecting smallest gaps
• Proven for environments in the Food & Beverage industry

OMRON

831-5971	0.7M, PNP, M12, SMART TEACH
831-5969	4.5M, PNP, M12, SMART TEACH
831-5975	0.7M, PNP, M12, TRIMMER ADJ.
831-5978	4.5M, PNP, M12, TRIMMER ADJ.

ER SERIES STAINLESS STEEL ROPE PULL

• The ER series stainless steel bodied safety rope pull is designed to be tough and durable for even the most demanding applications
• Rope pull switches eliminate the need for numerous E-stop buttons reducing installation time and costs
• Supports spans up to 80m and integral tension indicator makes system setup & maintenance easy
• IP67 (NEMA 6) enclosure enables the switch to withstand water wash down cleaning

OMRON

757-9121	STAINLESS STEEL ROPE PULL + RESET & E-STOP

F3S-TGR HYGIENIC DOOR SAFETY SWITCHES

• Non-contact switches for interlock hinge, sliding or removable guard doors
• IP67 Stainless steel construction ideally suited to high hygiene demands in the food industry
• Long sensing range to avoid false signals due to mis-aligned door
• Hall effect coded switch have LED indication, electronic output and up to 3 can be connected in series
• Reed switches can switch 1mA, 10 VDC and up to 6 can be connected in series

OMRON

820-3847	SMALL CODED SWITCH, 2NC/1NO, 10M CABLE
820-3840	SMALL CODED SWITCH, 2NC/1NO, M12 CONN.
820-3844	SMALL REED SWITCH, 2NC/1NO, 10M CABLE
820-3853	SMALL REED SWITCH, 2NC/1NO, M12 CONN.
820-3856	MINIATURE CODED SWITCH, 2NC/1NO, 10M CABLE
820-3869	MINIATURE REED SWITCH, 2NC/1NO, 10M CABLE
820-3862	MINIATURE REED SWITCH, 2NC/1NO, M12 CONN.

E2FM STAINLESS STEEL INDUCTIVE SENSORS

• One-piece 303 stainless steel body resists damage caused by impact or harsh chemicals
• Thicker sensing face for superior mechanical durability, wear resistance
• 20% greater sensing range (10mm) on M30 versus the CENELEC standard 8mm
• Surge suppressor, load short-circuit protection, choice of connection format

OMRON

615-8290	M8, SR 1.5MM, PNP M12
617-0587	M12, SR 2MM, PNP M12
617-0593	M18, SR 5MM, PNP M12
617-0616	M30, SR 10MM, PNP M12

E3ZM-V COLOUR MARK SENSOR - STAINLESS STEEL

• A detergent & corrssion resistant colour mark sensor in a robust stainless steel 316L housing
• Designed to provide reliable detection of all common print marks in packaging applications
• White LED for stable detection of differently colored print marks
• Easy-to-use teach-in button or remote dynamic teach
• Fast response time of 50μs

OMRON

458-222	PNP 2M CABLE

Discover the
RS PRO Sensors series.

A wide range of sensing technologies, from inductive, to capacitive, from rotary encoders to load cells. For any application and with RS PRO-grade reliability.

Find out more at **rspro.com**

Photoelectric sensors detect and measure physical objects or quantities by emitting a field or beam of electromagnetic radiation. An object is detected by measuring alterations in the return signal.

Through-beam sensors rely on two separate housings, one for the transmitter and one for the receiver. Retro-reflective photoelectric sensors have both the transmitter and receiver contained within the same housing but require a reflector opposite to the sensor. Diffuse sensors are easier to install as only one device has to be mounted. This is because the transmitter and receiver are contained within one housing.

Visit za.rs-online.com to discover the complete range.

An inductive sensor provides non-contact detection of metallic objects, with some sensors being able to target both ferrous and non-ferrous metals, while others specialise in sensing only one type. Inductive proximity sensors are suitable for use in virtually any industry with some types also able to be used in hazardous environments.

Inductive sensors can also be affected by interaction with other sensors and ambient environmental influences. Careful installation will be required to ensure the sensor is effective and is not adversely affected by any surrounding sensors or metallic objects.

Capacitive proximity sensors feature a pair of parallel plates, similar to a standard capacitor. They work when an object produces changes in capacitance, triggering the sensor. Capacitive sensors are designed for use with non-ferrous materials and are ideal for close-range applications such as level detection and monitoring.

Capacitive sensors can be affected by their environment and possible interaction with other sensors. This could include anything from the ambient temperature to other objects in the vicinity. As a result of this, precautions should be taken when installing these sensors to avoid interference from other objects or sensors.

Fibre optic sensors are a type of proximity sensor that have an optical fibre connected to a light source to allow for detection in tight spaces or where a small profile is beneficial. The optical fibre is a transparent fibre made of glass (silica) or plastic with a diameter slightly thicker than a human hair, this fibre transmits light between the two ends to produce an electrical signal.

Fibre Optic Sensors

Image for illustrative purposes only

FIBRE OPTIC TYPE	OUTPUT TYPE	SUPPLY VOLTAGE	IP RATING	POWER CONSUMPTION	DETECTION RANGE	STOCK NO
Plastic	NPN	24V DC	IP54	1.44W	with 896-7298 = 110 -290mm	204-0681
Plastic	PNP	24V DC	IP54	1.44W	with 896-7285 = 300 - 800mm	204-0682

Load cells, often called load cell transducers, are crucial components in most industrial weighing systems. They are available in many different configurations and standards, depending on the intended application and environment.

Among the various different types of load cells available, models and styles can be differentiated in two key ways:

1. By the specific method they use to detect weight (compression load cells, tension load cells and other measurement types).

2. By the type of output signal generated (hydraulic load cells, piezoelectric load cells and various other configurations).

Load Cell Sensors

Compression	50 - 1000	PNP	IP68	10V	204-2764
Compression	60 - 1200	PNP	IP67	15V	204-2771
Compression	500 - 3000	PNP	IP68	15V	204-2766
Compression & Tension	1 - 500	PNP	IP66	10V	204-2773

Trusted by professionals around the world

WARRANTY 3 YEARS

With RS PRO you have a choice of over 60,000 proven quality, great value products, including the widest single-branded offer for the food and beverage industry.

RS PRO APPROVED
The RS PRO Seal of Approval is only awarded after a process of rigorous testing, inspection and certification to demanding international quality standards.

RS PRO CHOICE
With thousands of RS PRO branded, quality products to choose from, choosing RS PRO is the simplest, most cost effective choice of all.

RS PRO VALUE
RS PRO provide customers with one brand that gives huge choice and availability, proven quality and process that can be trusted. RS PRO is the choice for great value and reliable products.

FOOD & BEVERAGE INDUSTRY
ELECTRICAL, AUTOMATION & PROCESS CONTROL

Essential components for managing your complex process, automation and electrical environments.

Electrical, Automation & Process Control Highlights

MECHANICAL COUNTER

- 5-digit, manual reset and surface mount device.
- Pivoting control lever and automatic return.
- Count mode of 1 stroke is equal to 1digit/ drive.
- Maximum speed of the shaft is 500spm.
- Reset by knurled knob and reset button at left
- Stroke angle is between 38° and 60°

Baumer

150-467   MECHANICAL COUNTER WITH LEVEL

XCS-DMC/XCS-DMP CODED MAGNETIC SWITCHES, RECTANGULAR

- Actuation on 3 sides: face to face and face to side
- 8mm tolerance to misalignment (5mm for XCS-DMC)
- LED versions have an LED in series with one N/C giving indication when guard is closed
- Coded reed technology - switch cannot be totally defeated by a simple magnet
- Rectangular plastic housing
- Dimensions: compact: H51 x W16 x D7mm, standard: H88 x W25 x D13mm
- Available pre-cabled or with connector on flying lead
- IP66/67 protection in accordance with EN/IEC 60529
- ROHS compliant

Telemecanique

133-0072   2NC/1NO, 5M

DIN RAIL MOUNT - DRA1-CMX SERIES

- 10mm single channel DIN rail mount SSR assembly
- DC ratings up to 200 Vdc and 8 A
- 3-10 and 20-28Vdc control
- SPST-NO function
- Cage style screw terminals for easy connection
- Fits standard 35mm DIN rail
- Includes LED Status indicator

Sensata • Crydom

701-8483   6A, 100 VDC

CONNECTING CABLE

- A range of connecting cables for the SIMATIC 170 series of mobile panels supporting a Profibus or Profinet environment.
- 10M length

SIEMENS
Ingenuity for life

746-5372   FOR USE WITH 277 SERIES MOBILE PANEL

3000 SERIES - TEMPERATURE CONVERTER

- High basic 0.05% accuracy in all available signal ranges
- All units tested to ensure 2.5 kVAC isolation and have excellent noise immunity
- Response time of < 30 ms for temperature measurements
- Low temperature coefficient better than 0.01% / °C in a wide -25 to +70°C ambient temperature range for precise measurements
- • Long term accuracy better than 0.1% / 3 years with no need for re-calibration

PR electronics

827-5467   5.5 → 35 V DC

Industrial Switchgear

Plugs and Sockets

Providing the strength, reliability and durability demanded of today's industry

Life Is On | **Schneider**

CONTACT BLOCKS

- Short-circuit protection via a 10 A cartridge fuse, providing excellent circuit protection
- Lightweight, easy to fit and configure
- Easily removable and adjustable
- Front mounting
- Operating temperature of between -40 to 70 °C

Schneider Electric

331-0473 1NO

331-0489 1NC

HARMONY XALK CONTROL STATIONS

- Easy to use "turn to release" functionality for easy reset once activated
- Light grey RAL 7035 base enclosure, with a yellow RAL 1021 cover colour and a prominent, bold red push button for easy identification to its function
- Durable Polycarbonate material, easy to clean and maintain with added durability for extended use (mechanical durability of 300,000 cycles)

Schneider Electric

795-1295 EMERGENCY STOP STATION 1NC TURN RELEASE

HEADS FOR SELECTOR SWITCHES ZB4-B (2)

- Low-load electrical contact
- Screw clamp connection, pins for printed circuit
- Ingenious locking system
- Flexible and robust
- -40°C to 70°C operating temperature

Schneider Electric

330-9041 2 POSITION STAYPUT TWIST SELECTOR SWITCH

330-9057 3 POSITION STAYPUT TWIST SELECTOR SWITCH

330-9142 2 POSITION STAYPUT TO LEFT KEY SWITCH

HARMONY EMERGENCY STOP HEAD ZB4B

- Easy mountable, using a single installer (Self-maintaining of the head in its cut-out)
- Clip-together component system (head, body, contact blocks)
- Chromium plated metal, durable and easy to recycle
- The switch has great resistance to electric shock, conforming to the machine safety standards of the IEC (Class 1)
- Single locking screw, making the button easy to mount, reliable and secure

Schneider Electric

330-9388 TWIST TO RELEASE

XAL CONTACT BLOCKS

- Slow break contact operation in conjunction with pushbuttons for quicker action (depending on the speed of the operator)
- 1,000,000 cycles of mechanical durability, robust and reliable to ensure continuous operation
- Lightweight, easy to fit and configure Easily removable and adjustable
- Front mounting

Schneider Electric

331-0580 CONTACT BLOCK 1NC SCREW TERMINAL

BODY/FIXING COLLAR ZB4-B

- The collar weighs 0.003 g
- The mounting hole size of 22 mm
- It is a green premium product
- Designed to be used with the Harmony XB4 series of push-button switches
- Comprised of a strong metal material enabling the component to hard-wearing and long-lasting

Schneider Electric

331-0142 MOUNTING BLOCK FOR PUSHBUTTON SWITCH

HARMONY XB4 EMERGENCY STOP PUSH BUTTONS

- Effortless to use "turn to release" functionality for easy reset once activated
- Chromium plated metal panel with prominent red round push button, easily alerting to the eye
- 2 NC contacts, for simple configuration
- Short-circuit protection using a 10 A cartridge fuse which conforms to EN/IEC 60947-5-1

Schneider Electric

795-1306 40MM TURN RELEASE RED 1NC

EMERGENCY STOP HEAD - TURN TO RELEASE /KEY SWITCH

- An instantaneous disconnect of your circuit upon alarm & activation of this emergency stop control unit
- Modular system, nearly all shapes and functions are compatible with each other (if you need to switch the push buttons head you can do so without changing the other parts)
- Conformity with IEC, UL, CSA standards - giving you the reassurance of reliability and safety in your industry

Schneider Electric

426-2808 E STOP 40MM TRIG-ACTION TURN RELEASE RED

FRONT MOUNT INTEGRAL LED BODIES

- Lightweight, easy to fit and configure screw clamp terminal connectors Easily removable and adjustable
- 100,000 H service life when used at rated voltage, used within an average temperature of 25 °C
- Protected integral LED, coming in varying colours including white, red, yellow and more

Schneider Electric

610-2821 LIGHT BLOCK,GREEN, INTEGRAL LED, 24V

IlIUMINATED RING E-STOP CONTROL BOX 24VDC

• Ring lights up while in normal operation, and turns red when the stop is activated - 24VDC Only
• 1 NO + 1NC contacts IP66/IP67/IP69/IP69K

195-8731

PROGRAMMABLE RECIEVER FOR WIRELESS PUSHBUTTON

• A 3 phase monitoring relay with configuration via FREE Zelio NFC Android App
• Monitors phase asymmetry, phase failure, undervoltage, overvoltage, over & under frequency
• 2 C/O outputs with adjustable on/off delay & voltages thresholds

828-3008

TeSys D GREEN CONTACTORS

• The TeSys D range now has AC/DC coils (energized with either AC or DC), lower energy usage and keeps the same dimensions are the original TeSys D range
• Low control current allows direct PLC control for contactors up to 80A
• Dual AC/DC coils reduces the amount of spares or components you need to keep in stock

135-3961	40A 3P 100-250VAC/DC - LC1D40AKUE

WIRELESS AND BATTERY-LESS PUSHBUTTON TRANSMITTER

• Fits onto existing XB4/XB5 range of Harmony pushbutton heads
• Communicates 100m , can increase with antenna

815-1755

3-PHASE MONITERING RELAY WITH NFC

• A 3 phase monitoring relay with configuration via FREE Zelio NFC Android App
• Monitors phase asymmetry, phase failure, undervoltage, overvoltage, over & under frequency
• 2 C/O outputs with adjustable on/off delay & voltages thresholds

179-0019   RMNF22TB30 (120-480Vac)

MULTIFUNCTION TIMER RELAY WITH NFC

• A timer relay configured via NFC (near field communication) technology available current Android smartphones
• Using the FREE Zelio NFC App the timer can be configured or adjusted precisely, without opening the panel
• Offers 28 functions, 22.5mm profile and DPDT 8A relay output

914-5070   RENF22R2MMW (24-240Vac/dc)

ALTIVAR MACHINE 320

• The Altivar Machine ATV320 variable speed drive improves machine effectiveness in a wide variety of applications
• Altivar Machine ATV320 was designed to improve the effectiveness and efficiency of machines, while optimizing design and engineering costs

MODICON CONTROLLER

• High degree of flexibility lets you add additional modules easily
• SD card and USB port
• Run/stop switch and cartridge extension
• Ethernet and serial line ports
• Free programming software

806-6831	TM221CE16T
806-6821	TM221CE24T
806-6837	TM221CE16R

REGULATED SWITCH MODE POWER SUPPLIES

• Power supplies for industrial use, rail mounting
• Reliable efficiency
• Diagnostics via front panel LED's

210-8398	ABLS1A24050
210-8396	ABLS1A24031

E5CC DIGITAL TEMPERATURE CONTROLLERS (48 X 48MM)

- Large white LCD display
- 15.2 mm characters
- Dual PV/SV 4-digit display
- 50 ms high-speed sampling
- Short 60 mm housing case
- Easy connection to PLC with communications that require no programming
- Component communications can be used to link temperature controllers to each other
- Easy set up with CX-Thermo software (Windows XP, 7) without additional power supply via USB conversion cable

OMRON

760-4599	CURRENT OUTPUT 100-240V
760-5299	CURRENT OUTPUT 100-240V
760-5390	CURRENT OUTPUT 100-240V

ZEN LOGIC MODULE PROGRAMABLE RELAYS

- Increased functionality in a compact body (70 mm wide × 90 mm high).
- This single Unit easily provides relay, timer, counter, and time switch functions.
- Economy-type and Communications-type CPU Units have been added to series.
- Increased timing accuracy with a monthly deviation of ±15 s max. Multiple-day operation and pulse output operation have been added.
- Select from two power supply options: 100 to 240 VAC or 12 to 24 VDC.

OMRON

650-2984	ZEN 20 I/O 12-24VDC

F3S-TGR-CL SAFETY LIGHT CURTAIN

- Simple to wire, mount and configure
- DIP-switch setup for blanking, interlock function, muting and optical coding
- Floating blanking and Fixed blanking supported
- Muting function and muting lamp integrated
- Type 2 or type 4 acc. EN61496-1
- EN ISO 13849-1 – ready
- Long range active/active system
- Sensing distance 0.2 to 6m (14 mm) and 0.2 to 14m (35 mm)

OMRON

757-7715	TYPE 2,600MM

2 CHANNEL DIGITAL DIN RAIL TIME SWITCH

- Independent Day Keys provide easier operation.
- Temporary holiday setting function makes it easy to turn OFF output for holidays and non-operating days
- Settings can be made even with the Time Switch turned OFF
- Test mode enables easy program checking
- Complies with EMC Directives, UL/CSA, and other safety standards
- Includes summer time (DST) adjustment. Yearly models also offer automatic switching to DST

OMRON

177-0111	100 → 240 V AC

H7EC COUNTER

- Large totaliser display
- Self powered by internal battery which can also be replaced
- Key protected switch to prevent accidental reset switch operation
- Dual operation mode
- Short body of only 48.5mm
- Finger touch protection

OMRON

348-1929	BEIGE CASE
348-1913	BLACK CASE

E5C2 ON/OFF TEMPERATURE CONTROLLER

- Supply voltage rating ranging from 100VAC to 240VAC.
- This controller has a width of 48mm and a height of 48mm. It has a K-type (0°C to 400°C) thermocouple input and relay output for ON-OFF control.
- It has thermocouple element lead wires that make soldering difficult due to its inability to sticking to the solder.

OMRON

535-0710	48 X 48MM, 100 → 240 V AC

Browse thousands more products online **za.rs-online.com**

VITAL SAFETY CONTROLLER, BASE UNIT

- Cost-effective cable routing/connections
- Information output with two functions
- LED indication of: power supply, dynamic signal and outputs
- Detachable connector blocks
- Two NO safety outputs
- Manually supervised or automatic reset
- Can accommodate long cable lengths
- Standard width: 22.5 mm

733-2483 TINA 7A ADAPTOR FOR OUTPUTS

733-2464 TINA 2A ADAPTOR FOR OUTPUTS

733-2468 TINA 3A ADAPTOR FOR OUTPUTS

JOKAB EVA GENERAL CODE

- 4 pieces of DA 2B spacer rings included
- Yellow in colour.

176-0036 FOR USE WITH ADAM DYN, OSSD

JOKAB CABLE WITH CONNECTOR

- Shielded cable with connector is PVC coated.
- The conductor size is 22AWG.
- Black oxide colour.
- Length is 20m
- M12 female molded 8-pin connector

176-0060 M12-C203 20M CABLE
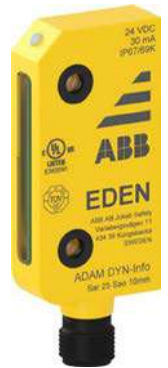

PLUTO SAFETY PLC, BASE UNIT

- Simple and easy programming facilities
- Easy to configure and install
- Up to 640 I/O's

733-2461 TINA 1A BLANK PLUG FOR TINA 4A AND 8A   **R 1 032.95**

SELECTOR HANDLES AND SHAFTS

- Shaft fitted to the disconnector to enable operation, used in conjunction with a handle
- Handles available in black or yellow/red

686-7373 HANDLE, SELECTOR TYPE,OT100 TO 125FT

686-7376 HANDLE, SELECTOR TYPE,OT16 TO 80FT

STAINLESS STEEL PUSH BUTTON ENCLOSURES

- ABB Compact Series
- 22mm Cutout Diameter
- IP65 rating

730-650 3 WAY

730-644 2 WAY 152 X 92 X 55MM

730-638 1 WAY 90 X 90 X 55MM
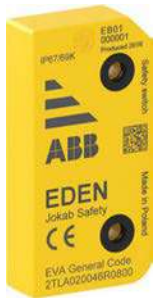

JOKAB INTERLOCK SWITCH

- Reduce downtime
- No wear
- No mechanical breakage
- Easy to install
- Local reset function
- Operating temperature ranges between -40°C and +70°C
- Suitable in harsh environments

176-0019 ADAM DYN-INFO M12-5 CONTACT

JSTD1 SERIES ONE- HAND CONTROL SWITCH

- 1NO/1NC contact configuration
- Cable length is 0.2m
- Ergonomic
- Low activation force
- Flexible mounting
- Several grip possibilities
- Highest safety level (category 4)
- Two-channel switching in each hand
- High mechanical life of 106 cycles
- Operating force is 2N
- Actuator travel of 1.3 ±0.6mm

733-2332 JSTD1-B SAFEBALL W/ 0.2M WIRES

EMERGENCY STOP FOOT SWITCH

- Snap action switch with cover
- Visible operation
- Electrically separated contacts
- Rated impulse withstand voltage is 6kV
- Rated operational current at 230VAC is 3.1A
- Operating temperature ranges between -10°C and 70°C

825-1720 IPS E-STOP FOOTSWITCH, YELLOW
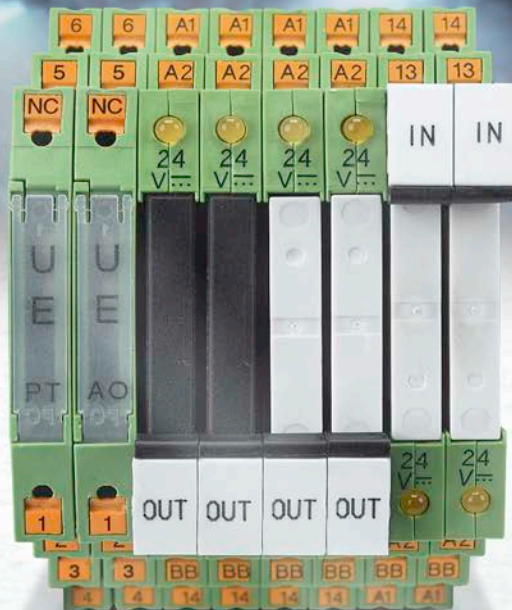

Push-in Technology[p]

Designed by PHOENIX CONTACT

Extremely compact control and switching

Relay system and logic relay system

Relay modules for every application and industry: with PLC-INTERFACE relay systems you will find the best solution. The logic relay system, PLC logic, combines relay and analogue modules with logic functions and intuitive software.

PHOENIX CONTACT has everything you need for best switching.

PHŒNIX CONTACT

INSPIRING INNOVATIONS

PLC-RSC SERIES

- Relays and opto-couplers for inputs and outputs with "pluggable" switching devices
- Four bridging slots to reduce wiring; bridging of up to 80 modules is possible
- Screw terminal connections
- LED indicators and diodes for coil suppression
- 250V versions have a switched power rating of 1500VA
- Dimensions (WxDxH) 6.2 x 80 x 94 mm (Single pole, double pole 14mm wide)
- Operating temperature range -40 to +55°C
- Mechanical life (relays) 1 x 107 operations
- Wide range of accessories also available

290-1422	SINGLE RELAY REL-MR- 60DC/21
290-1416	SINGLE RELAY REL-MR- 24DC/21
306-6592	MINIATURE SOLID-STATE RELAY - OPT-24DC/ 24DC/ 2
358-8301	RELAY MODULE - PLC-RSC- 24DC/21

RIF-0 POWER RELAY MODULES

- Easy wiring due to push in connection technology
- Easy handling and extension of range
- Plug in display/suppressor module
- 1 and 2 contact options

794-3761	24DC/1
794-3765	12DC/ 1
794-3771	24DC/21
794-3780	12DC/21

MCR SIGNAL CONDITIONERS

- MCR series 3-way isolating amplifiers for electrical isolation of analog signals.
- Processing of standard signals
- Fixed setting of input and output signals
- 3-way isolation
- Pluggable screw connection

801-6101	SIGNAL CONDITIONER - MCR-C-I-I-00-DC

PSRMINI SAFETY RELAY

- Compatible with all important signal transmitters and safety-relevant systems
- Screw and push-in spring connection
- Automatic reset, Automatic/Manual reset, Automatic/Manual/Monitored reset, Manual/Monitored reset options available
- Up to 70% space saved
- Easy and quick diagnosis means shorter downtime

893-7701	PSR-MC40-3NO-1DO-24DC-SC

4-WAY ISOLATED SIGNAL DUPLICATOR

- Configurable 4-way isolating amplifier
- Thin 6.2mm housing width
- Ex-zone 2 approval
- DIP switch allows configuration of up to 8 signal combinations
- Duplication of a standard analog signal on two current outputs

489-2881	SIGNAL DUPLICATOR - MINI MCR-SL-UI-2I-NC

INTERFACE RELAY, SERIES PR1

- Pluggable miniature relays, with power contact for high continuous current
- Varied switching current dependant on the relay chosen from the REL-MR series
- Pluggable miniature relay - compact in size
- Additional hard gold plating
- AC and DC coil voltages
- Robust and hard wearing

508-0023	SINGLE RELAY - REL-MR- 24DC/21-21

OPTO-COUPLERS WITH SOLID STATE RELAY OUTPUT

- Dc in/Dc out, Dc in/Ac out and Ac in/Dc out versions available
- Versions with switching speeds up to 100kHz available
- 2.5kVac input to output isolation
- LED status indication
- Module width 6.2mm
- Operating temperature range: -20 to +60°C

533-0019	TERMINAL BLOCK - DEK-OE- 24DC/ 24DC/100KHZ

AE COMPACT ENCLOSURES

- The AE series from Rittal is a compact stainless steel enclosure with an all-round foamed-in PU seal offering IP66 protection to IEC 60 529
- Protection category: IP66 to IEC 60 529, NEMA 4X and IK08
- Stainless steel 1.4301 (AISI 304) enclosure and door
- Door opening angle approx. 130°

784-6125   300 X 300 X 210MM

TOPTHERM FILTER FAN

- Easy to assemble, highly efficient and a versatile unit that provides airflow of 66m³/h and supply voltage of 230VAC.
- It does not require any tools during assembly, exchange or maintenance.
- The fan module and power connection are simple to position to suit the needs of the application.

756-9767   66CU.M/H 230V

756-9777   120CU.M/H 230V

756-9802   250CU.M/H 230V

FAN FILTER MAT

- Temperature-resistant, up to 100°C
- Reliable filtering of dust from a particle size of 10µm
- Thickness is 17 mm
- Filter class G3
- Air throughput is 105m3/h to 120m3/h

756-9887   177X177MM

756-9878   124X124MM

756-9880   224X224MM

756-9884   292X292MM

TOPTHERM SIDE AIR CONDITIONERS

- Mounting on or in doors and side panels of enclosures with standardized mounting cut-outs.
- Integrated automatic condensate evaporation (except SK 3303.500), Nano coating condenser for easy cleaning and constant cooling capacity and efficiency.
- These air conditioners also use an intelligent operating system, turning fans on and off as needed to maintain precise temperatures while saving energy.

764-4127   WALL MOUNTED 230V 1600W

764-4124   WALL MOUNTED 230V 1100W

FAN FILTER EXHAUST

- Used for ventilation by convection.
- The outlet filter can be installed in the upper and lower sections of the enclosure.
- The filter frame is made of ABS material.
- The filter is made of chemical fibre material. The filter is available with a length of 255mm and a width of 255mm. It is suitable for 177mm x 177mm and 224mm x 224mm fan size.

756-9865   224X224MM

EBM-PAPST, 230 V ac, AC AXIAL FAN

• Energy efficient AC fan with EC technology
• Conversion and drive electronics fully integrated
• Long service life
• Fan speed not dependent on line frequency
• Electronic locked rotor protection

ebmpapst

912-6114 119 x 119 x 38mm, 146.1m³/h, 2.8W, IP54

SLEEVE BEARING AXIAL FANS

• Electronic protection against reverse polarity
• Impedance protected against blocking and overloading
• Fibreglass-reinforced plastic
• Integrated electronic commutation

ebmpapst

322-4445 40.9CU.M/H24VDC

HIGH PERFORMANCE BALL BEARING FANS

• Material: fibreglass-reinforced plastic
• Fully integrated electronic commutation
• Protected against reverse polarity and locking
• Connected via single strands AWG 24, TR 64. Bared and tin-plated.

ebmpapst

222-294 360CU.M/H 24VDC

CENTRIFUGAL FANS AND BLOWERS – BACKWARD CURVED BLADES

• A solution to a wide range of application requirements and are ideally suited for intake suction use.
• Used for intake suction using backward curved blades, do not require a scroll housing – increasing ease of use and versatility.

ebmpapst

825-7686 220MM DIA, 115V

825-7670 220MM DIA, 230V

RADICAL EC CENTRIFUGAL FANS

• The ebm-papst RadiCal backward curved EC fan offers higher performance for less power.
• Low-pressure centrifugal solutions
• Fitted with highly efficient GreenTech EC motor
• Aerodynamic shape reduces noise emissions
• Hybrid construction makes impellers highly corrosion-resistant
• EC control options available

ebmpapst

810-4131

AXIAL FAN FINGER GUARDS

• Industrial standard size zinc plated steel finger guards for axial fans
• 4 standard fixing points except 172 x 172 which has 2 points

ebmpapst

233-9401 225HX225WMM

581-470 127HX127WMM
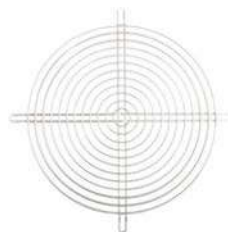

BACK DRAUGHT SHUTTERS

• To prevent back draughts
• Lightweight blades and square opening provide maximum free area when the fan is operating
• Blades close under gravity when the fan airflow ceases
• All components are light grey and UV stabilised to provide a long life

ebmpapst

414-1802 630MM

IP66 STAINLESS STEEL WALL BOX WITH CHASSIS PLATE

- AISI 304 Stainless Steel
- IP66 rating
- Fully wall mountable
- Lockable

842-8399	200X200X150MM
842-8412	240X180X150MM
842-8419	240X240X150MM
842-8434	240X360X150MM
842-8406	300X300X150MM
842-8370	300X300X200MM
842-8361	300X400X150MM
842-8342	300X400X200MM
842-8421	360X180X150MM
842-8380	400X300X150MM
842-8383	400X300X200MM
842-8409	400X400X200MM
842-8346	400X500X200MM
842-8374	500X500X200MM

METAL LOCK

- An effective enclosure locking device with
  a 5mm Double Barb lock configuration.
  The cam is designed to provide a
- slide compression fit and operate through an angle of 90
- Bright chrome plated finish
- Cam lead-in ensures compression of sealing gasket
- Max panel thickness 6mm
- Grip length 25mm

842-8478	RONIS TYPE KEY
842-8469	T TYPE KEY

IP66 WALL BOXES

- Body material is AISI 304 stainless steel sheets
- IP66 rating
- Double lipped edges to ensure higher strength and ease of installation
- Easy to use, including removal of the door
- Door is fitted with a polyurethane gasket

758-6986	300X300X200MM
758-6974	300X400X150MM
758-6958	300X400X200MM
758-6999	400X300X200MM
758-6961	400X500X200MM
758-6992	500X500X200MM

GRP WALL BOXES WITH GLAZED DOOR

- Fibre glass reinforced polyester construction
  offering excellent durability, long life and self
  extinguishing properties up to 960oC
- Glazed door, ideal for viewing the contents
  of the wall box without unlocking
- Neutral light grey colour ideal for use in a range of applications
- Electromagnetic compatibility eliminating electrical contact risks
- High impact and harsh atmosphere resistance

192-7123	400X400X200M

IP66 SHEET STEEL WALL BOXES

- Steel structure, coated with an epoxy polyester powder
- IP66 rating
- Enclosure and the door is made from sheet steel
- Fully wall mountable
- Pebble grey finish

775-5791	MS WALL BOX WITH BRACKETS/CHASSIS PLATES

CLEAR MAKROLON® FRONT

- Transparent lid with visibility to internal components
- Two-part, modular, glass fibre enclosures offering excellent protection
- Removable chassis plates included
- Self extinguishing, resistant to ozone, most oils, acids, bases and salts
- Temperature range -50°C to +160°C

501-496	IP66 370X300X175MM

FOOD & BEVERAGE INDUSTRY
PLUMBING & PIPELINE

We supply a wide range of pipes, tubing, hoses and more to suit your requirements.

Plumbing & Pipeline Highlights

Browse and shop the entire range of plumbing & pipeline products online at **za.rs-online.com**   .

POWER-ASSISTED CONTROL NORMAL MODULE

- Power-assisted control 2/2 NC and NO solenoid valves with floating diaphragm.
- No minimum control pressure.
- 238 series solenoid valves designed to eliminate water hammer when water is turned off.
- Brass body.
- Pluggable PG 11P connection.

306-1581   SOLENOID VALVE 2/2

PERISTALTIC PUMP

- The Verderflex peristaltic, electric operated, self-priming, positive displacement pump has a maximum flow rate of 2200ml/minute.
- The supply voltage is 24VDC
- Input power is 30W
- 2 roller design
- Cycology resin pump head with support bearing
- Tough ABS casing
- Thermally protected motor and cooling fan
- Repeatability is ±0.5%
- Metering accuracy is ±2% (dependant on size of dose)

VERDERFLEX

125-4041   8MM TUBE

AIR OPERATED POSITIVE DISPLACEMENT PUMP

- Pump body is made of polypropylene
- Can running dry without damage
- High clearance check-valves for good solids handling
- Flow rate can be varied by adjusting air inlet pressure
- High suction lift up to 80m
- Robust design
- Stall free performance
- Oil free- no contamination

667-9182   132L/MIN

DS6281-EV 2/2 SOLENOID VALVE - BRASS BODIED

- 0.1 - 4 second response time (dependant upon pressure)
- IP65 Rated (with cable protection)
- Brass body
- Quiet operation
- Water hammer free design
- Compact installation length NPT / Rc connection ports
- 0.2 - 16 Bar pressure range

bürkert
FLUID CONTROL SYSTEMS

816-3168   3/4" SOL VALVE 20MM ORIFICE 24VDC

ADVANCED POLYETHYLENE (APE) TUBING

- 50% reticulated material
- Balance between flexibility and pressure/temperature resistance
- Resistant to a wide range of aggressive chemicals
- UV-stabilised: ideal for outdoor applications
- Approved for contact with foodstuff and beverages

legris

144-7831	BLACK 8X5,75 DRUM 150M
144-7829	BLACK 6X4 DRUM 150M

SINGLE PIECE REDUCED BORE BALL VALVE

- Reduced port, 1/4" - 3" (DN8 - DN80)
- W.P: 1000WOG (PN63)
- W.T: -20°C to 200°C (-4°F to 392°F)
- Investment casting
- Blow-out proof stem
- Anti-static device (option)
- Locking device
- Thread type: ASTM B1.20.1 (NPT) DIN2999 & BS21 ISO7/1 & EN10226

499-2789	1/4IN BSPP F-F
499-2795	1/2IN BSPP F-F
499-2802	3/4IN BSPP F-F
499-2818	1IN BSPP F-F
499-2824	1 1/4IN BSPP F-F
499-2830	1 1/2 INCH BSPP F-F
499-2846	2 INCH BSPP F-F

STAINLESS STEEL BALL VALVE WITH ELECTRIC ACTUATOR

- Body - CF8M - 316 S/S
- Ball - 316 S/S
- Stem Seal - PTFE
- Ball Seal - PTFE
- 1,000 PSI Rated
- Enclosure Rated Weather proof IP67
- Motor: 24Vdc
- Multi voltage 24Vdc, 95-240Vac
- Limit Switches 2 x open/close SPDT, 250Vac 6A rating
- Auxiliary Limit Switches 2 x open/close SPDT, 250Vac 6A rating
- Indicator LED lamp Indicator (Open/Close)

760-5700	1/2IN. BSP S/STEEL
760-5687	1IN. BSP BRASS

FLOAT AND THERMOSTATIC STEAM TRAP

- Connections are female screwed
- Modulating discharge
- Discharges condensate at steam temperature
- Unaffected by sudden or wide load and pressure changes Excellent air discharge (by thermostatic air vent)

720-9229	3/4IN. 14BAR FLOAT STEAM TRAP BSP
720-9232	1IN. 10BAR FLOAT STEAM TRAP BSP

REMOTE READING EXPANSION THERMOMETER

- 100 mm centigrade dial Dry Thermometer with bi-metal movement
- Supplied with a surface mounting back flange
- Acrylic window with steel cover

431-5586	-20 TO +60DEGC&F
431-5592	0 TO +120DEGC&F

INDUSTRIAL SOLENOID VALVES

- Made from forged brass
- Pilot operated
- Choice of 230 V ac or 24 V dc operation
- 2 port, normally open (NO) and normally closed (NC)
- Liquid or gas use
- Full range of sizes from 3/8 in to 2 in

144-0812	SOLENOID VALVE 1/2" NO 220VAC

HEAVY DUTY SELF-RETRACTING HOSE

- 180° pivoting wall bracket
- Includes carrying handle and 1.5m feed pipe
- 1/2inch BSPT male connector
- Auto lock fitted with rollers for smooth retraction

911-9447	10MM ID, 15M
911-9443	8MM ID, 9M

SPRAY GUN

- Adjustable screw to vary cone width from 0° to 60°
- Covered by semi housings of non-stainable shockproof plastic, entirely sealed and with 3 rubber protective rings
- Ergonomic construction
- Gun is suitable for use up to 24 bar, 2.4 MPs rated pressure pumps
- Inlet swivel connection
- Internal structure in made of brass and stainless steel
- Plastic trigger protected by hand guard

175-6264	1/2" BSPF

SILICONE TRANSPARENT TUBING

- Flexible silicone tubing is suitable for use in most peristaltic pumps
- Length of 3 m
- Bore size of 3.2 mm
- Suitable for contact with food
- Peristaltic pump compatible
- Density of 1.16 g/cm³
- Shore A hardness of 62
- Elongation of 385% (approx)

667-8444	3.2MM BORE
667-8448	4.8MM BORE
667-8457	6.4MM BORE
667-8450	8MM BORE

PNEUMATICS, HYDRAULICS & POWER TRANSMISION

A wide range of pneumatic and hydraulic parts, components and solutions you need for creating a purpose-built system or parts to update, maintain or repair your current system.

Pneumatics, Hydraulics & Power Transmision Highlights

SKF FOOD LINE STAINLESS STEEL DEEP GROOVE BALL BEARINGS

- Prelubrication with high-quality grease registered by NSF as category H1 A nitrile rubber seal material that is coloured blue for optical detectability and is compliant with FDA and EC recommendations
- Stainless steel (440C) for inner ring, outer ring, rolling elements and cage
- Stainless steel backing plate for the seal

SKF

125-1229	10MM DEEP GROOVE BALL BEARING 26MM O.D
125-1240	20MM DEEP GROOVE BALL BEARING 47MM O.D

125-1242	30MM DEEP GROOVE BALL BEARING 62MM O.D

SMT/SME-8M SERIES T-SLOT PROXIMITY SENSORS

- Compatible with all Festo T-Slots
- 24 V dc Operating Voltage
- Non-contacting or contacting sensing

FESTO

121-5824	3 WIRE 0.3M

SHAFT COLLAR TWO PIECE CLAMP SCREW

- The clamp style design does not mar the shaft, is easy to remove, and is indefinitely adjustable.
- Is commonly used for guiding, spacing, stopping, mounting, and component alignment.
- Equipment manufacturers benefit from the tightly controlled face to bore perpendicularity of Ruland shaft collars, TIR of ≤ 05mm.

RULAND

174-6784	40MM OD 60MM W 15MM

SKF CAHB-10 SERIES LINEAR ACTUATOR

- Compact design
- Robust and reliable
- Designed for harsh environments
- High load capacity
- Lubricated for service life
- Durable, lightweight and corrosion resistant

EWELLIX

764-3477	LINEAR ACTUATOR CAHB-10 STROKE 50MM 24V

CLEAN DESIGN CYLINDER FOR FOOD INDUSTRY

- Hygienic and self-adjusting PPS cushioning
- Easy-to-clean cylinder profile without corners and indents
- Corrosion-resistant cylinder surface
- Standard dimensions and mounting accessories to ISO 15552
- NSF-H1 lubricant and special wiper seal (characteristic A3) suitable for contact in the food area. Long service life even with insufficient lubrication due to frequent cleaning processes

FESTO

Search **'dsbf'** or scan QR code for over 100 product options

COMPRESSED AIR FILTER-REGULATOR

- Vertical assembly position
- Manual rotary condensation drain
- Standard nominal flow rate of 5,600 l/min
- Optional mounting type of either front panel or line installation
- G1/2 pneumatic connection
- Aluminium die cast housing material
- Rotary knob with lock actuator

FESTO

121-5670

COMPRESSED AIR FINE FILTER

- Fully automatic monitoring and regulation of compressed air supply
- Automatic shut-off of the compressed air in stand-by mode
- Detection and notification of leakages
- Condition monitoring of relevant process data

FESTO

Search **'ms6-lfm'** or scan QR code for over 30 product options

COMPRESSED AIR ACTIVATED CARBON FILTER

- Fully automatic monitoring and regulation of compressed air supply
- Automatic shut-off of the compressed air in stand-by mode
- Detection and notification of leakages
- Condition monitoring of relevant process data

SOLENOID CONTROL VALVE

- In-line valve - designed to be used without pneumatic linking. All pneumatic connections are on the valve and can be equipped with fittings/tubing.
- Piston spool with sealing ring design principle
- 5/2 Way Monostable valve function
- Internal pilot air supply
- G1/4 thread pneumatic connection

FESTO

121-5898 5/2 WAY

FOOD GRADE PNEUMATIC FITTINGS

- Effortless selection of the right fitting.
- Festo offers a secure solution for every connection.
- The convenient push-in fitting system includes well over 1000 types of standard and function fittings.

FESTO

Search **'npqh'** or scan QR code for over 150 product options

HYDOLYSIS RESISTANT TUBE

- Hydrolysis-resistant and suitable for water applications.
- Combination suitable for use in cleanrooms, FDA-compliant and corrosion-resistant as it is made of 100% polymer.
- Very easy to install thanks to the "one click principle"

FESTO

Search **'pun-h'** or scan QR code for over 50 product options

ANGLE SEAT MEDIA VALVE

- Modular, hygienic design, insensitive to dirt
- Quick and easy maintenance
- Control of medium flows (gaseous and liquid) in closed and open circuits
- The angle seat valves VZXA are simple and sturdy and are thus perfectly suitable for almost all media with a viscosity of up to 600 mm²/s
- The angle seat valves VZXA made from stainless steel with PTFE seals have high chemical and thermal resistance
- Also suitable for vacuum applications
- Temperature of medium –30 ... +200°C

FESTO

Search **'vzxa'** or scan QR code for over 20 product options

FDA APPROVED PINCH VALVE

- The pinch valve is a 2/2-way valve used to control liquid and powdery media, solids as well as a mixture of substances.
- Easy-to-clean housing (clean design)
- Open or closed in normal position
- Shut-off element made of elastomer

FESTO

Search **'vzqa'** or scan QR code for over 30 product options

Air quality that continuously meets ISO standards for the food industry

FESTO

Perfectly tailored compressed air preparation

The right compressed air quality every time.

If you want to improve the reliability of your systems, you need to look at your compressed air supply. In the food and beverage industry, strict demands are made of compressed air quality in order to ensure the highest possible level of food safety.

The ISO 8573-1:2010 standard defines maximum permissible levels of particles, water and oil which may be present in compressed air for various applications.

Festo can tailor air preparation precisely to your application. Just combine the highly functional service units from our MS series to obtain air preparation which precisely delivers the air quality you require. **Get your filtration systems up to standard and meet purity-class requirements with Festo!**

www.festo.com

CFM PNEUMATIC CABINET COOLER

- Uses compressed air at 5-7 bar
- Fits into a 3/4 in BSPP (British Standard Parallel Pipe) clearance hole in the cabinet wall
- Maximum flow rate of 35 CFM
- Maximum cooling capacity of 1,500 Btu/h
- Fed through 1/4 in BSP air inlet
- Pressure relief valve
- Height of 196 mm
- Diameter of 45 mm
- Stainless steel body
- Control device not included
- Conforms to ANSI/ESD S20.20:2014 and BS EN 61340-5-1:2007 Electrostatic Control Standards

291-5386 1500BTU/H 35CFM

PNEUMATIC CABINET COOLER

- Pressure range of 5-7 bar
- Cools cabinet volumes of up to 2 m³
- Maximum flow rate of 35 CFM
- Maximum cooling capacity of 1,500 Btu/h
- Diameter of 45 mm
- Height of 333.5 mm
- Stainless steel body
- Control device not included
- Conforms to ANSI/ESD S20.20:2014 and BS EN 61340-5-1:2007 Electrostatic Control Standards

445-3060 1500BTU/H 35CFM

VACUUM PRESSURE GAUGE 0BAR

- Maximum Pressure Measurement 0bar
- Vacuum Pressure Gauge Type
- Gauge Outside Diameter 100mm
- Stainless Steel Case Material
- Minimum Operating Temperature -40°C
- Maximum Operating Temperature +60°C

188-986 0-30HG

ELECTRIC LINEAR ACTUATOR

- Input voltage 24V DC
- Max. load 500N (push/pull)
- Speed: 13.5 mm/s (full load) 14.6 mm/s (no load)
- Stroke length: 100 mm
- Aluminium grey in colour
- Quiet yet powerful
- Preset limit switches
- Minimal operational costs
- Energy efficient

177-4490 24V DC, 100MM STROKE

AUTOMATIC DRAIN VALVE - 240V 50HZ

- Precise self-activated control of fluids and air to a specified programme (media: air, gases, oo, oil etc.)
- Automatically opens for a set time to drain condensation
- Length of time open (0.5 to 45 minutes) and frequency both adjustable
- Discharge time 0.5 to 10 seconds
- Minimal risk of internal blockages due to increased internal tolerances
- LED indicator for operational status

725-125 AUTOMATIC DRAIN VALVE

F4 SERIES ADJUSTABLE PRESSURE SWITCH

- Fitted with a mechanical stop to prevent damage from over pressurisation
- Can be mounted in any orientation
- 90 Cycles/min switching frequency
- Long mechanical life (10^6 cycles at 70bar)
- 0.5A maximum load (at 250 VAC)
- Accuracy 4% of set pressure
- Fixed Hysteresis 10-25% (Dependent upon version)
- DIN 43650 Electrical connection

297-0052 1-12 BAR
297-0046 0.2-2.5 BAR

K3 SERIES ADJ HYDRAULIC PRESS SWITCH

- Adjustable via a screw located in the centre of the instrument
- Incorporates a mechanical stop providing over-pressure protection for spring and microswitch
- DIN 43650 connector

363-5968 1-10 BAR K3 SERIES
296-9989 2-40 BAR K SERIES

STANDARD DUTY POLYURETHANE TUBE

- Highly flexible, cut and abrasion resistant
- Silicone free
- Ideal for pneumatic control and chemical transfer lines

917-2381 BLUE, 5MM ID, 8MM OD
917-2397 BLUE, 9MM ID, 12MM OD
917-2400 CLEAR, 4MM ID, 6MM OD
917-2371 BLACK 7.5MM ID 10MM OD

DOUBLE UNIVERSAL JOINT WITH NEEDLE BEARING

- Carbon steel universal joints for connecting equipment where there is a misalignment greater than 5 degrees up to an angle of 90 degrees.
- Fitted with needle bearings lubricated for a lifetime and requiring no maintenance, suitable for applications with speeds of up to 4000 rpm.
- Smooth and silent operation, suitable applications include connection of conveyers, line shafts and drive shafts.

790-6807	10MM BORE
790-6813	16MM BORE
790-6823	25MM BORE

CHAIN TENSIONER CTC

- Considerably reduces drive vibration and noise.
- Is truly "fit and forget" enabling high drive reliability and very low maintenance costs

901-0053	DIN CODE 12B-1, 420N
901-0047	DIN CODE 08B-1, 250N

STAINLESS STEEL DEEP GROOVE BALL BEARINGS

- Shielded
- Good radial load capacity
- Ideal for high speeds
- Long operating life

188-3293	15X35X11MM
188-3295	20X47X14MM
188-3281	15X32X9MM
188-3331	25X52X15MM
893-7272	25MM ID 47MM OD
893-7323	8MM ID 22MM OD

SHAFT SEALS

- Replaceable without damage to the housing bore
- No need for circlips, sealants or retaining plates

211-9005	25X35X7MM
211-9011	25X47X7MM
211-9027	25X52X10MM
211-9055	30X40X7MM
211-9061	30X42X7MM

O-RING KIT VITON®

- Essential for all workshops and onsite service engineers
- Range of sizes – no need to purchase individual O-Rings
- Quick identification and easy storage for multiple O-Ring sizes
- Robust casing suitable for transport
- The kit contains 510 pieces in 18 different sizes
- 75 Shore A
- The material of the rings are resistant to petrol, oil and hydraulic oil
- Viton® A O-rings have a high chem and temperature resistance alongside a low compression set

756-040	IMPERIAL
245-9628	METRIC

DELRIN SPUR GEARS

- Tensile strength 94N/mm²
- Hardness (Rockwell R) 110-120 20° Pressure angle

521-6991	SPUR GEAR - 0.5 MODULE 15 TEETH
521-7231	SPUR GEAR - 0.8 MODULE 12 TEETH
521-7455	SPUR GEAR - 0.8 MODULE 80 TEETH
521-6064	MITRE GEAR,1.5 MODULE

NITRILE O-RING CORD

- An economical and versatile solution for creating seals on the job.
- You can use it for applications as diverse as engines and beer taps.
- Length of 8.5 m

138-1600	DIA. 2MM
138-1602	DIA. 3.5MM
138-1604	DIA. 4.0MM
138-1605	DIA. 4.5MM
138-1607	DIA. 5.33MM
138-1606	DIA. 5MM
138-1608	DIA. 6MM
138-1610	DIA. 8MM

STAINLESS STEEL SHAFT COLLARS

- Industry standard
- Interchangeable
- Common type
- Anti-corrosion finish

122-3452	BORE 12MM
122-3453	BORE 14MM
122-3455	BORE 16MM
122-3456	BORE 18MM
122-3457	BORE 20MM
122-3460	BORE 25MM
122-3461	BORE 30MM
122-3449	BORE 6MM
122-3450	BORE 8MM

GREEN ROUND POLYURETHANE BELT

- Hardness of 88 Type A
- Minimum operating temperature of -30°C
- Maximum operating temperature of +80°C
- Not food certified

309-8123	5M L X 5MM DIA
309-8139	5M L X 6MM DIA
309-8145	5M L X 8MM DIA

FOOD & BEVERAGE INDUSTRY
TOOLS & CONSUMABLES

Quality tools, fasteners & fixings, adhesives, sealants, tapes and more to get the job done.

Tool & Consumables Highlights

NIPPER CABLE CUTTER

- Black corrosion resistant pliers Polished head
- Plastic coated handles
- Length 280 mm

KNIPEX

136-7418   END CUTTING

FX600 SOLDERING IRON

- Lightweight, ergonomic handpiece
- Compact size
- Suitable for SMD and Through hole applications

HAKKO

768-8985   50W

XCELITE FINE POINT DIAGONAL KNIFE BLADE

- Scalpels for delicate work
- Knurled end for more secure handling and a firm grip

Weller Xcelite

675-6709   FINE POINT DIAGONAL (PACK OF 5)

TRANSPARENT LIQUID SUPER GLUE FOR ELASTOMER

- Low viscosity instant adhesive
- Ensures uniform fast-fixturing of 'difficult' rubbers and elastomers
- Bonds polyethylene, polypropylene and polyolefin plastics when used with Loctite 770 Primer

LOCTITE

514-600   20 G

TEMFLEX 1755 RUBBER BLACK CLOTH TAPE

- PVC insulation tape with good electrical and mechanical properties
- High dielectric strength 40 kV/mm
- Self extinguishing
- Good resistance to abrasion, moisture, alkalis, acids, corrosio, varying weather conditions and ultraviolet exposure

3M

840-9026   19.1MM X 18M, 0.33MM THICK

FOOD SAFE SILICONE SEALANT PASTE

- Conforms to BS5889 Type B
- Fast cure
- High modulus-acetoxy cure type

Dow Corning

459-0232   310 ML CARTRIDGE

RS PRO

METRIC WORKSHOP RANGE JOBBERS DRILLS

- 5% Cobalt High-Performance HSS-E Drill bits.
- High-Temperature strength without sufficient coolant
- 135° non-slip split point for precise centring
- Direct drilling without the need for prior centring or drilling a pilot hole
- Cuts faster and lasts longer than regular HSS drill bits
- 0.5 mm increments

RS PRO

216-690 1-13MM
216-678 1-10MM

VDE ELECTRICIANS TOOL KIT

- Ergonomic multi-component handles
- Optimum balance of torque and control
- High quality and professional tools
- VDE approved for electrical safety
- Made from chrome vanadium steel
- Ideal for a wide range of applications
- Sturdy tool case

RS PRO

734-8885 88PC 1/2IN. SOCKET & VDE TOOL KIT

SWITCH KEY UNIVERSAL WRENCH

- Multi-purpose enclosure key wrenches designed for use within maintenance & service applications
- The four arms of the tool offer five differing drive possibilities
- Available with either a bright chrome or zinc plated finish

RS PRO

439-3025 ZINC FINISH
439-3019 CHROME FINISH

UNIVERSAL CABINET CROSS WRENCH KEY

- Multifunctional tool - convenient and easy to use on many utility systems
- Unique adapter that converts to an emergency screwdriver
- 8 different key types
- Solid die-cast construction
- Double-ended screwdriver bit with PH1 and 1 x 7mm Slotted ends
- Adaptor attached to create a pocket screwdriver
- 6 and 8mm square, 9mm triangular and 5mm double-pin type keys

RS PRO

841-7005 70MM X 14MM X 70MM

TUBE CUTTER

- Easy to handle
- Polyacetal body stainless steel blades
- Precise design
- Ruggedness
- Simple to use

RS PRO

172-8969 3MM - 15MM

RETRACTABLE AUTOMATIC KNIFE STANDARD BLADE

- Aluminium-bodied safety knife with automatic blade retraction
- When cutting, the blade remains outside the body, but when pressure is relaxed the spring loaded blade retracts into the handle
- Supplied with one blade

RS PRO

615-9164 AUTOMATIC

HYDRAULIC PULLER SET

- High quality, forged steel provides superior reliability and service
- Precise hydraulic control allows fast, efficient and safe pulling
- Comes in a carrying case
- 8-ton hydraulic power unit
- Portable

RS PRO

349-7261 25 PIECE

LATCH CLAMP

- Large and quick opening
- Galvanized and passivated
- Rivets made of stainless steel
- Bearings are pre-lubricated
- Ergonomic, oil-resistant handle with large grip surface and soft components
- The design of the clamp enables speed of operation and release, combined with high holding force

RS PRO

254-800 200NM

AUTOMATIC WIRE STRIPPER

- Precision carbon steel laminated stripping blades
- Compact pistol grip design for increased control and a smooth stripping action
- Adjustable sliding wire stop to preset exact stripping lengths
- Shielded cutter for safety
- Constructed from high grade polymers and Carbon Steel for durability and long tool life

RS PRO

243-257 197 MM 0.2-6SQ.MM

RS PRO VALUE · RS PRO APPROVED · RS PRO CHOICE

PALLET WRAP

- Stretch and seal food grade film supplied with re-usable handle

329-5920 100MMX 100M (PACK OF 10)

TRANSLUCENT SQUEEZE BOTTLE

- Squeeze bottle for use with cleaner, oil, solvent and other liquids
- Capacity of 225 ml
- Translucent colour
- Made from polypropylene (PP)
- Can release single drops or fine streams

548-4289 225ML

BLACK SELF AMALGAMATING TAPE

- Easy unwind
- Extremely flexible
- Resistant to water, ozone and UV
- Excellent low and high temperature performance
- Excellent conformability to awkward shapes
- Breaking load is 20.0N/cm
- Elongation is 600%

146-8998 25MM X 10M

COIN/BUTTON CELLS, SILVER OXIDE

- Higher the capacity the longer life time
- Non-Rechargeable
- Wide operating temperature range
- Resistant to vibration, shock and acceleration
- Stable and steady performance and feature low internal resistance

593-423 RS SR44 COIN CELL BATTERY, 1.55V

BLACK PVC SEALING STRIP

- High strength adhesive to keep foam in place during assembly
- Excellent resistance to weather, fungi and oxidation ensures a long seal life
- Closed cell construction gives a positive seal at only 30% compression and requires less material to seal than open cell foams
- Easy peel liner prevents stretching during installation
- Single-Sided Tape
- Various applications, air conditioning, telecommunications, aircraft, marine and automotive industries

205-0906 25MM X 10M, 10MM THICK

A4 STAINLESS STEEL PLAIN WASHER - METRIC

- RS PRO washers are an essential part of any fastener assembly, as they serve to incorporate spacing and distribute load when placed between a nut and bolts.
- These washers will help prevent wear and distortion of installation surfaces over time.

189-664 M8

LEAD ACID RECHARGEABLE BATTERY

- 5 years standby design
- Float Standby use
- Low gas emissions 99% plus recombination
- Excellent recovery from deep discharge
- Leak-proof – Sealed lead acid (SLA) battery
- ABS resin case to UL94-HB fire resistance (Horizontal Burning Test)
- Road transport to UN2800 (Batteries, Wet, Non-Spillable)
- Air Transport to Special Provision 'A67' 'IATA' & 'ICAO'. (Batteries, Wet, Non-Spillable)

537-5488 RS SEALED LEAD-ACID BATTERY,12V 7AH

A4 STAINLESS STEEL HEX NUTS - METRIC

- Ideal for use in chemical processing equipment and marine environments due to its higher resistance to tarnish and corrosion.
- Metric hex nuts
- To DIN934
- A4 grade 18/8 stainless steel (Type 316 S16) – long lasting
- Good resistance to corrosion and saltwater
- Due to the hexagon nut having six sides it makes it easier to work with and is very versatile
- Easy to tighten and loosen

189-591 M6
189-585 M5

COLOPHONY-FREE TIN/ LEAD SOLDER WIRE

- Versatile soldering wire that can be used for a wide range of soldering tasks
- Alloy used consists of 60% tin and 40% lead
- Melting point between 183-188°C
- Low odour formulation with 1.1% flux content
- Soldering iron typical tip temperature for this solder wire is 320-360°C

800-7661 0.7MM
756-8871 0.4MM
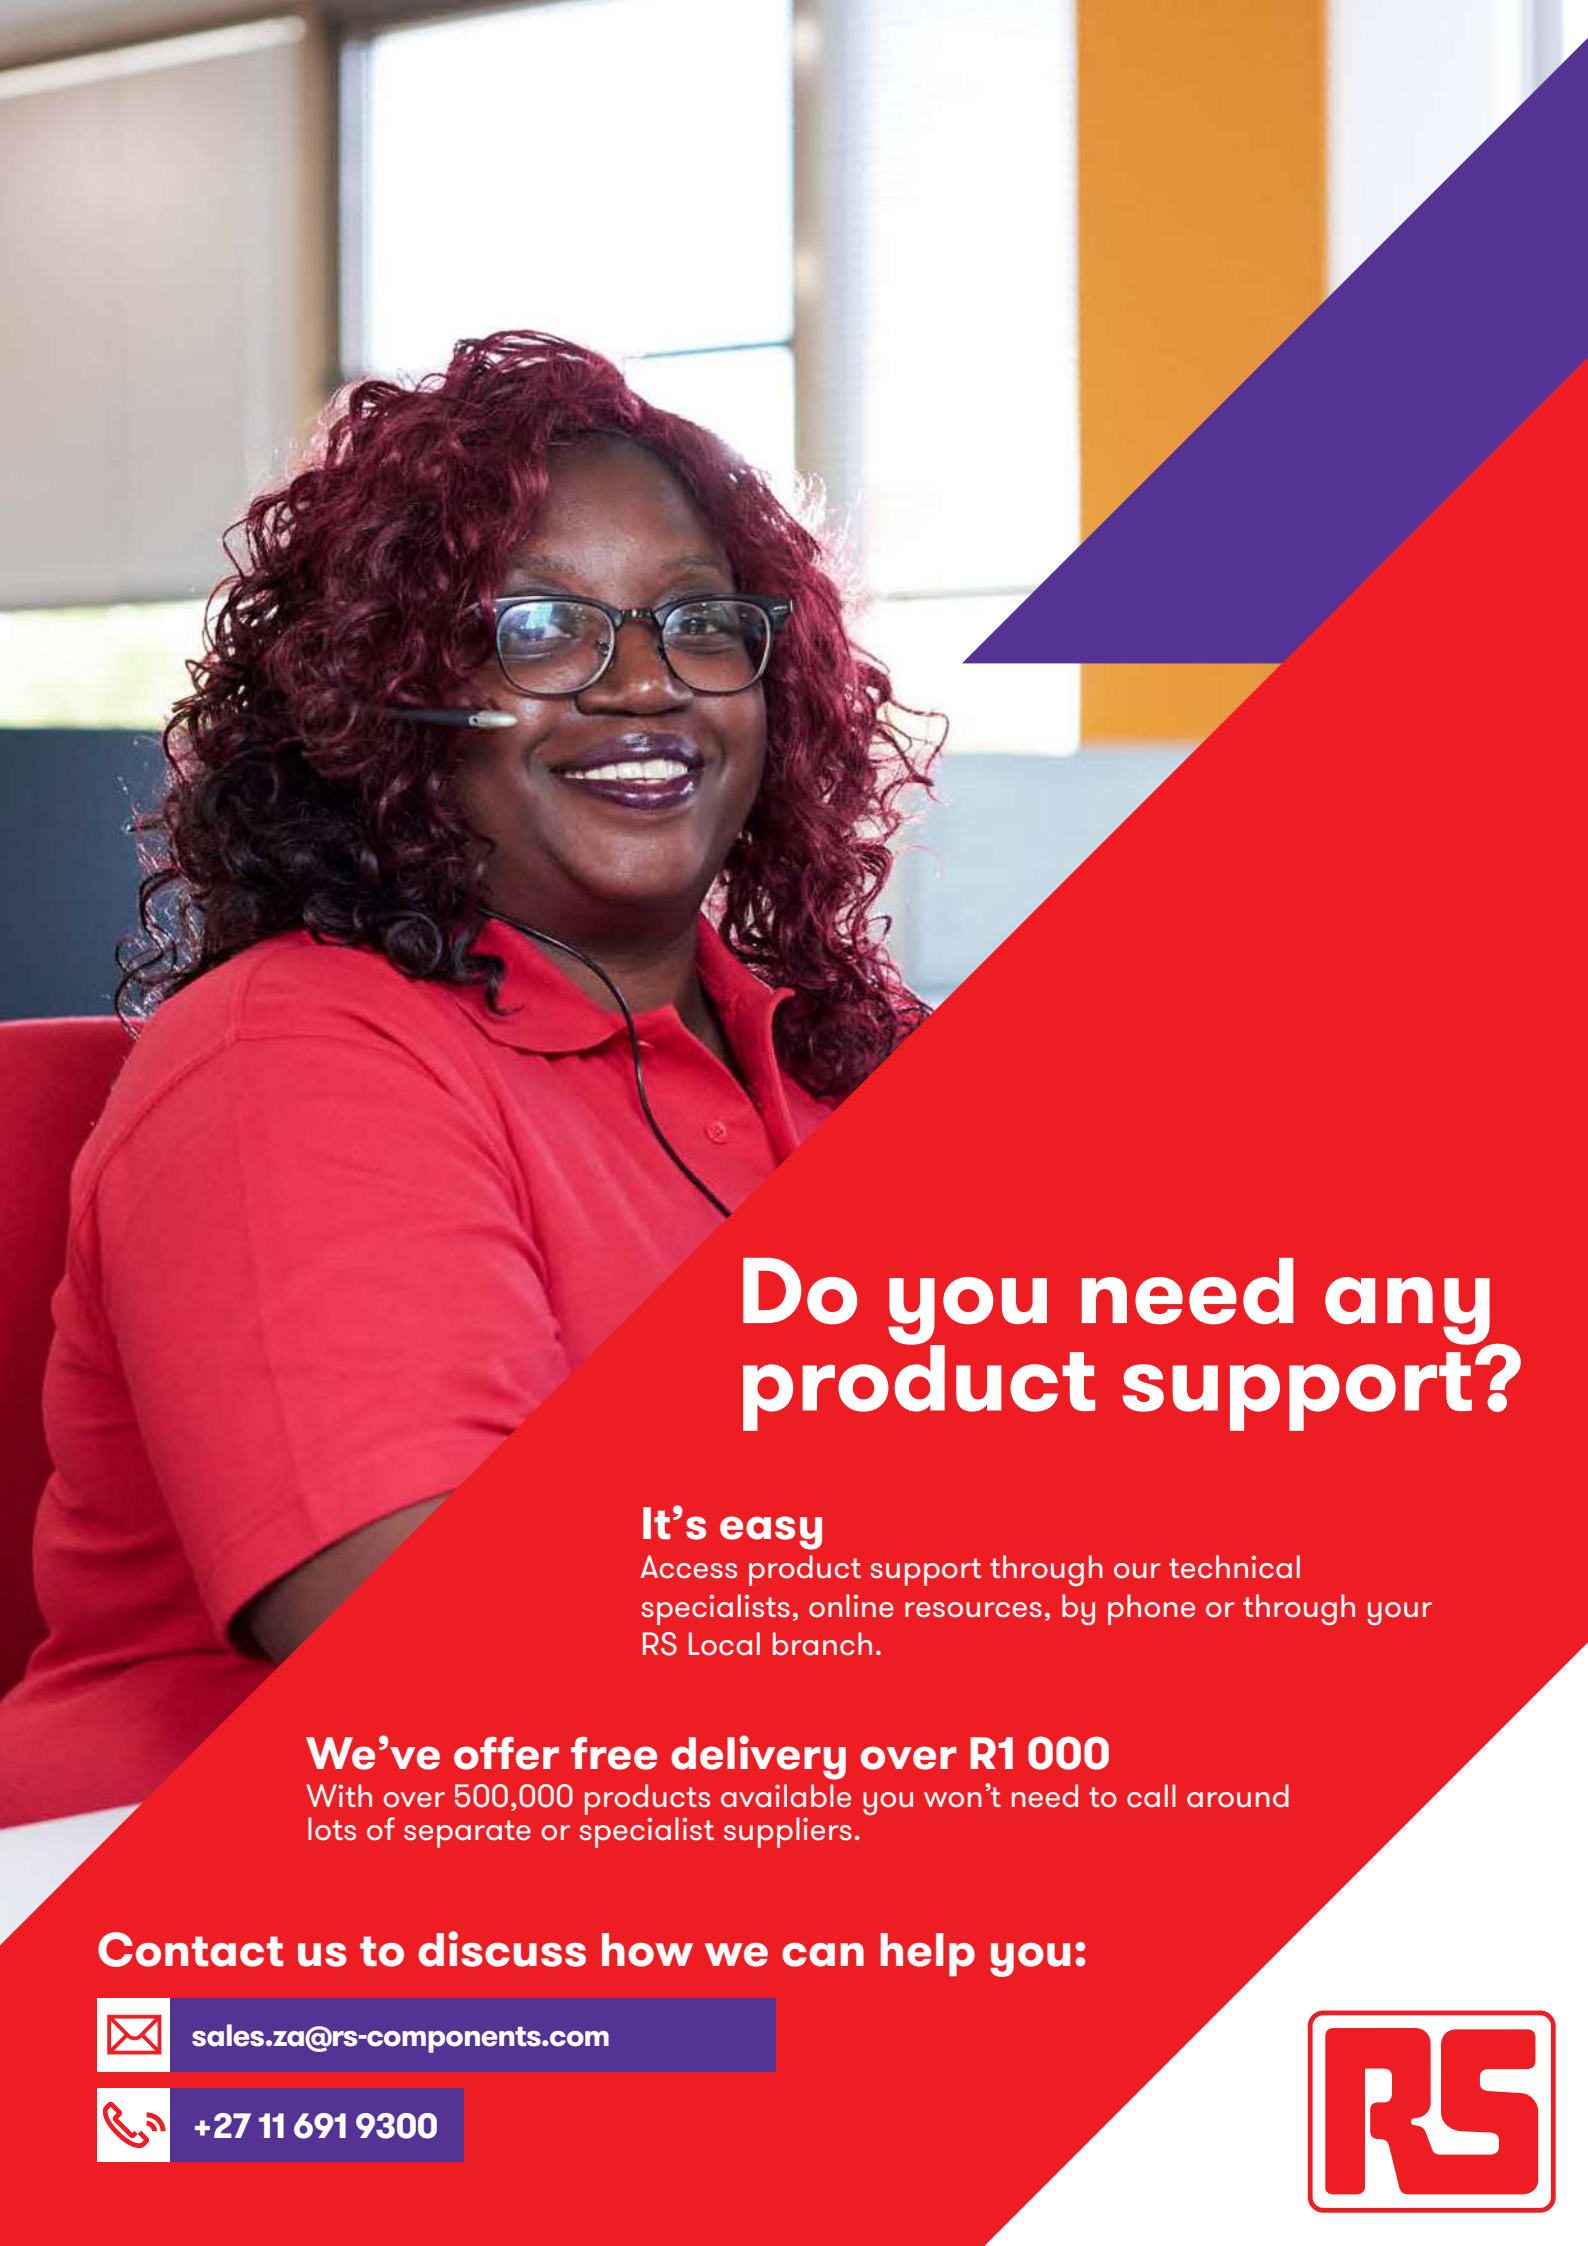

Do you need any product support?

It's easy
Access product support through our technical specialists, online resources, by phone or through your RS Local branch.

We've offer free delivery over R1 000
With over 500,000 products available you won't need to call around lots of separate or specialist suppliers.

Contact us to discuss how we can help you:
